Sleepwalking Through History America In The Reagan Years

Rachel Sandford

Sleepwalking Through History America In The Reagan Years:

Sleepwalking Through History Haynes Johnson, 2003 National bestseller In this brilliantly readable book a Pulitzer Prize winning journalist chronicles the Reagan decade when America fell from dominant world power to struggling debtor nation and when optimism turned to foreboding In human terms and living case histories Haynes Johnson captures the drama and tragedy of an era nurtured by greed and a morality that found virtue in not getting caught It is morning again in America Reagan s campaign commercials told us and for too long we embraced that convenient lie Indeed the problems that came to plague us in that decade are with us even more today as Johnson memorably demonstrates in his afterword Notes on an Era written especially for this new paperback reissue This book will remain a signature work of political analysis for years to come *Sleepwalking through history* ,1992 *Deconstructing Reagan* Kyle Longley, Jeremy Mayer, Michael Schaller, John W. Sloan, 2015-01-28 Although he left office nearly 20 years ago Ronald Reagan remains a potent symbol for the conservative movement The Bush administration frequently invokes his legacy as it formulates and promotes its fiscal domestic and foreign policies His name is watchword for campus conservatives who regard him in a way that borders on hero worship Conservative media pundits often equate the term Reaganesque with personal honor fiscal rectitude and unqualified success in dealing with foreign threats But how much of the Reagan legacy is based on fact how much on idealized myth And what are the reasons political and otherwise behind the mythmaking *Deconstructing Reagan* is a fascinating study of the interplay of politics and memory concerning our fortieth president While giving credit where credit is due the authors scrutinize key aspects of the Reagan legacy and the conservative mythology that surrounds it **Subverting Mainstream Narratives in the Reagan Era** Ashley M. Donnelly, 2018-03-23 *Subverting Mainstream Narratives in the Reagan Era* explores how artists novelists and directors were able to present narratives of strong dissent in popular culture during the Reagan Era Using but subverting the tools of mainstream novels and films these visionaries works were featured alongside other books in major bookstores and promoted alongside blockbusters in movie theatres across the country Ashley M Donnelly discusses how the artists accomplished this why it is so important and how new artists can use these techniques in today s homogenous and mundane media **The Reagan Era** Doug Rossinow, 2015-02-24 In this concise but thorough history of America in the 1980s Doug Rossinow takes the full measure of Ronald Reagan s presidency and the ideology of Reaganism Believers in libertarian economics and a muscular foreign policy Reaganite conservatives in the 1980s achieved impressive success in their efforts to transform American government politics and society ushering in the political and social system Americans inhabit today Rossinow links current trends in economic inequality to the policies and social developments of the Reagan era He reckons with the racial politics of Reaganism and its debt to the backlash generated by the civil rights movement as well as Reaganism s entanglement with the politics of crime and the rise of mass incarceration Rossinow narrates the conflicts that rocked U S foreign policy toward Central America and he explains the role of the recession in the early 1980s in the

decline of manufacturing and the growth of a service economy From the widening gender gap to the triumph of yuppies and rap music from Reagan s tax cuts and military buildup to the celebrity of Michael Jackson and Madonna from the era s Wall Street scandals to the successes of Bill Gates and Sam Walton from the first war on terror to the end of the Cold War and the brink of America s first war with Iraq this history lively and readable yet sober and unsparing gives readers vital perspective on a decade that dramatically altered the American landscape

Historical Dictionary of the Reagan-Bush Era Richard S. Conley,2017-03-09 From the vantage point of the 2016 presidential election and the deepening polarization of American politics in recent decades it is striking how much more distant the Reagan Bush era of the 1980s and early 1990s seems compared to the years that have actually passed Whither the Republican Party of yesteryear Like reincarnated characters from Samuel Beckett s classic play Waiting for Godot many disillusioned conservatives in the new millennium continue to search obdurately and in vain for a leader who embodies the acclaimed leadership traits of Ronald Reagan This second edition of Historical Dictionary of the Reagan Bush Era contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations events institutions policies and issues This book is an excellent resource for students researchers and anyone wanting to know more about this era

The War Film Robert T. Eberwein,2005 War has had a powerful impact on the film industry while at the same time motion pictures can influence wartime behaviour shape our perception of the historical record This book collects essays that use a variety of critical approaches to explore this film genre

