Symbolic And The Real:

Rhetorical Unconsciousness and Political Psychoanalysis M. Lane Bruner, 2019-06-04 Case studies exploring the roots of persuasion and rhetorical unconsciousness Rhetorical Unconsciousness and Political Psychoanalysis investigates unintentional forms of persuasion their political consequences and our ethical relation to the same M Lane Bruner argues that the unintentional ways we are persuaded are far more important than intentional persuasion in fact all intentional persuasion is built on the foundations of rhetorical unconsciousness whether we are persuaded through ignorance the unsayable unconscious symbolic processes the unspoken or productive repression the unspeakable Bruner brings together a wide range of theoretical approaches to unintentional persuasion establishing the locations of such persuasion and providing examples taken from the Western European transition from feudalism to capitalism To be more specific phenomena related to artificial personhood and the commodity self have led to transformations in material culture from architecture to theater showing how rhetorical unconsciousness works to create symptoms Bruner then examines ethical considerations the relationships among language in use unconsciousness and the seemingly irrational aspects of cultural and political history

The Symbolic Uses of Politics Murray Jacob Edelman, 1985 The symbolic manifestations purposes and uses of politics are revealed in this provocative analysis of the institution of politics and man as a political animal Unlike the conventional study of politics that deals with how people get the things they want through government this book concentrates on how politics influence what they want what they fear and what they regard as possible In examining politics as a symbolic form it looks at man and politics as reflections of each other

Lacan and the Concept of the 'Real' T. Eyers, 2012-08-07 This is the first book in English to explore in detail the genesis and consequences of Lacan's concept of the Real providing readers with an invaluable key to one of the most influential ideas of modern times

Lacan and the Limits of Language Charles Shepherdson, 2009-08-25 Stages refreshing encounters between Lacanian psychoanalysis and its others Kristeva Heidegger Derrida or Foucault to name just a few thinkers Ewa Ziarek author of *An Ethics of Dissensus* This book weaves together three themes at the intersection of Jacques Lacan and the philosophical tradition The first is the question of time and memory How do these problems call for a revision of Lacan's purported ahistoricism and how does the temporality of the subject in Lacan intersect with the questions of temporality initiated by Heidegger and then developed by contemporary French philosophy The second question concerns the status of the body in Lacanian theory especially in connection with emotion and affect which Lacanian theory is commonly thought to ignore but which the concept of *jouissance* was developed to address Finally it aims to explore beyond the strict limits of Lacanian theory possible points of intersection between psychoanalysis and other domains including questions of race biology and evolutionary theory The book also engages literary texts Antigone Ovid's *Metamorphoses* Hamlet and even Wordsworth become the muses who oblige psychoanalysis and philosophy to listen once again to the provocations of poetry which always disrupts our familiar notions of time and memory of history and bodily or

affective experience and of subjectivity itself Shepherdson shows with admirable clarity cogency and competence that psychoanalysis finds an anthropology of love hate desire beauty fantasy and memory while keeping its cutting edge in today's discussions of war race sexual difference and tragedy Thanks to him thinking with Lacan becomes an act of enlightenment

Psychoanalysis is less merciful than Christianity Where God the Father forgives our ignorance psychoanalysis holds out no such hope Ignorance is not a sufficient ground for forgiveness since it masks enjoyment an enjoyment which erupts in those black holes in our symbolic universe that escape the Father's prohibition Today with the disintegration of state socialism we are witnessing this eruption of enjoyment in the re emergence of aggressive nationalism and racism With the lid of repression lifted the desires that have emerged are far from democratic To explain this apparent paradox says Slavoj Zizek socialist critical thought must turn to psychoanalysis For They Know Not What They Do seeks to understand the status of enjoyment within ideological discourse from Hegel through Lacan to these political and ideological deadlocks The author's own enjoyment of popular culture makes this an engaging and lucid exposition in which Hegel joins hands with Rossellini Marx with Hitchcock Lacan with Frankenstein high theory with Hollywood melodrama *Tarrying with the Negative* Slavoj Zizek, 1993-10-19 In the space of barely more than five years with the publication of four pathbreaking books Slavoj Zizek has earned the reputation of being one of the most arresting insightful and scandalous thinkers in recent memory Perhaps more than any other single author his writings have constituted the most compelling evidence available for recognizing Jacques Lacan as the preeminent philosopher of our time In *Tarrying with the Negative* Zizek challenges the contemporary critique of ideology and in doing so opens the way for a new understanding of social conflict particularly the recent outbursts of nationalism and ethnic struggle Are we Zizek asks confined to a postmodern universe in which truth is reduced to the contingent effect of various discursive practices and where our subjectivity is dispersed through a multitude of ideological positions No is his answer and the way out is a return to philosophy This revisit to German Idealism allows Zizek to recast the critique of ideology as a tool for disclosing the dynamic of our society a crucial aspect of which is the debate over nationalism particularly as it has developed in the Balkans Zizek's home He brings the debate over nationalism into the sphere of contemporary cultural politics breaking the impasse centered on nationalisms simultaneously fascistic and anticolonial aspirations Provocatively Zizek argues that what drives nationalistic and ethnic antagonism is a collectively driven refusal of our own enjoyment Using examples from popular culture and high theory to illuminate each other opera film noir capitalist universalism religious and ethnic fundamentalism this work testifies to the fact that far more radically than the postmodern sophists Kant and Hegel are our contemporaries Laclau Simon Critchley, Oliver Marchart, 2004 Laclau A Critical Reader is the first full length critical appraisal of Laclau's work and includes contributions from several leading philosophers and theorists The first section examines Laclau's theory that the contest between universalism and particularism provides much of the philosophical background to political and social struggle taking up the important place accorded to amongst others

Hegel and Lacan in Laclau's work The second section of the book considers what Laclau's radical democracy might look like and reflects on its ethical implications particularly in relation to Laclau's post Marxism and thinkers such as Jürgen Habermas The final section investigates the place of hegemony in Laclau's work the idea for which he is perhaps best known This stimulating collection also includes replies to his critics by Laclau and the important exchange between Laclau and Judith Butler on equality making it an excellent companion to Laclau's work and essential reading for students of political and social theory
