philosophical discourse on epistemology and ontology in aesthetics their chance placement in each Bibliograph interspersed with one another displaying and enhancing similarities and differences At the same time these works constitute a development in the aesthetic form of the Bibliograph In earlier works on Nothing Absence and Silence it was just a question of finding and transferring given textual references from their source to construct their Bibliographs with the focus being on the strategic position of the latter within each book In these new works the concern has been with working on the line and shape of the references themselves with their enhanced spacial form as well as that of each Bibliograph as a whole In shaping and spacing the referential images the place of words and letters became as important as their semantic to read in a new way on diverse contemporary issues across conventional boundaries in the arts and sciences at several levels of physical psychical and social reproduction

Seeking the Spiritual Townsend Ludington, 1998 Marsden Hartley 1877 1943 was a writer and a spiritual seeker as well as a distinguished American painter In his introduction to this generously illustrated volume Townsend Ludington explores the relationships among Hartley's art poetry and essays He traces the philosophical and literary sources that nourished the artist's evolving spiritual consciousness Raised in Lewiston Maine Hartley felt at odds with life A voracious reader he educated himself and became enamored of the transcendentalists Ralph Waldo Emerson and Henry David Thoreau and particularly of Walt Whitman He began spending winters in New York City where he met and was befriended by Alfred Stieglitz He visited Europe but remained restless for the right physical environment Eventually returning to New England Hartley painted in Dogtown Massachusetts in the low hills behind the port of Gloucester and the stark landscape there stimulated some of his most famous paintings Throughout his career Hartley painted landscapes and seascapes in which he tried to convey his sense of the wonder of earth at the same time attempting to articulate the spiritual awareness that came to him in the magic of dreams Consciously representative of modernism Hartley strove to express as Wallace Stevens said not ideas about the thing but the thing itself He believed that the acts of reading writing and painting gave significance to the world accessible to his senses This book is published with the cooperation of the Ackland Museum in Chapel Hill North Carolina and the Babcock Galleries in New York City

Improvisation Simon Shaw-Miller, 2022-04-07 Central to the development of abstract art in the early decades of the 20th century was the

conception most famously articulated by Walter Pater that the most appropriate paradigm for non figurative art was music The assumption has always been that this model was most effectively understood as Western art music classical music However the musical form that was abstract art s true twin is jazz a music that originated with African Americans but which had a profound impact on European artistic sensibilities Both art forms share creative techniques of rhythm groove gesture and improvisation This book sets out to theorize affinities and connections between and across two seemingly diverse cultural phenomena **Bulletin of the Whitney Museum of American Art** Whitney Museum of American Art,1979
