Switzerland and Migration Barbara Lüthi, Damir Skenderovic, 2019-04-30 This book explores the history of migration in Switzerland from the late nineteenth century to the present day It brings together recent scholarship on Switzerland in the field of cultural and migration studies as well as migration history and combines various research approaches from postcolonial studies transnational studies border studies and history of knowledge Since the late nineteenth century Switzerland has gradually transformed into a migration society becoming one of the countries in Europe with the highest percentage of migrant population While migration has become one of most contentious issues in Swiss public and political debates the volume also shows how migrants have developed various strategies to deal with the country's discriminatory policies and distinct institutional settings The authors of the volume convincingly challenge the view that Switzerland still does not represent a migration or even post migrant society and substantially contributes to the long overdue acknowledgement of Switzerland in migration history and studies at the international level

Church, 2007-01-24 Despite its geographical centrality and its considerable economic involvement in Europe Switzerland remains unusual in that it is neither a member of the European Union or the European Economic Area At a time when the Union is both expanding and seeking to develop its integration the country constitutes a real anomaly amongst west European states This book demonstrates the range depth and complexity of Switzerland s developing relations with Europe and provides detailed and up to date information on Switzerland itself Considering a variety of dimensions of the country and its ambiguous relations with the EU the contributors all of whom are leading specialists on Swiss EU relations explore the classical political obstacles to entry federalism direct democracy neutrality and the growing strength of anti European populism policy barriers to integration in trade and economics generally in financial matters and in social provisions relating to the movement of people the negotiation of the two sets of bilateral accords which presently structure Swiss relations with the Union the EU response and the prospects for future Swiss EU relations Switzerland and the European Union will appeal to specialists on Switzerland academics and students in politics and international relations and practitioners in European integration and Swiss politics *Venture Capital in Switzerland* Jens Engelhardt, 2010 *EU Enlargement and European Integration: Challenges and Perspectives* Andreas Kellerhals, Tobias Baumgartner, Fatlum Ademi, 2024-08-29 At the beginning of 2022 a major EU enlargement seemed unlikely in the near future However Russia s invasion of Ukraine in February 2022 fundamentally shifted the European Commission s stance Ukraine and Moldova were granted EU candidate status and Georgia was added to the list of potential candidates This raises questions about the future of the European Neighbourhood Policy While EU enlargement has gained momentum certain areas of integration have stalled such as the expansion of the eurozone and the Schengen area despite Croatia s recent accession Romania and Bulgaria remain in waiting Meanwhile new formats of continental cooperation such as the European Political Community launched in 2022 raise the question of whether

more differentiated integration models will emerge Additionally the war in Ukraine has exacerbated other crises including inflation the energy crisis food shortages in the Global South and unprecedented refugee movements not only from Ukraine but also other regions Against this backdrop the 14th Network Europe Conference examined EU enlargement prospects and the challenges facing European integration in times of global crisis This publication features contributions from Fatlum Ademi Antonina Bakardjieva Engelbrekt Melita Carevi Jelena Ceranic Perisic Viorel Cibotaru Waltraud Hakenberg Garine Hovsepian Andreas Kellerhals Lee McGowan Henri Vogt and Ralph Weber Network Europe was founded in 2003 by the Europa Institute at the University of Zurich with support from the Swiss government It serves as a forum for scholarly exchange on legal and political aspects of European integration bringing together researchers from across Europe

Balancing the Commons in Switzerland Tobias Haller, Karina

Liechti, Martin Stuber, François-Xavier Viallon, Rahel Wunderli, 2021-03-29 *Balancing the Commons in Switzerland* outlines continuity and change in the management of common pool resources such as pastures and forests in Switzerland. The book focusses on the differences and similarities between local institutions, rules and regulations and forms of commoners' organisations, civic communities and corporations which have managed common property for several centuries and have shaped the cultural landscapes of Switzerland. At the core of the book are five case studies from the German, French and Italian speaking regions of Switzerland. Beginning in the late medieval ages and focussing on the transformative periods in the 19th and 20th Century, it traces the internal and external political, economic and societal changes and examines what impact these changes had on commoners. It goes beyond the work of Robert Netting and Elinor Ostrom who discussed Swiss commons as a unique case of robustness by analysing how local commoners reacted to but also shaped changes by adapting and transforming common property institutions. Thus, the volume highlights how institutional changes in the management of the commons on the local level are embedded in the public policies of the respective cantons and the state, which generates a high heterogeneity and an actual laboratory situation. It shows the very different ways that local collective organisations and their members have followed in order to cope with the loss of value of the commons and the increased workload for maintaining common property management. Providing insightful case studies of commons management, this volume delivers theoretical contributions and lessons to be learned for the commons worldwide. This book will be of great interest to students and scholars of the commons, natural resource management and agricultural development.

The European

Neighbourhood Policy in a Comparative Perspective

Sieglinde Gstöhl, 2016-07-22

The European Neighbourhood Policy ENP has evolved into one of the European Union's major foreign policy instruments and received considerable attention. However, other EU neighbourhood policies and their relevance for the ENP also require examination. The Arab uprisings, civil wars in Libya and Syria, the continuing Israeli-Palestinian conflict, the crisis in Ukraine and Russia's annexation of the Crimean peninsula have all brought the institutional design and tools of the ENP into question and a comparative perspective is crucial to understand EU neighbourhood policies in a wider sense. This timely book puts the ENP into context by exploring the major challenges and key lessons of the EU's other policy frameworks with neighbouring countries. Mapping the EU's bilateral and multilateral neighbourhood relations in comparison to the ENP and investigating the major challenges faced, it provides a comprehensive up-to-date view of the EU's relations with its neighbours. Focusing on current affairs and future challenges, the comparison with the ENP and the lessons to be drawn generate novel insights into the EU's closest external relations. This book will be of key interest to students and scholars studying European Politics, policies and comparative politics.
