Ronald A. Beghetto, James C. Kaufman

Special Relationship Our Teachers And How We Learn:

Curriculum for Gifted and Talented Students Joyce VanTassel-Baska, Sally M. Reis, Series Editor, 2003-11-06 The expert guide to the major issues the chief trends and the most effective models and solutions for gifted and talented curriculum Designed in a straightforward no nonsense fashion with the busy educator in mind Curriculum for Gifted and Talented Students presents the areas of the most significance most interest and most debate in gifted education today Key features include An astute and comprehensive overview by editor and leader within the field Joyce VanTassel Baska Eleven influential articles at the core of curriculum for the gifted Visionary projections of future trends in curriculum development Examples and suggestions for putting research findings to use in practice This ready reference offers the guidance the pragmatic application and the insight of top authorities empowering decision makers with all the tools they need to shape a successful and enriching curriculum for gifted students The ERGE Series The National Association for Gifted Children series Essential Readings in Gifted Education is a 12 volume collection of seminal articles from Gifted Child Quarterly Put the knowledge and power of more than 25 years of research on giftedness and talent into your hands with the leading theories studies and findings the experts in the field have to offer When Love Is Not Enough Donna Piazza, PHD, 2014-05-22 When Love Is Not Enough relates how a multitude of factors the competence of staff the safety nurturing and protective elements of the emotional physical and political setting and all overt and covert organizational dynamics determine whether or not a treatment setting accomplishes its therapeutic aims Authors in When Love Is Not Enough continue the emphasis on the group as a whole Group Relation model of organizational and group processes begun with Wilfred Bion's work at the Tavistock Clinic in London in the 1940s This model helps those providing services to children and adolescents evaluate their treatment programs and make the necessary changes toward improvement Chapters in When Love Is Not Enough are dedicated to improving the psychological treatment of children and adolescents in postmodern society a society in which life in interdependent communities is becoming increasingly important for the health and survival of all persons Topics covered include the Tavistock approach to understanding group and organizational behavior the emphasis on group as a whole in problem solving and treatment design narrowing the gap between plan and outcome the dynamics involved in the psychiatric treatment of children issues of staff selection training and development in programs designed to treat children countertransference responses in the treatment of children and adolescents revitalizing organizations the subjective experience of school life When Love Is Not Enough helps organizations realize the ways in which they may inadvertently undermine the emotional and cognitive functioning of the staff or the identified patients and set serious limits on the growth of members of the organization staff and patients alike It urges organizations to conduct an ongoing self scrutiny concerning their rational and irrational processes as this self examination is crucial to the health and vitality of the treatment offered to others The book also promotes thinking of the conscious and unconscious dynamics of the group as a whole to more

completely inform organizational decisions concerning changes that may enhance the treatment of children and adolescents When Love Is Not Enough serves as an invaluable guide for mental health professionals who treat children and adolescents group therapists hospital and clinic administrators psychoanalysts nurses social workers psychologists and psychiatrists

How We Learn Klaus Issler, Ron Habermas, 2002-05-17 No one fully understands how learning works but educational psychologists understand a great deal about what works The collaborative team of Klaus Issler and Ronald Habermas has assembled an integration of theology and instructional theory in Teaching for Reconciliation Foundations and Practice of Christian Educational Ministry Now they expound on one aspect of educational theory theology to help teachers choose the method that best reaches particular learners in a specific learning situation How We Learn demystifies the principles of educational psychology The book identifies means and barriers in learning motivational factors that make learners receptive learning s outcome in attitudes spirituality and behavior Application sections special exercises and examples plus dozens of figures and tables aid understanding of learning effectiveness age related development individual learning style special education and other issues The Lost Art of Drawing the Line Philip K. Howard, 2001-06-12 The Lost Art of Drawing the Line will appall and irritate and entertain readers every bit as much as Philip Howard s first book Why is it that no one can fix the schools Why do ordinary judgements fill doctors with fear Why are seesaws disappearing from playgrounds Why has a wave of selfish people overtaken America In our effort to protect the individual against unfair decisions we have created a society where no one s in charge of anything Silly lawsuits strike fear in our hearts because judges don t think they have the authority to dismiss them Inner city schools are filthy and mired in a cycle of incompetence because no one has the authority to decide who s doing the job and who s not When no one s in charge we all lose our link to the common good When principals lack authority over schools of what use are the parents views When no one can judge right and wrong why not be as selfish as you can be Philip Howard traces our well meaning effort to protect individuals through the twentieth century with the unintended result that we have lost much of our individual freedom Buttressed with scores of stories that make you want to collar the next self centered jerk or hapless bureaucrat The Lost Art of Drawing the Line demonstrates once again that Philip Howard is trying to drive us all sane **The Collapse of the Common Good** Philip K. Howard, 2007-12-18 In pursuit of fairness at any cost we have created a society paralyzed by legal fear Doctors are paranoid and principals powerless Little league coaches scared of liability stop volunteering Schools and hospitals start to crumble The common good fades replaced by a cacophony of people claiming their individual rights By turns funny and infuriating this startling book dissects the dogmas of fairness that allow self interested individuals to bully the rest of society Philip K Howard explains how trying to honor individual rights we removed the authority needed to maintain a free society Teachers don t even have authority to maintain order in the classroom With no one in charge the safe course is to avoid any possible risk Seesaws and diving boards are removed Ridiculous warning labels litter the American landscape Caution Contents Are Hot Striving to

