Speech Acts And Literary Theory:

Speech Acts and Literary Theory Sandy Petrey, 2016-08-19 This book first published in 1990 combines an introduction to speech act theory as developed by J L Austin with a survey of critical essays that have adapted Austin's thought for literary analysis. Speech act theory emphasizes the social reality created when speakers agree that their language is performative. Austin's term for utterances like 'we hereby declare' or 'I promise' that produce rather than describe what they name. In contrast to formal linguistics, speech act theory insists on language's active prominence in the organization of collective life. The first section of the text concentrates on Austin's determination to situate language in society by demonstrating the social conventions manifest in language. The second and third parts of the book discuss literary critics' responses to speech act theory's socialisation of language, which have both opened new understandings of textuality in general and stimulated new interpretations of individual works. This book will be of interest to students of linguistics and literary theory. *Speech Acts and Literary Theory* Sandy Petrey, 1990. This volume combines an introduction to speech act theory as developed by J L Austin with a survey of critical essays that have adapted Austin's thought for literary analysis. **Encyclopedia of**

Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline. As with any body of scholarship, various schools of thought exist and sometimes conflict within it. I R Makaryk has compiled a welcome guide to the field. Accessible and jargon-free, the *Encyclopedia of Contemporary Literary Theory* provides lucid, concise explanations of myriad approaches to literature that have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars, not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant, complex terms, places them in context, and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini-bibliographies, and cross-referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture. **Toward a Speech Act Theory of Literary Discourse** Mary Louise Pratt, 1983

Speech Acts in Literature Joseph Hillis Miller, 2001 This book demonstrates the presence of literature within speech act theory and the utility of speech act theory in reading literary works. Though the founding text of speech act theory, J L Austin's *How to Do Things with Words* repeatedly expels literature from the domain of felicitous speech acts, literature is an indispensable presence within Austin's book. It contains many literary references but also uses as essential tools literary

devices of its own imaginary stories that serve as examples and imaginary dialogues that forestall potential objections How to Do Things with Words is not the triumphant establishment of a fully elaborated theory of speech acts but the story of a failure to do that the story of what Austin calls a bogging down After an introductory chapter that explores Austin's book in detail the two following chapters show how Jacques Derrida and Paul de Man in different ways challenge Austin's speech act theory generally and his expulsion of literature specifically Derrida shows that literature cannot be expelled from speech acts rather than what he calls iterability means that any speech act may be literature De Man asserts that speech act theory involves a radical dissociation between the cognitive and positing dimensions of language what Austin calls language's constative and performative aspects Both Derrida and de Man elaborate new speech act theories that form the basis of new notions of responsible and effective politico ethical decision and action The fourth chapter explores the role of strong emotion in effective speech acts through a discussion of passages in Derrida Wittgenstein and Austin The final chapter demonstrates through close readings of three passages in Proust the way speech act theory can be employed in an illuminating way in the accurate reading of literary works
