My thesis is that there is a direct relationship between our life journeys and Spirit. In the process of living our lives and evolving spiritually we move through many dimensions of being. This inner journeying reflects in the world. Forming the Future implies an individual action that shapes the future. It contains the idea that an individual is not powerless to shape his or her own destiny. When I think of Forming the Future I feel happy and in saying those words the mark is raised of all that is possible to achieve. As a mantra it is a postulate in my consciousness for the magic that happens when spirit, soul and body are in complete alignment. It is a remembrance of an experience of total surrender to something greater than myself.