protect individual rights we ended up losing much of our freedom When almost any decision that someone disagrees with is a possible lawsuit no one knows where he stands A huge monument to the unknown plaintiff looms high above America casting a dark shadow across our daily choices Today in the land of free speech you'd have to be a fool to say what you really think This provocative book not only attacks the sacred cows of political correctness but takes a breathtakingly bold stand on how to reinvigorate our common good Only by restoring personal authority can schools begin to work again Only by judges and legislatures taking back the authority to decide who can sue for what can doctors feel comfortable using their best judgment and Americans be liberated to say and do what they know is right Lucid honest and hard hitting *The Collapse of the Common Good* shows how Americans can bring back freedom and common sense to a society disabled by lawyers and legal fear

Debunking the Middle-Class Myth Eileen Gale Kugler, 2002-10-02 Many parents search for a good school to enroll their children They look at the school's standardized test scores and check out demographic statistics but fail to investigate the strengths of these schools that have a vibrant mix of races and cultures Eileen Gale Kugler offers a unique perspective on what every educator parent and community leader should know about reaping the rich harvest of our diverse schools This book provides guidance on how we can all work together to dispel the myths and nurture the opportunities that these schools offer such as academic challenge and social advantages Anecdotes from Kugler's personal experience are included as well as information from 80 interviews with key educators parents and students This book stands alone as a resource that pulls all of this information together Will be of interest to anyone who cares about education See Wendy Burt Thomas's interview with author Eileen Kugler at <http://askwendy.wordpress.com/s/kugler>

The Dichotomy: Facts and Perceptions LENKWANE H. MATHUNYANE, 2015-08-14 The contents of this handy book reflect on subjects that would enable parents teachers and students to broaden and deepen their insight in the interdependences of human beings in the social environment Subjects like psychosocial development education religion leadership and tradition feature prominently as indispensable interrelated life aspects that complement each other for human co-existence The concept dichotomy only seeks to highlight that in a diverse society apart from the prevailing similarities there are also differences which enrich the nation and have to be appreciated and celebrated The subject matter is structured in such a way that it is reader friendly Key words and/or phrases used have been highlighted explained and described in order to facilitate a mellow understanding of the subject matter The educational implications in all subjects have been presented as guidance and a well-crafted life orientation towards successful teaching and learning Syntheses have been provided in order to refresh the mind of the reader on what he had read The author at the beginning of each chapter and some paragraphs has drawn in the voices of great men and women who through their powerful influence changed the world This informative and educative book is compiled as a resource for students teachers and teachers in service at the teaching and learning centres namely high schools tertiary institutions public and private colleges

Nurturing Creativity in the Classroom Ronald A. Beghetto, James C. Kaufman, 2010-06-28

Nurturing Creativity in the Classroom is a groundbreaking collection of essays by leading scholars who examine and respond to the tension that many educators face in valuing student creativity but believing that they cannot support it given the curricular constraints of the classroom Is it possible for teachers to nurture creative development and expression without drifting into curricular chaos Do curricular constraints necessarily lead to choosing conformity over creativity This book combines the perspectives of top educators and psychologists to generate practical advice for considering and addressing the challenges of supporting creativity within the classroom It is unique in its balance of practical recommendations for nurturing creativity and thoughtful appreciation of curricular constraints This approach helps ensure that the insights and advice found in this collection will take root in educators practice rather than being construed as yet another demand placed on their overflowing plate of responsibilities

Reimagining the Role of Teachers in Nature-based Learning Rachel Larimore, Claire Warden, 2024-10-29 Learn how to integrate nature based pedagogy in this practical and inviting book Nature based teaching is getting more attention in early childhood education settings and can positively impact the development of young children s curiosity confidence and care You ll learn to not only identify but also embody the many roles teachers play when implementing nature based strategies Chapters lay out the research and theory behind each role specific language or behaviors of what that role looks like in practice and reflexive questions to help educators reflect on their practice This is perfect for in service early childhood educators including infant toddler preschool and elementary providers interested in more intentional use of nature in their teaching

Sign to Learn Kirsten Dennis, Tressa Azpiri, 2005-10-01 A guide for using American Sign Language as a teaching tool for young hearing children
