Skywatchers Of Ancient Mexico:

Skywatchers of Ancient Mexico Anthony F. Aveni, 1980 Combining as it does the romance of space with the mystery of the past the study of pre Columbian skywatchers of the New World has drawn increasing scientific and popular attention in recent years Aveni one of the pioneers in this new interdisciplinary field couples basic astronomy with archaeological and ethnological data to present a readable and entertaining synthesis of what is known of ancient astronomy in this hemisphere

Skywatchers Anthony F. Aveni, 2001-08-15 Skywatchers of Ancient Mexico helped establish the field of archaeoastronomy and it remains the standard introduction to this subject Combining basic astronomy with archaeological and ethnological data it presented a readable and entertaining synthesis of all that was known of ancient astronomy in the western hemisphere as of 1980 In this revised edition Anthony Aveni draws on his own and others discoveries of the past twenty years to bring the Skywatchers story up to the present He offers new data and interpretations in many areas including The study of Mesoamerican time and calendrical systems and their unprecedented continuity in contemporary Mesoamerican culture The connections between Precolumbian religion astrology and scientific quantitative astronomy The relationship between Highland Mexico and the world of the Maya and the state of Pan American scientific practices The use of personal computer software for computing astronomical data With this updated information Skywatchers will serve a new generation of general and scholarly readers and will be useful in courses on archaeoastronomy astronomy history of astronomy history of science anthropology archaeology and world religions *Skywatchers of Ancient Mexico* Anthony F. Aveni, 1983 Skywatchers of Ancient Mexico Mark Littmann, 1982 Kit for a planetarium show about the Mayas Has a focus on their astronomical observations which helped to develop their calendar system Includes slides audio reels a brochure and the manual about the show The manual includes the script information about visual and special effects lists of the slides and how to fade them in and out a list of the music used in the production information on the individuals and groups that put the program together surveys and evaluations teacher information with classroom activities notes on the Mayan number system additional information about the Maya people and a bibliography A few of the slides are missing **Indigenous Intellectuals**

Gabriela Ramos, Yanna Yannakakis, 2014-04-30 Via military conquest Catholic evangelization and intercultural engagement and struggle a vast array of knowledge circulated through the Spanish viceroyalties in Mexico and the Andes This collection highlights the critical role that indigenous intellectuals played in this cultural ferment Scholars of history anthropology literature and art history reveal new facets of the colonial experience by emphasizing the wide range of indigenous individuals who used knowledge to subvert undermine critique and sometimes enhance colonial power Seeking to understand the political social and cultural impact of indigenous intellectuals the contributors examine both ideological and practical forms of knowledge Their understanding of intellectual encompasses the creators of written texts and visual representations functionaries and bureaucrats who interacted with colonial agents and institutions and organic intellectuals Contributors

Latin American Perspectives on Science and Religion Ignacio Silva, 2015-10-06 Latin America plays an increasingly important role in the development of modern Christianity yet it has been underrepresented in current scholarship on religion and science In this first book on the subject contributors explore the different ways that religion and science relate to each other **Heart of Creation** Andrea Joyce Stone, 2002 This accessible state of the art review of Mayan hieroglyphics and cosmology also serves as a tribute to one of the field s most noted pioneers The core of this book focuses on the current study

of Mayan hieroglyphics as inspired by the recently deceased Mayanist Linda Schele As author or coauthor of more than 200 books or articles on the Maya Schele served as the chief disseminator of knowledge to the general public about this ancient Mesoamerican culture similar to the way in which Margaret Mead introduced anthropology and the people of Borneo to the English speaking world Twenty five contributors offer scholarly writings on subjects ranging from the ritual function of public space at the Olmec site and the gardens of the Great Goddess at Teotihuacan to the understanding of Jupiter in Maya astronomy and the meaning of the water throne of Quirigua Zoomorph P The workshops on Maya history and writing that Schele conducted in Guatemala and Mexico for the highland people modern descendants of the Mayan civilization are thoroughly addressed as is the phenomenon termed Maya mania the explosive growth of interest in Maya epigraphy iconography astronomy and cosmology that Schele stimulated An appendix provides a bibliography of Schele s publications and a collection of Scheleana written memories of the Rabbit Woman by some of her colleagues and students Of interest to professionals as well as generalists this collection will stand as a marker of the state of Mayan studies at the turn of the 21st century and as a tribute to the remarkable personality who guided a large part of that archaeological research for more than two decades Re-Creating Primordial Time Gabrielle Vail, Christine Hernández, 2013-10-15 Re Creating Primordial Time

offers a new perspective on the Maya codices documenting the extensive use of creation mythology and foundational rituals in the hieroglyphic texts and iconography of these important manuscripts Focusing on both pre Columbian codices and early colonial creation accounts Vail and Hernández show that in spite of significant cultural change during the Postclassic and Colonial periods the mythological traditions reveal significant continuity beginning as far back as the Classic period Remarkable similarities exist within the Maya tradition even as new mythologies were introduced through contact with the Gulf Coast region and highland central Mexico Vail and Hernández analyze the extant Maya codices within the context of later literary sources such as the Books of Chilam Balam the Popol Vuh and the C dice Chimalpopoca to present numerous examples highlighting the relationship among creation mythology rituals and lore Compiling and comparing Maya creation mythology with that of the Borgia codices from highland central Mexico Re Creating Primordial Time is a significant
