underlying causes and how to address roots of the problem rather than simple punishment so that children do not become repeat offenders She also discusses ways to build honesty and confidence so that children can become self sufficient life long learners who no longer feel a need to resort to cheating dishonesty or manipulation *Unplug! 101 Ways to Pull Your Kids Away from Television* Wanda Kanten Hartfield,2003 This is a book full of ideas to help lure your kids away from the enticing glow of television and into the world creativity and imagination It s motivational and practical a good resource for anyone who works with kids parents teachers grandparents homeschoolers group leaders and baby sitters Prefaced by a chapter of statistics and references to current thought on children and television viewing 101 activities supported with catchy graphics easy instructions are offered for kids varying in age up to preteens by former television producer and teacher of Romper Room the longest running children s TV show in the country from 1953 to the late nineties Today television is the number one activity for both kids and adults Studies show that children devote up to 42 hours per week viewing television depending on what study you re willing to accept A recent study by the Journal of Science March 29 2002 concludes that the more time kids spend watching television the more likely they are to behave aggressively in future Kids would be better off if they watched LESS THAN one hour a day on average said lead author Jeffrey Johnson of Columbia University The Everything Parent's Guide to Raising a Gifted Child Robbins Med Herbert,2011-12-15 Raising a gifted child is both a joy and a challenge Gifted and exceptional children can seem self sufficient but it takes more than intelligence to lead a happy and fulfilling life Your child need your support and advocacy in school in social situations and even at home This guide shows you how to encourage and foster your gifted child from birth to adolescence including information on How to determine if your child is gifted Options for school programs and activities Dealing with perfectionism and stress Setting realistic and healthy goals for your child Ensuring proper socialization and friendship Coping with jealousy and bullying from other children Packed with useful and professional advice this is a reassuring guide to help your gifted child grow thrive and develop his talents *Yes, We Are Stupid in America!* Dr. Vicky Wells,2013-01-21 Students in countries such as Finland South Korea and Singapore continue to outperform their peers in America But that hasnt stopped the United States government from spending more money on education as achievement plummets Dr Vicky Wells a former school principal explores whats going on at the federal state and local levels so that members of the public can hold bureaucrats accountable In a series of reality checks she explains how to meet the growing crisis head on equip students with the necessary skills upon graduation make decisions based upon the input of real life educators and ignore politics in order to best serve students Teachers and parents trust leaders to make decisions based on whats best for the students Even so all too often decision making seems to be more about politics and quid pro quo and this does not best serve students educators or the community The educational system continues to decline and students keep dropping out or graduating without the knowledge they need to succeed Its time to stop constantly changing curriculum and start focusing on the real problems confronting teachers and students **Raising**
