<u>Forthcoming Books</u> Rose Arny,1992 **Mediating Order and Chaos** Rodney Farnsworth,2001 This literature centered study offers an interdisciplinary approach to Romantic culture If is pioneering in that it employs the complexity method of

anthropology Recent literary studies employ the complexity chaos theory adapted from the natural sciences however here is presented for the first time a complexity method taken from the social human sciences. This complexity method is useful in mediating not only contradictions within Romanticism but the chaos of contemporary theories concerning it. One of the intensifying literary debates is that between the so called Greens and Reds naturalists and humanists Mediating Order and Chaos not only traces the split between nature and man to Romantic Culture but finds there too a Spinozian vision of man and nature in unity thereby denying any naturalist humanist split. This volume is of interest for those who wish to see essays in the holistic approach to culture Centering on hydraulics hydrology and meteorology this study examines literature painting music economics and the rhetoric of science philosophy and politics it therewith demonstrates how the water cycle was transformed into a cosmic metaphor that mediated in the form of several complex adaptive systems between the chaos of too much change and that of not enough American Book Publishing Record ,1991