Religious Politics and Secular States Scott W. Hibbard,2010-10-15 2011 Winner of the Charles H Levine Memorial Book Prize of the International Political Science Association This comparative analysis probes why conservative renderings of religious tradition in the United States India and Egypt remain so influential in the politics of these three ostensibly secular societies The United States Egypt and India were quintessential models of secular modernity in the 1950s and 1960s By the 1980s and 1990s conservative Islamists challenged the Egyptian government India witnessed a surge in Hindu nationalism and the Christian right in the United States rose to dominate the Republican Party and large swaths of the public discourse Using a nuanced theoretical framework that emphasizes the interaction of religion and politics Scott W Hibbard argues that three interrelated issues led to this state of affairs First as an essential part of the construction of collective identities religion serves as a basis for social solidarity and political mobilization Second in providing a moral framework religion s traditional elements make it relevant to modern political life Third and most significant in manipulating religion for political gain political elites undermined the secular consensus of the modern state that had been in place since the end of World War II Together these factors sparked a new era of right wing religious populism in the three nations Although much has been written about the resurgence of religious politics scholars have paid less attention to the role of state actors in promoting new visions of religion and society Religious Politics and Secular States fills this gap by situating this trend within long

standing debates over the proper role of religion in public life **Presidents Who Shaped the American West** Glenda Riley, Richard W. Etulain, 2018-02-08 Generations of Americans have seen the West as beyond federal control and direction But the national government's presence in the West dates to before Lewis and Clark and since 1789 a number of U S presidents have had a penetrating and long lasting impact on the region In *Presidents Who Shaped the American West* noted historians Glenda Riley and Richard W Etulain present startling analyses of chief executives and their policies illuminating the long reach of presidential power The authors begin each chapter by sketching a particular president's biography and explaining the political context in which he operated while in office They then consider overarching actions and policies that affected both the nation and the region during the president's administration such as Thomas Jefferson's augmentation of the West via the Louisiana Purchase and Andrew Jackson's removal of American Indians from the Southeast to Indian Country in the West Abraham Lincoln's promotion of the Homestead Act a transcontinental railroad and western territories and states free of slavery marked further extensions of presidential power in the region Theodore Roosevelt's conservation efforts and Jimmy Carter's expansion of earlier policies reflected growing public concern with the West's finite natural resources and fragile natural environment Franklin D Roosevelt's New Deal Dwight D Eisenhower's highway program and Lyndon B Johnson's Great Society funneled federal funding into the West In return for this largesse some argued the West paid the price of increased federal hegemony and Ronald Reagan's presidency arguably curbed that power Riley and Etulain also discuss the most recent presidential terms and the region's growing political power in Congress and the federal bureaucracy With an accessible approach *Presidents Who Shaped the American West* establishes the crucial and formative nature of the relationship between the White House and the West and will encourage readers to continue examining this relationship

American Culture in the 1980s Graham Thompson, 2007-03-13 This book looks beyond the common label of Ronald Reagan's America to chart the complex intersection of cultures in the 1980s In doing so it provides an insightful account of the major cultural forms of 1980s America literature and drama film and television music and performance art and photography and influential texts and trends of the decade from White Noise to Wall Street from Silicon Valley to MTV and from Madonna to Cindy Sherman A focused chapter considers the changing dynamics of American culture in an increasingly globalised marketplace **Bulletin of the Atomic Scientists** ,1991-09 *Excellence for All* Jack Schneider, 2010

Excellence For All American Education Reform 1983 2008 examines the history of school reform in the United States over the past quarter century Specifically the work examines an approach to educational change best characterized by the phrase excellence for all an equity focused policy phenomenon uniquely situated for the policymaking context of the late twentieth and early twenty first centuries The idea of promoting excellence for all students united a broad enough coalition to pursue a truly national reform effort and captured the imaginations of leaders in state and local government at philanthropic foundations in colleges and universities and in school districts across the country Led by a corps of self styled educational

entrepreneurs aggressively pursuing reforms that they could take to scale the movement sought to remake the American high school piece by piece The dissertation examines this reform movement through the nation's three largest districts New York Chicago and Los Angeles and through three particular change efforts a physical plant reform the small schools movement a personnel reform Teach For America and a curricular reform the Advanced Placement Program The work aims to establish the ways in which this most recent era of school reform represented a departure from previous reform eras strives to explain the movement's broad appeal and ultimately aims to understand its shortcomings by exploring the assumptions underlying the excellence for all approach and the tradeoffs required by it

