Summary of Chrisanna Northrup, Pepper Schwartz & James Witte's The Normal Bar Everest Media, 2022-06-04T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The idea that love at first sight is the truest form of love is a popular one but it doesn t always happen that way In fact 28 percent of women and 48 percent of men in our survey said they had experienced love at first sight 2 People who fell in love at first

sight are more likely to report satisfaction with their present sex life even after decades together This might indicate that intense attraction early on in the relationship was especially important for the last group of baby boomers 3 Love involves more than just attraction and sexual satisfaction Compatibility is a crucial element Many people believe that true love depends on finding the one true mate who is meant for you But this is an overly simplistic view of love 4 The concept of soul mates is common among religious people who believe that they have found and are with their own soul mates However the majority of people we surveyed believe that their current partners are their soul mates **W.
