**Kevin M. Cahill (Professor of
Philosophy), Lene Johannessen**

Symbolic Presidency How Presidents Portray Themselves:

The Symbolic Presidency Barbara Hinckley, 1990 Describing how American presidents present themselves and their governments to the people this text analyzes the entire staging of a presidential appearance Focusing on the modern presidents from Truman to Bush the author's research is rooted in the Public Papers of each president *The Myth of Presidential Representation* B. Dan Wood, 2009-06-22 The Myth of Presidential Representation evaluates the nature of American presidential representation questioning the commonly held belief that presidents represent the community at large

The Oxford Handbook of the American Presidency George C. Edwards, William G. Howell, 2011-08-04 With engaging new contributions from major figures in the field The Oxford Handbook of the American Presidency provides the key point of reference for anyone working in American politics today **The Image Is Everything Presidency** Gilbert St.

Clair, 2018-03-09 Image is everything Today our television and movie stars our athletes and our politicians carefully craft images for public consumption Even our country's Executive Chief is not immune to a bit of image manipulation If presidents can not always actually satisfy the public's excessive contradictory and unrealistic expectations they can at least present a compelling image of presidential leadership and success When it comes to the modern presidency tennis star Andre Agassi was correct Image is everything Image creation is a serious business with critically important implications for the success of any politician But presidents must be careful in deciding how they craft the ways in which we perceive them If they are to succeed presidents must present an appropriate image of leadership to the American people an image that is appropriate for the particular needs of the time when the president governs and is appropriate to the personality of that president Their ultimate goal is to convince the public that they are actually providing leadership even if in reality they have only a limited ability to effect outcomes This book examines the way American presidents in the media age have shaped their public personas as a means of cultivating and advancing their political and ideological agendas Images play an important role in the perceived success or failure of our presidents Since public expectations are most often aimed directly at the White House and its central occupant it is more important than ever that a president control his image as well as presenting the right image to the American public Reality thus becomes secondary and image is everything **Considering Class** Kevin M. Cahill

(Professor of Philosophy), Lene Johannessen, 2007 In the 21st century hardly any aspects of human existence are left unexplored by postmodern theories and discourses of subjectivity and individuality of hybridity and identity of race gender and ethnicity Conspicuous however among these critical inquiries is the relatively little attention devoted to the category of class This absence is particularly alarming at a time when neo liberalism and post capitalism feed on cultural fragmentation and ideological relativism The contributions in *Considering Class* Essays on the Discourse of the American Dream address the dysfunctional position of class in American socio political and cultural reality from a variety of disciplinary perspectives While it is open to debate whether class is more resistant to being relativized than other categories there is increasing

recognition that class remains a critical category with the potential to transcend the rifts and divisions that run along lines of race ethnicity and gender and with the potential to reconfigure the current American political landscape

The British Presidency Michael Foley, 2000 The Premiership of Tony Blair has not only reaffirmed previous trends towards leader centered parties and governments it has provided a decisive change in the development of a British presidency The strategies and techniques designed to secure and expand Blair's public outreach together with the priority attached to the prime minister's personal pledges and individual vision have propelled the office into new dimensions of independence Michael Foley argues that the ascendancy of Blair is not an aberration but rather a culmination of trends that have established vigorous leadership as a key criterion of political evaluation and governing competence This edition is completely up to date including the first convincing analysis of Tony Blair's leadership style