Prosecution Among Friends David Alistair Yalof, 2012 that occurred over the course of four decades beginning with the Nixon administration and extending up through the second Bush administration All of these cases Watergate Whitewater and others

Historical Dictionary of U.S. Diplomacy during the Cold War Martin Folly, 2014-11-13 This Historical Dictionary of U S Diplomacy during the Cold War offers readers a comprehensive accessible survey of the principal actors and events involved in the making of United States foreign policy during a crucial period in the nation's history The Cold War saw the United States acquire superpower status and to be closely involved in events around the globe Foreign policy became a central issue in domestic politics The confrontations with the Union of Soviet Socialist Republics and its allies and satellites and with the forces of international communism dominated U S interactions with the world throughout this period This book covers this turbulent period through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 900 cross referenced entries on key persons policies events institutions and organizations along with issues such as the division of Germany after World War II the creation of the People's Republic of China European economic recovery communist movements in the third world's decolonization the Vietnam War and the nuclear arms race This book is an excellent access point for students researchers and anyone wanting to know more about U S diplomacy during the cold war

Restless Giant James T. Patterson, 2005-09-23 In *Restless Giant* acclaimed historical author James Patterson provides a crisp concise assessment of the twenty seven years between the resignation of Richard Nixon and the election of George W Bush in a sweeping narrative that seamlessly weaves together social cultural political economic and international developments We meet the era's many memorable figures and explore the culture wars between liberals and conservatives that appeared to split the country in two Patterson describes how America began facing bewildering developments in places such as Panama Somalia Bosnia and Iraq and discovered that it was far from easy to direct the outcome of global events and at times even harder for political parties to reach a consensus over what attempts should be made At the same time domestic issues such as the persistence of racial tensions high divorce rates alarm over crime and urban decay led many in the media to portray the era as one of decline Patterson offers a more positive perspective arguing that despite our often unmet expectations we were in many ways better off than we thought By 2000 most Americans lived more comfortably than they had in the 1970s

and though bigotry and discrimination were far from extinct a powerful rights consciousness insured that these were less pervasive in American life than at any time in the past With insightful analyses and engaging prose Restless Giant captures this period of American history in a way that no other book has illuminating the road that the United States traveled from the dismal days of the mid 1970s through the hotly contested election of 2000 The Oxford History of the United States The Oxford History of the United States is the most respected multi volume history of our nation The series includes three Pulitzer Prize winners a New York Times bestseller and winners of the Bancroft and Parkman Prizes The Atlantic Monthly has praised it as the most distinguished series in American historical scholarship a series that synthesizes a generation s worth of historical inquiry and knowledge into one literally state of the art book Conceived under the general editorship of C Vann Woodward and Richard Hofstadter and now under the editorship of David M Kennedy this renowned series blends social political economic cultural diplomatic and military history into coherent and vividly written narrative **Crucible of**

Power Howard Jones,2009 Employing a narrative approach that uncovers the tangled and often confusing nature of foreign affairs Crucible of Power focuses on the personalities security interests and post war Cold War tendencies behind the formulation and implementation of U S foreign policy since 1945 The book includes updated coverage of the Bush administration s foreign policy with particular emphasis on the Middle East Selections from key foreign policy documents appear in each chapter **US Foreign Policy and Democracy Promotion** Michael Cox,Timothy J. Lynch,Nicolas Bouchet,2013-04-17 The promotion of democracy by the United States became highly controversial during the presidency of George W Bush The wars in Iraq and Afghanistan were widely perceived as failed attempts at enforced democratization sufficient that Barack Obama has felt compelled to downplay the rhetoric of democracy and freedom in his foreign policy This collection seeks to establish whether a democracy promotion tradition exists or ever existed in US foreign policy and how far Obama and his predecessors conformed to or repudiated it For more than a century at least American presidents have been driven by deep historical and ideological forces to conceive US foreign policy in part through the lens of democracy promotion Debating how far democratic aspirations have been realized in actual foreign policies this book draws together concise studies from many of the leading academic experts in the field to evaluate whether or not these efforts were successful in promoting democratization abroad They clash over whether democracy promotion is an appropriate goal of US foreign policy and whether America has gained anything from it Offering an important contribution to the field this work is essential reading for all students and scholars of US foreign policy American politics and international relations

