Angela Slatter **Color of the Skin** Mitiku Ashebir, 2017-10-25 *Color of the Skin* talks about the color of human skin which ironically does not exist. However rather than rejecting the premises of traditional awareness about skin color the book uses existing perceptions as departure points in examining the inherent characteristics and social trappings surrounding skin color. The book defines the subject namely color of the skin with considerable precision elaborating on its various aspects by dialing forward accounts of ponderings that occurred far back in time and place but that are still fresh and substantive. It successfully distills a few fundamental concepts that widely contrast in some instances clash with existing popularly known and commonly understood notions concerning skin color. The book provides comparative descriptions in settings representing two countries Ethiopia where color of the skin is straightforward literal and simple where it is used primarily for identifying people and the United States where color of the skin is heavily loaded complex formal institutionalized and often political. The parameters in each abode provide adequate details indicating the scope and implications of the consequences of the resultant attitudes actions and practices thereof especially in the latter. The author proposes that color is a continuum by hosting a virtual tour through

reading trips from the equator out in four directions north east west and south narrating all the way describing and interpreting the topography of human color which cascades in all directions Further the writer suggests that no two persons will have the same color tone spread and texture This is equivalent to saying that there is an individual color but there is no group color It is close to saying that color of the skin is like fingerprints each person s being different from the next So the gross color division of black and white may be salvaged only when used for convenience and only for immediate references Any effort to institutionalize and formalize color betrays its natural constitution and thereby compounds the social economic and political problems that it has caused Progressively the book postulates credible concepts that demonstrate grouping people into black and white is arbitrary is subjective and worse in very significant ways is often prodded with intentional and exploitive motives The book invites readers to imagine the reverse of the current world order surrounding the color of skin putting everyone in good view to appreciate what the world might look like if fortunes tagged to color lines were overturned around the world The scenario presented under the section Imagining the Reverse is one of the light parts of the book but at its core the discourse here is indeed about a very serious matter The author observes that the various configurations used to differentiate countries by slicing them into developed and developing and second and third world countries follow skin color contours The issue of skin color is elevated to international levels drawing plausible conclusions that unfortunately the disadvantages of such perspectives outweigh the advantages The perceptions derived from such consensus affect world outlook on a number of issues immigration bilateral and multilateral economic relations and individual country s aspirations to mention a few perhaps rendering faulty designs on a national and international scale The writer takes futuristic perspective touching on global warming never mind the causes for now flagging it as a colossal development that can have an impact on the color of the skin big time In this vein the author surmises that global warming is likely to relentlessly rub against the human skin turning lighter skin to dull Brown may be the universal color of the future The principal motivation of going the distance the book has stretched to pursuing the issue of skin color is to ameliorate the stark differences biases and prejudices that old positions have unabatedly generated for a long time both in specific countries and worldwide Accordingly a few indicators that are considered to be harbingers of a friendlier cohesive fair peaceful and prosperous world have been identified The layout of the preferences to achieve a new positive and more functional world order leans on cooperation understanding collaboration and peace all demands of global realities of today and tomorrow The discussions that close the book in addition to heralding where the author is going with the stretch of ideas on color of skin demonstrate that integration the impetus for the book is a two way traffic and cannot happen without all parties involved being intentional and prepared to change Often life is about overcoming differences and savoring similarities Where there are differences changes and adaptations are required The section on integration demonstrates this phenomenon Tangentially the book also offers unassuming proposition for peace between Israel and Palestine and a point of view for restructuring the US refugee program

Arctic Justice Shelagh Grant, 2005 Although there was no Canadian law enforcement in the Eastern High Arctic when a crazed white fur trader was killed by an Inuk authorities put Nuqallaq and two other Baffin Island Inuit on trial The Canadian government saw Robert Janes's death as

murder the Inuit saw it as removing a threat from their society according to custom Nuqallaq was sentenced to ten years hard labour in Stony Mountain Penitentiary where he contracted tuberculosis He died shortly after being returned to Pond Inlet Shelagh Grant's award winning Arctic Justice is a masterly reconstruction of these tragic events at the intersection of Inuit and Canadian justice Combining original Inuit oral testimony with archival history Grant sheds light on the conflicting values and perceptions of two disparate cultures She shows how the Canadian government's decision was determined by fear and political concerns for establishing sovereignty over the Arctic Arctic Justice is also a social history of North Baffin Island in the twentieth century with vivid portraits of Janes Captain J E Bernier of the CGS Arctic investigating RCMP officer A H Joy and the remarkable Nuqallaq his wife Ataguttiaq and the Inuit of North Baffin Island
