industry but also promulgate facts that may lead to solutions of meat industry problems and aid in improving the efficiency of various associated industrial processes We have chosen to devote Volume 1 to electrical stimulation in view of the widespread interest in its meat industry applications Although the classical study by A Harsham and Fred Deatherage was published in 1951 it was not accepted by the meat industry owing to a number of factors that are discussed in the text These investigators did however lay the groundwork for modern electrical stimulation of carcasses by their detailed studies on the effects of varying current voltage frequency wave forms and time The basic information provided by these workers saved a great amount of experimentation by those who subsequently rediscovered electrical stimulation Foreign Agriculture Circular ,

This book reviews up to date literature on camel meat and meat products, carcass and meat quality characteristics, muscle structure, post mortem analysis, and the nutritive value to humans. A comparatively small component of global meat consumption, camel meat has the potential to undergo an explosion of production worldwide and currently farming for camel meat in Asia, Africa, Latin America, and Australia is undergoing significant expansion. The potential of camel meat in helping to meet projected world food shortages and being sustainably farmed is also explored by the editors.

Uumajursiutik unaatuinnamut / Hunter with Harpoon / Chasseur au harpon Markoosie Patsauq, 2021-01-20 Fifty years ago Markoosie Patsauq, then a bush pilot in his late twenties living in the tiny isolated High Arctic community of Resolute, spent his spare time quietly writing a story that effectively emerged as the first Indigenous novel released in Canada. Published in English under the title *Harpoon of the Hunter* in 1970 by McGill-Queen's University Press, that version of the story was Patsauq's own adaptation. In the years that followed, the widely acclaimed English edition was translated into many different languages, but what has remained obscured until the present day is the Inuktitut text originally produced by the author. In collaboration with Patsauq, Valerie Henitiuk and Marc Antoine Mahieu have foregrounded the original Inuktitut text to inform their translations into both English and French. This critical edition, complete with the story in both Inuktitut syllabics and Latin script, utilizes the author's handwritten manuscript as well as interviews with Patsauq to produce a new, rigorous examination of this literary and cultural milestone. This work also includes the first comprehensive account of the critical response to his writing while underscoring the way the much-altered English adaptation from 1970 shaped that response. A momentous achievement that situates a new classic in the twenty-first century, *Hunter with Harpoon* brings readers back to the roots of Markoosie Patsauq's Inuit story to experience it as it was originally written.
