Swidpowell Objects By Architects:

Swid Powell Annette Tapert,1990 A full range of architect designed objects for use in the home by the most celebrated international architects SWID POWELL. Annette Tapert,1990 Michael Graves Michael Graves,1999 **Between Memory and Invention** Robert A.M. Stern,2022-03-08 A capsule history of American architecture since 1960 Wall Street Journal Architect historian and educator Robert A M Stern presents a personal and candid assessment of contemporary architecture and his fifty years of practice For more than fifty years Robert A M Stern has designed extraordinary buildings around the world Founding partner of Robert A M Stern Architects RAMSA Stern was once described as the brightest young man I have ever met in my entire teaching career by Philip Johnson and recently called New York City s most valuable architect by Bloomberg Encompassing autobiography institutional history and lively behind the scenes anecdotes Between Memory and Invention My Journey in Architecture surveys the world of architecture from the 1960s to the present and Robert A M Stern s critical role in it The book chronicles Stern s formative years architectural education and half century of architectural practice touching on all the influences that shaped him He details his Brooklyn upbringing family excursions to look at key twentieth century buildings and relationships with prominent teachers Paul Rudolph and the legendary Vincent Scully among them Stern also recounts the origins of RAMSA and major projects in its history including the new town of Celebration Florida the restoration of Times Square and 42nd Street 15 Central Park West Benjamin Franklin and Pauli Murray Colleges at Yale and the George W Bush Presidential Center as well as references the many clients fellow architects and professional partners who have peopled his extraordinary career By turns thoughtful critical and irreverent this accessible informative account of a life in architecture is replete with personal insights and humor Stern s voice comes through clearly in the text he details his youthful efforts to redraw house plans in real estate ads his relationship to Philip Johnson which began at Yale and was sustained through countless lunches at the Four Seasons his love of Cole Porter and movies from the 1930s and 1940s his struggle to launch an architecture practice in the 1970s in the midst of a recession and his complex association with Disney and Michael Eisner Unsurprisingly New York City plays a big role in Between Memory and Invention Stern has a deep commitment to the city and recording its past he is the lead author of the monumental New York book series the definitive history of architecture and urbanism from the late nineteenth century to the present and shaping its future Though now a global practice RAMSA residential towers rise throughout Manhattan to enrich the skyline in the tradition of the luxurious apartment buildings of the 1920s and 1930s Supported by a lively mix of images drawn from Stern s personal archive and other resources this much anticipated memoir is interspersed with personal travel slides images of architectural precedents and the colleagues that have shaped his thinking and photographs of the many projects he discusses With a thoughtful afterword by architectural historian Leopoldo Villardi that delves into Stern s process of putting together this extraordinary autobiographical work Between Memory and Invention is a personal candid assessment of a

foremost practitioner historian instructor and advocate of architecture today **Interiors** ,1993-07 *New York Magazine* ,1987-09-28 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

Architect as designer and artist Volker Fischer,2003 The distinguished American architect and Pritzker laureate has also worked for decades as a designer and artist creating a number of products for companies in the USA and Europe