Conservative Conservationist J. Brooks Flippen,2006-09 In the history of American environmentalism Russell E Train plays a starring role Few individuals have been so influential in creating the United States environmental policies and encouraging conservation efforts around the world In this absorbing new biography J Brooks Flippen describes Train s significance within the fascinating history of the contemporary environmental movement A lifelong Republican Train left a

successful judicial career to found the African Wildlife Leadership Foundation As the problems of pollution and unrestrained growth became apparent he adopted a more ecological approach to nature and became a leader of the emerging environmental movement of the 1960s He soon headed the Conservation Foundation one of the first organizations to appreciate that humans represent only one strand in the web of life President Richard Nixon appointed Train as the initial chairman of the Council on Environmental Quality just as the country celebrated its first Earth Day There he helped craft the most important environmental legislation in U S history After three years he became administrator of the Environmental Protection Agency enforcing regulations during the Energy Crisis and much of the troubled 1970s With the election of Democrat Jimmy Carter Train returned to the private sector as head of the American affiliate of the World Wildlife Fund He found himself increasingly at odds with many Republicans as a new more ideological brand of conservatism grew and bipartisanship faded Train s Republican credentials and environmental advocacy made him a vestige of the past and in a sense a hope for the future Given complete access to the personal papers and recollections of Russell Train Flippen casts an unbiased eye on this remarkable man and the causes he has so fervently promoted Of a prominent Washington family Train has known every president from Herbert Hoover to George W Bush His life and career illustrate the political dynamics of modern environmentalism and illuminate the insider culture of Washington D C **American Empire** Joshua

Freeman,2012-08-02 A compelling look at the movements and developments that propelled America to world dominance In this landmark work acclaimed historian Joshua Freeman has created an epic portrait of a nation both galvanized by change and driven by conflict Beginning in 1945 the economic juggernaut awakened by World War II transformed a country once defined by its regional character into a uniform and cohesive power and set the stage for the United States rise to global dominance Meanwhile Freeman locates the profound tragedy that has shaped the path of American civic life unfolding how the civil rights and labor movements worked for decades to enlarge the rights of millions of Americans only to watch power ultimately slip from individual citizens to private corporations Moving through McCarthyism and Vietnam from the Great Society to Morning in America Joshua Freeman s sweeping story of a nation s rise reveals forces at play that will continue to affect the future role of American influence and might in the greater world The Longest Con Joe Conason,2024-07-09 A sardonic chronicle of how conservatism turned into a racketeering enterprise and why Donald Trump became the living emblem of the American right s moral decay The Longest Con tells the fascinating story of the partisan con artists who have corrupted conservative politics in our time creating a toxic phenomenon that culminated in the election of Donald Trump a bumptious fraud whose checkered career and tawdry retinue including his presidential cabinet have featured almost every variety of scam But long before he appeared Trump s path to power was blazed by the motley horde of swindlers and quacks who preceded him From the professional anti communists whose tactics even J Edgar Hoover despised to the populist grifters of the Tea Party movement and the religious charlatans of the prosperity gospel who provided a pious front for

Trump the right wing ripoff has remained remarkably consistent even as personalities change and new technologies emerge Stir up anger and resentment demonize political opponents promise vengeance and collect donations from the gullible It s a highly lucrative game that any unscrupulous charlatan can play as many have and they are named in these pages In an unsparing and often comic narrative Joe Conason explores the right s long steep descent into a movement whose principal aim is not to protect freedom or defend the Constitution but merely to line the pockets of pretenders and blowhards whose malevolent tactics now endanger the nation

Thank you extremely much for downloading **Sleepwalking Through History America In The Reagan Years**. Most likely you have knowledge that, people have seen numerous times for their favorite books later than this Sleepwalking Through History America In The Reagan Years, but stop happening in harmful downloads.

Rather than enjoying a fine ebook afterward a mug of coffee in the afternoon, on the other hand they juggled later some harmful virus inside their computer. **Sleepwalking Through History America In The Reagan Years** is genial in our digital library an online entry to it is set as public thus you can download it instantly.
