Critical and radical perspectives have been central to the emergence of the sociology of sport as a discipline in its own right. This ground breaking new book is the first to offer a comprehensive theory and method for a critical sociology of sport. It argues that class political economy hegemony and other concepts central to the radical tradition are essential for framing understanding and changing social and political relations within sport and between sport and society. The book draws upon the disciplines of politics sociology history and philosophy to provide a critical analysis of power relations throughout the world of sport while offering important new case studies from such diverse sporting contexts as the Olympics world football boxing cricket tennis and windsurfing. In the process it addresses key topics such as nations and nationalism globalisation race gender political economy. **Power Games** can be used as a complete introduction to the study of sport and society. And will be essential reading for any serious student of sport. At the same time it is a provocative book that by argument and example challenges those who research and write about sport to make their work relevant to social and political reform.

Sport Empire Allan Edwards, James Skinner, 2006. Edwards and Skinner provide us with a new theoretical framework to analyse sport in the global context. Drawing on Hardt and Negri's concept of Empire 2000 they provide us with insight into a new form of the globalisation process and its modern manifestation in the form of Sport Empire. Particular attention is given to the role of Nation States and the United Nations. The various forms of biopolitical control that exist in Sport Empire are illustrated through a focus on the IOC and FIFA. Issues such as Corruption in Sport Transnational Media Conglomerates Genetic Engineering and Biotechnology Multiculturalism and Diversity Management Humanitarian projects Environmental and Health Challenges Terrorism and the role of the Multitude in producing a new global posthegemonic sport order are raised.
