Hensley, 2016 In this far reaching and provocative study Nathan K Hensley shows how the modern state's anguished relationship to violence pushed literary writers of the Victorian era to expand the capacities of literary form He explores the works of some of the era's most astute thinkers including George Eliot Charles Dickens and Robert Louis Stevenson      **Tracing the Connected Narrative** Janice Cavell, 2008-12-27 By the 1850s journalists and readers alike perceived Britain's search for the Northwest Passage as an ongoing story in the literary sense Because this story appeared like so many nineteenth century novels in a series of installments in periodicals and reviews it gained an appeal similar to that of fiction *Tracing the Connected Narrative* examines written representations of nineteenth century British expeditions to the Canadian Arctic It places Arctic narratives in the broader context of the print culture of their time especially periodical literature which played an important role in shaping the public's understanding of Arctic exploration Janice Cavell uncovers similarities between the presentation of exploration reports in periodicals and the serialized fiction that she argues predisposed readers to take an interest in the prolonged quest for the Northwest Passage Cavell examines the same parallel in relation to the famous disappearance and subsequent search for the Franklin expedition After the fate of Sir John Franklin had finally been revealed the *Illustrated London News* printed a list of earlier articles on the missing expedition suggesting that the public might wish to re-read them in order to trace the connected narrative of this chapter in the Arctic story Through extensive research and reference to new archival material Cavell undertakes this task and in the process recaptures and examines the experience of nineteenth century readers      *Straight Writ Queer* Richard Fantina, 2006-09-27 The advent of gay and lesbian studies as an academic field opened the door for a new exploration of sexuality in literature Here works generally considered heterosexual are re-examined in the light of queer theory The notion of homosexuality is viewed as a social construction that emerged during the 19th century with a definitive difference between biological sex and gendered behavior Heterosexuality is determined by whether sexual performance conforms to society designated gender roles From this wider perspective this book examines literature previously viewed as straight in a search for alternative manifestations of desire and performance relationships that contain an apparent disconnect between gender and desire With broad coverage of many periods authors and genres the 17 essays identify inherently queer heterosexual practices and critique the idea of heteronormativity blurring the line between homo and heterosexuality Topics discussed include sodomy and chastity Victorian literature the relationship between sex gender and desire and the instability in literary portrayals of gender and sexuality George Eliot George Meredith Ernest Hemingway and Rider Haggard are among the many authors discussed      **Publications of the Modern Language Association of America** Modern Language Association of America, 1960 Vols for 1921-1969 include annual