American Credo Michael Foley, 2007-09-13 American society may be hostile to the thought of ideologies but it possesses a sophisticated but little understood ability to engage in deep conflicts over political ideas while at the same time reducing adversarial positions to legitimate derivatives of American history and development The study asks how this occurs how the sources traditions and usages of core ideas and their derivative compounds animate political discourse and structure the basis of political conflict and how it is possible to sustain a high incidence of competitive value laden argument and principled political conflict within a stable political order The fundamental aim of this study is to examine the traditions and usages of American political ideas within the arena of practical politics By locating them in their respective contexts it will be possible to assess both their changing meanings and their shifting relationships to one another In surveying America's core ideas both in isolation and in combination the book facilitates an informed awareness of their political and cultural leverage as forms of persuasion and sources of legitimacy American Credo roots the examination of American political ideas firmly in the milieu of social drives political movements and contemporary issues within which the ideas themselves are embedded This not only allows the study to investigate the interior properties and traditional priorities of America's key values but permits the theoretical implications and practical consequences of these ideas to be traced and evaluated By marshalling a wide variety of evidence from different disciplines and perspectives and by employing innovative principles of organisation the study offers clarity and depth in support of an inventive explanatory scheme It concludes with a review of the current and likely future challenges to the protocols and conventions surrounding the matrix of ideational coexistence

What Does the American Presidency Mean? Richard Holtzman, 2025-06-27 What Does the American Presidency Mean The Need for Interpretation in Presidency Studies makes a compelling case for how interpretivism contributes to our understanding of the American presidency This brief book is accessible and inviting regardless of a reader's background in presidency studies or interpretivism Part I explores several dimensions of interpretivist and positivist methodologies Chapters discuss the characteristics of interpretivism genealogically trace positivism's dominance in presidency studies and identify how attributes of the

presidency that raise methodological challenges for positivism are the same that make it fertile ground for interpretivism Part II explores a wide range of interpretive scholarship on the American presidency including studies of presidential meaning making the institution's historical political development presidential symbolism the construction of the presidency and the presidential spectacle It concludes with an interpretation of recent developments emphasizing the timeliness relevance and importance of methodological pluralism in presidency studies The book is written for anyone interested in the meaning of the presidency whether scholars or graduate students in American political science or those from other disciplines within and outside the United States It is appropriate for courses on the American Presidency Executive Politics Political Communication Rhetoric and Social Science Methods among others

This is Not a President Diane Rubenstein, 2008 Read The Chronicle of Higher Ed Author Interview In *This Is Not a President* Diane Rubenstein looks at the postmodern presidency from Reagan and George H W Bush through the current administration and including Hillary Focusing on those seemingly inexplicable gaps or blind spots in recent American presidential politics Rubenstein interrogates symptomatic moments in political rhetoric popular culture and presidential behavior to elucidate profound and disturbing changes in the American presidency and the way it embodies a national imaginary In a series of essays written in real time over the past four presidential administrations Rubenstein traces the vernacular use of the American presidency as currency as grist for popular biography as fictional TV material to explore the ways in which the American presidency functions as a transitional object that allows the American citizen to meet or discover the president while going about her everyday life The book argues that it is French theory primarily Lacanian psychoanalysis and the radical semiotic theories of Jean Baudrillard that best accounts for American political life today Through episodes as diverse as Iran Contra George H W Bush vomiting in Japan the 1992 Republican convention the failed nomination of Lani Guinier and the Iraq War *This Is Not a President* brilliantly situates our collective investment in American political culture

The Moral Rhetoric of American Presidents Colleen J. Shogan, 2007-09-17 Although sometimes decried by pundits George W Bush's use of moral and religious rhetoric is far from unique in the American presidency Throughout history and across party boundaries presidents have used such appeals with varying degrees of political success *The Moral Rhetoric of American Presidents* astutely analyzes the president's role as the nation's moral spokesman Armed with quantitative methods from political science and the qualitative case study approach prevalent in rhetorical studies Colleen J Shogan demonstrates that moral and religious rhetoric is not simply a reflection of individual character or an expression of American civil religion but a strategic tool presidents can use to enhance their constitutional authority To determine how the use of moral rhetoric has changed over time Shogan employs content analysis of the inaugural and annual addresses of all the presidents from George Washington through George W Bush This quantitative evidence shows that while presidents of both parties have used moral and religious arguments the frequency has fluctuated considerably and the language has become increasingly detached from relevant policy arguments

