Laffin, Anne Montgomery, 2010-05-01 Why is nonviolent civil disobedience divine disobedience an imperative for bringing about disarmament What is the connection between faith nonviolence and resistance How does one prepare for nonviolent acts of resistance How does one respond to the charges brought in court How does one view and cope with the consequences of imprisonment How have some people nonviolently responded to U S intervention in Iraq and Central America and in war torn countries like Bosnia What are the main tenets of U S nuclear and foreign policy in the post Cold War era What is the human cost of weapons production What does it mean to live in a national security state What are some of the challenges faced by people in the U S who are concerned about justice and peace The primary goal of this revised edition of *Swords into Plowshares* is to provide some initial answers to these and related questions Contributors to this edition include Bob Aldridge Daniel and Philip Berrigan Samuel H Day Jr Jim and Shelly Douglass Elizabeth McAlister Molly Rush and a host of other activists **Pragmatic Liberal Approach To World Order** Nejat Dogan, 2012-12-21 There are two well known approaches to the study of international relations Realism and Idealism This book explores the writings of Inis L Claude Jr a preeminent scholar on international relations to define a third approach Pragmatic liberalism an in between approach argues that a liberal world order can be sustained and promoted by the pragmatic application of liberal principles It rejects both the over pessimism of Realism and the over optimism of Idealism while refusing to maintain that the anarchic nature of the international system is unchangeable or even that we can change it overnight However it is possible to eventually improve the international system This melioristic approach to world order and international relations can be explained through the sophisticated writings of Inis L Claude Jr who has remained a celebrated scholar and an example to students of international relations everywhere for over a half century *An Introduction to Political Science* Rais Ahmad Khan, Stuart A. he distinguishes literary works from peace advocacy and nonviolence and relates them to broad currents of United States history The Quakers of the 1680s and abolitionists of the 1850s the sanctuary Movement and Plowshares of the 1980s novelists from Nathaniel Hawthorne to Norman Mailer and poets from Walt Whitman to Denise Levertov all have written powerful works on nonviolent action Through this literature the author explores the beauty of an important theme in American literature At a time when people face widespread injustice True reminds us that nonviolence holds a significant place in our country s history Crafting Cooperation Amitav Acharya,Alastair Iain Johnston,2007-11-22 Regional institutions are an increasingly prominent feature of world politics Their characteristics and performance vary widely some are highly legalistic and bureaucratic while others are informal and flexible They also differ in terms of inclusiveness decision making rules and commitment to the non interference principle This is the first book to offer a conceptual framework for comparing the design and effectiveness of regional international institutions including the EU NATO ASEAN OAS AU and the Arab League The case studies by a group of leading scholars of regional institutions offer a rigorous historically informed analysis of the differences and similarities in institutions across Europe Latin America Asia Middle East and Africa The chapters provide a more theoretically and empirically diverse analysis of the design and efficacy of regional institutions than heretofore available The Quest For A Just World Order Samuel S Kim,2019-07-11 In response to a growing sense of dissatisfaction with the state of the world and the state of international relations research Professor Kim has taken an alternative approach to the study of contemporary world politics Specifically he has adopted and expanded the cross cultural interdisciplinary and transnational approach developed by the World Order Models Project WOMP an enterprise committed to the realization of peace economic equality and well being social justice and ecological balance Systemic in scope and interdisciplinary in methodology The Quest for a Just World Order explains and projects the issues patterns and trends of world politics giving special attention to the attitudinal normative behavioral and institutional problems involved in the politics of system transformation Professor Kim also attempts to remedy a number of problematic features of traditional approaches including a value neutral orientation fragmentation and overspecialization overemphasis on national actors the superpowers and stability and the Hobbesian image of world politics Part 1 presents a conceptual framework for developing a normative theory of world order Each of the four chapters in Part 2 examines a specific global crisis in depth working within the framework laid out in Part 1 In Part 3 a variety of desirable and feasible transition strategies are proposed and Professor Kim assesses the prospects for achieving a just and humane world order system by the end of this century The Urbanization of Forced Displacement Neil James Wilson Crawford,2022-01-31 Displacement in the twenty first century is urbanized The United Nations Refugee Agency UNHCR the world s largest humanitarian organization and the main body charged with assisting displaced people globally estimates that over 60 per cent of refugees now live in urban areas a proportion that only increases in the case of internally displaced people and asylum seekers Though cities and local

authorities have become essential participants in the protection of refugees only three decades ago they were considered to sit firmly beyond UNHCR's remit with urban refugees typically characterized as aberrations. In *The Urbanization of Forced Displacement* Neil James Wilson Crawford examines the organization's response to the growing number of refugees migrating to urban areas. Introducing a broader study of policy making in international organizations Crawford addresses how and why UNHCR changed its policy and practice in response to shifting trends in displacement. Citing over 400 primary UN documents Crawford provides an in-depth study of the internal and external pressures faced by UNHCR pressures from above below and within that explain why it has radically transformed its position from the 1990s onward. UNHCR and global refugee policies have come to play an increasingly important role in the governance of global displacement. *The Urbanization of Forced Displacement* sheds new light on how the organization works and how it conceives its role in global politics today.

Africa in World Politics Lambert U. Ejiofor, 1981 States, Nonstate Actors, and Global Governance Edward A. Fogarty, 2013. This book addresses whether and how multilateral economic regimes can successfully transition from international institutions cooperation among states to global governance cooperation among states and nonstate actors. The unprecedented era of peace and prosperity since World War II has been underpinned by multilateral economic regimes yet in recent years the rise of nonstate actors has intensified international conflicts regarding fundamental questions of how to govern. This book asks whether and how multilateral regimes will be able to adapt. Based on an analysis of multilateral regimes for trade investment and poor country debt the author concludes that all multilateral regimes including those in the security human rights and environmental areas face an increasingly existential challenge of reconciling the diverse policy preferences of an ever growing constituency of state and nonstate actors. This book's key contribution is a single model of state and nonstate actor preference formation which offers the reader a new way to understand the dynamics of twenty first century global governance. *States Nonstate Actors and Global Governance* will be of interest to students and scholars of international relations economics international institutions global governance and international political economy.
