John Rowan, Michael Jacobs

Swift To Hear Facilitating Skills In Listening And Responding:

Swift to Hear Michael Jacobs, 2000 An essential feature of successful counselling is the ability to listen and respond well to the information being given in an interview In this book the author shows how this ability may take away the need for leading and advising creating a counselling encounter that is constructive and helpful Leaders whether clerical or lay teachers or managers doctors or social workers frequently see their role as one of communication but in the excitement of communicating forget that theirs are not the only important voices The primary purpose of this book is to emphasize the necessity of learning to listen as well as to speak and to respond to what is said and what is omitted **Swift to Hear**

Abingdon Press, Michael Jacobs, 1985 Applied Sport Psychology Brian Hemmings, Tim Holder, 2013-09-09 Taking a refreshingly different approach to the subject this new textbook uses original case studies of psychological support work with individual athletes and groups to illustrate the underlying theory and inform the reader of cutting edge practice in the field It addresses real world issues and helps the student understand the problems and challenges that the sport psychologist faces and is employed to resolve The book begins by exploring the use of case studies as a professional method for disseminating applied knowledge and practice in sport psychology The remaining chapters constitute the core of the book the case studies themselves Each case study demonstrates scientific rigour in reporting the background information initial assessment intervention and monitoring evaluation of the intervention and also considers consultant effectiveness through reflective practice The chapters also contain summaries and an accompanying set of questions for students Written by a team of experienced practitioners this book shows how sport psychology actually works in practice As such it will prove invaluable to students of sport psychology in both sport and exercise science and psychology programmes It will also be an extremely useful resource for coaches and sports professionals undergoing training in sport psychology *Swift to Hear* Michael Jacobs, 1985 In this volume the author focuses on the development of basic listening and responding skills and describes the process of communication which is at the heart of the helping interview **Helping Adolescents and Adults to Build**

The Therapist's Use of Self John Rowan,Michael Jacobs,2002-10-16 Most therapists regardless of theoretical approach intuitively recognize that their sense of self intimately influences their work Using this elemental truth as a launching pad Rowan and Jacobs articulate the different avenues through which the self informs therapy and how each can be used to improve therapeutic effectiveness Along the way the authors provide a masterful exposition of transference countertransference and projective identification throwing much needed light on topics that have long been mired in controversy and confusion The book is a priceless resource for experienced therapists and those just beginning the journey Professor Sheldon Cashadan author of *Object Relations Therapy* and *The Witch Must Die The Hidden Meaning of Fairy Tales* Outstandingly in the current literature this book meets the conditions for integrative psychotherapy to fulfil its undoubted

potential as the therapy pathway of the future Much has to change in our field First people have to become better informed and more respectful of other traditions than their own engaging with all kinds of taboo topics Next vigorous but contained dispute has to take place without having a bland synthesis as its goal Finally the current situation in which integration runs in one direction only humanistic and transpersonal therapists learning from psychoanalysis has to be altered Rowan and Jacobs each a master in his own field have done a wonderful collaborative job The book s focus on what different ways of being a therapist really mean in practice guarantees its relevance for therapists of all schools or none and at every level Andrew Samuels Professor of Analytical Psychology University of Essex and Visiting Professor of Psychoanalytic Studies Goldsmith s College University of London There is no question in psychotherapy more important than the degree to which the practitioner should be natural and spontaneous Would it be sensible to leave one s ordinary everyday personality behind when entering the consulting room and adopt a stance based on learned techniques This is the question addressed by Rowan Jacobs in *The Therapist s Use of Self* approaching it from various angles and discussing the relevant ideas of different schools of thought The authors are very well informed and write with admirable clarity directness and wisdom and have made an impressive contribution to a problem to which there is no easy solution Dr Peter Lomas author of *Doing Good Psychotherapy Out of Its Depth* This book deals with what is perhaps the central question in therapy who is the therapist And how does that actually come across and manifest itself in the therapeutic relationship A good deal of the thinking about this in psychoanalysis has come under the heading of countertransference Much of the thinking in the humanistic approaches has come under such headings as empathy genuineness nonpossessive warmth presence personhood These two streams of thinking about the therapist s own self provide much material for the bulk of the book but other aspects of the therapist also enter the picture including the way a therapist is trained and uses supervision in order to make fuller use of her or his own reactions responses and experience in working with any one client The book is aimed primarily at counsellors and psychotherapists or trainees in these disciplines It has been written in a way that is accessible to students at all levels but it is also of particular value to existing practitioners with an interest in the problems of integration
