Shameful Bodies Michelle Mary Lelwica, 2017-01-12 What happens when your body doesn't look how it's supposed to look or feel how it's supposed to feel or do what it's supposed to do Who or what defines the ideals behind these expectations How can we challenge them and live more peacefully in our bodies *Shameful Bodies* Religion and the Culture of Physical Improvement explores these questions by examining how traditional religious narratives and modern philosophical assumptions come together in the construction and pursuit of a better body in contemporary western societies Drawing on examples from popular culture such as self help books magazines and advertisements Michelle Mary Lelwica shows how these narratives and assumptions encourage us to go to war against our bodies to fight fat triumph over disability conquer chronic pain and illness and defy aging Through an ethic of conquest and conformity the culture of physical improvement trains us not only to believe that all bodily processes are under our control but to feel ashamed about those parts of our flesh that refuse to comply with the cultural ideal Lelwica argues that such shame is not a natural response to being fat physically impaired chronically sick or old Rather body shame is a religiously and culturally conditioned reaction to a commercially fabricated fantasy of physical perfection While *Shameful Bodies* critiques the religious and cultural norms and narratives that perpetuate external and internalized judgment and aggression toward shameful bodies it also engages the resources of religions especially feminist theologies and Buddhist thought practice to construct a more affirming approach to health and healing an approach that affirms the diversity fragility interdependence and impermanence of embodied life **Body**