Twentieth Century Design Jonathan M. Woodham,1997-04-10 A look at the wider issues of design and industrial culture throughout Europe Scandinavia North America and the Far East The book explores the way in which 20th century designs such as the Coca Cola bottle have affected our culture more than those considered true classics *Makers of Modern Architecture, Volume II* Martin Filler,2013-08-20 In the first volume of *Makers of Modern Architecture* 2007 Martin Filler examined the emergence of that revolutionary new form of building and explored its aesthetic social and spiritual aspirations through illuminating studies of some of its most important practitioners from Louis Sullivan and Frank Lloyd Wright to in our own time Renzo Piano and Santiago Calatrava Now in *Makers of Modern Architecture Volume II* Filler continues his investigations into the building art beginning with the historical eclecticism of McKim Mead and White best remembered today for New York City s demolished Pennsylvania Station He surveys the seemingly inexhaustible flow of new books about Wright and Le Corbusier and continues his commentaries on Piano s museum buildings with an essay focused on the new Broad Contemporary Art Museum in Los Angeles There are less well known subjects here too from the Frankfurt urban planner Ernst May to Buckminster Fuller inventor of the geodesic dome Filler judges Edward Durell Stone the architect of the U S embassy in New Delhi the Huntington Hartford Museum in New York City and the Kennedy Center in Washington to have been a middling product of his times however personally interesting he may have been And he looks back at James Stirling who in the 1970s and 1980s was a veritable rock star of the profession responsible for what Filler considers some of the very few worthwhile postmodernist buildings The essays collected here are not entirely historical however Filler also focuses on some of the most recent projects to have attracted critical and popular attention both in the United States and abroad including Rem Koolhaas s CCTV building in Beijing and Bernard Tschumi s Acropolis Museum in Athens He argues that Kazuyo Sejima and Ryue Nishizawa s New Museum in New York City is one of those rare clarifying works of architecture that makes most recent buildings of the same sort look suddenly ridiculous He calls Tod Williams and Billie Tsien s brilliant reimaging of the Barnes Collection in Philadelphia a latter day miracle a virtually unimprovable setting for its art He finds Michael Arad s September 11 Memorial at Ground Zero a sobering disturbing heartbreaking and overwhelming masterpiece And he argues that Diller Scofidio Renfro s Institute of Contemporary Art in Boston and their

work revitalizing the High Line and Lincoln Center in New York make them today's shrewdest yet most sympathetic enhancers of the American metropolis Filler remains in these nineteen essays a shrewd observer of the pressures on architects and their projects money politics social expectations even the weight of their own reputations But his focus is always on the buildings themselves on their sincerity and directness on their form and their function on their capacity to bring delight to the human landscape

Blueprint, 1987 Makers of Modern Architecture, Volume III Martin Filler, 2018-09-25 An invaluable guide to lives and work of Frank Gehry Antoni Gaudí Frank Lloyd Wright Louis Kahn Maya Lin and other important figures of 20th and 21st century architecture Martin Filler's contribution to both architecture criticism and general readers' understanding is invaluable according to Publishers Weekly This latest installment in his acclaimed Makers of Modern Architecture series again demonstrates his unparalleled skill in explaining the revolutionary changes that have reshaped the built environment over the past century and a half These studies of more than two dozen master builders women and men celebrated and obscure idealists and opportunists range from the environmental pioneer Frederick Law Olmsted and the mystical eccentric Antoni Gaudí to the present day visionaries Frank Gehry and Maya Lin Filler's broad knowledge embraces everything from the glittering Viennese luxury of Josef Hoffmann to the heavy duty construction of the New Brutalists from the low cost postwar suburbs of the Levitt Brothers to today's super tall condo towers on Manhattan's Billionaire's Row Sometimes the interplay of social and political forces leads to dark results as with Hitler's favorite architect Albert Speer and interior designer Gerdy Troost More often though heroic figures including Frank Lloyd Wright Louis Kahn and Lina Bo Bardi offer uplifting inspiration for the future of the one art form we all live with and in every day

Important 19th & 20th Century Photographs Swann Galleries, 2004 Architecture Series: Bibliography, 1990 **American Glass** John Stuart Gordon, 2018-01-01 Glass can be decorative or utilitarian and its forms often reflect technological innovations and social change Drawing on an insightful selection from the Yale University Art Gallery and other collections at Yale American Glass illuminates the vital and often intimate roles that glass has played in the nation's art and culture Spectacularly illustrated the publication showcases eighteenth century mold blown vessels nineteenth century pressed glass innovative studio work and luminous stained glass windows by John La Farge and Louis Comfort Tiffany the latter reproduced as a lush gatefold These are considered alongside beguiling objects that broaden our expectations of glass and speak to the centrality of the medium in American life including one of the oldest complex microscopes in the United States an early Edison light bulb glass plate photography jewelry and more With an essay on the history of collecting American glass and discussions of each object that present new scholarship this engaging book tells the long and rich history of glass in America from prehistoric minerals to contemporary sculptures
