Contemporary Gay American Poets and Playwrights Emmanuel S. Nelson, 2003-06-30 Gay presence is nothing new to American verse and theater Homoerotic themes are discernible in American poetry as early as the 19th century and identifiably gay characters appeared on the American stage more than 70 years ago But aside from a few notable exceptions gay artists of earlier generations felt compelled to avoid sexual candor in their writings Conversely most contemporary gay poets and playwrights are free from such constraints and have created a remarkable body of work This reference is a guide to their creative achievements Alphabetically arranged entries present 62 contemporary gay American poets and dramatists While the majority of included writers are younger artists who came of age in the post Stonewall U S some are older authors whose work has continued or persisted into recent decades A number of these writers are well known including Edward Albee Harvey Fierstein and Allen Ginsberg Others such as Alan Bowne Timothy Liu and Robert O'Hara merit wider recognition Each entry is written by an expert contributor and includes a biography a discussion of major works and themes an overview of the author's critical reception and primary and secondary bibliographies

between philosophical perspectives on the human animal boundary and those that draw on fictional literature The objective is to establish a dialogue between those disciplines with the goal of expanding the imaginative scope of human animal relationships The contributions thus do not only trace and deconstruct the boundaries dividing humans and nonhuman animals they also present the reader with alternative perspectives on the porous continuum and surprising reversal of what appears as human and what as nonhuman

The Strategic Smorgasbord of Postmodernity Deborah Bowen, 2011-05-25 Contemporary Christian critique often talks about postmodernism apocalyptically in terms of cultural crisis and decline instead the contributors to this volume believe that there is a new place for Christian entries on the academic Smorgasbord of postmodernity and they see the postmodern turn as an opportunity for fresh perspectives on the spiritual dimensions of reading literature These twenty scholars are an eclectic group differing in theological and theoretical commitments but all identifying as Christian In this collection they enter into dialogue with a wide range of contemporary literary theorists and theoretical perspectives and offer new readings of primary texts informed by both these theoretical constructs and their Christian faith The manuscript strikes out in important new directions in its sympathetic reading of postmodern theory from a Christian perspective and even more significantly in its careful and measured dialogic approach to the relationship of Christian thought and contemporary literary theory Daniel Coleman Canada Research Chair in Critical Ethnicity and Race Studies Department of English and Cultural Studies McMaster University Too often Christian literary critics and theologians have preemptively dismissed postmodern theory even as secular critics have been equally dismissive about the contributions that the Christian faith tradition makes to the study of literature This volume successfully brings these two worlds together in innovative at times challenging and always rich ways I do not know of a similar volume in existence a work that gathers in one convenient publication a wide ranging set of discussions of contemporary literary theory by Christian scholars The editor has gathered an impressive and important set of papers here and I believe the volume will raise much interest and provoke a good deal of constructive debate Susan VanZanten Gallagher Professor of English Director Center for Scholarship and Faculty Development Seattle Pacific University

The Sea and Nineteenth-Century Anglophone Literary Culture Steve Mentz, Martha Elena Rojas, 2016-11-18 During the nineteenth century British and American naval supremacy spanned the globe The importance of transoceanic shipping and trade to the European based empire and her rapidly expanding former colony ensured that the ocean became increasingly important to popular literary culture in both nations This collection of ten essays by expert scholars in transatlantic British and American literatures interrogates the diverse meanings the ocean assumed for writers readers and thinkers on both sides of the Atlantic during this period of global exploration and colonial consolidation The book's introduction offers three critical lenses through which to read nineteenth century Anglophone maritime literature wet globalization which returns the ocean to our discourses of the global salt aesthetics which considers how the sea influences artistic culture and aesthetic theory and blue ecocriticism which poses an oceanic