Shogan explores the political effects of the rhetorical choices presidents make through nine historical cases Presidents Washington Jefferson Madison Buchanan Lincoln Theodore Roosevelt Kennedy Lyndon Johnson and Carter She shows that presidents who adapt their rhetoric to the political conditions at hand enhance their constitutional authority while presidents who ignore political constraints suffer adverse political consequences The case studies allow Shogan to highlight the specific political circumstances that encourage or discourage the use of moral rhetoric Shogan concludes with an analysis of several dilemmas of governance instigated by George W Bush s persistent devotion to moral and religious argumentation The Politics of the Presidency Joseph A. Pika, John Anthony Maltese, Andrew Rudalevige, 2017-07-06 This book analyses the change and continuity in the presidency during Barack Obama s two terms in an entrenched partisan environment discusses the competitive setting for the 2016 election and looks at the challenges and opportunities President Trump will face **The Presidency in a Separated System** Charles O. Jones, 2000-09-30 Popular interpretations of American government tend to center on the presidency Successes and failures of government are often attributed to presidents themselves But though the White House stands as a powerful symbol of government the United States has a separated system intentionally designed to distribute power not to concentrate it Charles O Jones explains that focusing exclusively on the presidency can lead to a seriously distorted picture of how the national government works The role of the president varies widely depending on his resources advantages and strategic position Public expectations often far exceed the president s personal political institutional or constitutional capacities for achievement Jones explores how presidents find their place in the permanent government and how they are fitted in by others most notably those on Capitol Hill This book shows how a separated system of government works under the circumstances created by the Constitution and encouraged by a two party system Jones examines the organizational challenges facing presidents their public standing and what it means presidential agendas and mandates and lawmaking how it works where the president fits in and how it varies from issue to issue He compares the post World War II presidents and identifies the strengths and weaknesses of each in working within the separated system Jones proposes a view of government as a legitimate even productive form of decisionmaking and emphasizes the varying strategies available to presidents for governing He concludes with a number of important lessons for presidents and advice on how to make the separated system work better Encyclopedia of the American Presidency, Fourth Edition Michael Genovese, 2021-04-01 Praise for the first edition An altogether excellent introduction to the study of the presidency of the United States Library Journal entries are well written an excellent addition American Reference Books Annual an excellent resource recommended Booklist Highly recommended Choice The most up to date reference of its kind Encyclopedia of the American Presidency Fourth Edition is the definitive guide to the role of the president from the American Revolution through the present day Offering a complete account of the presidency in U S history this A to Z encyclopedia will make a great first stop for students and general readers looking for information on the executive branch of the American government Its

comprehensive scope spans the relationship between the executive and the other branches of government court cases elections political opponents scandals and more A valuable resource that provides concise information Encyclopedia of the American Presidency Fourth Edition contains more than 750 entries Entries include Bully pulpit Commander in chief Economic policy Executive privilege Kamala Harris Impeachment Iraq War Thomas Jefferson Middle East Military tribunals New Deal Oval Office Franklin D Roosevelt Situation room Donald Trump Veto power War powers Watergate White House and more

Guide to the Presidency Michael Nelson, 2015-05-01 The Guide to the Presidency is an extensive study of the most important office of the U S political system Its two volumes describe the history workings and people involved in this office from Washington to Clinton The thirty seven chapters of the Guide arranged into seven distinct subject areas ranging from the origins of the office to the powers of the presidency to selection and removal cover every aspect of the presidency Initially dealing with the constitutional evolution of the presidency and its development the book goes on to expand on the history of the office how the presidency operates alongside the numerous departments and agents of the federal bureaucracy and how the selection procedure works in ordinary and special circumstances Of special interest to the reader will be the illustrated biographies of every president from Washington to the present day and the detailed overview of the vice presidents and first ladies of each particular office Also included are two special appendices one of which gathers together important addresses and speeches from the Declaration of Independence to Clinton's Inaugural Address and another which provides results from elections and polls and statistics from each office

Mass Media and American Politics Doris A. Graber, Johanna Dunaway, 2017-08-08 Mass Media and American Politics is the most comprehensive and best book for political communication This text has made it easy for my students to learn about research and theory related to political journalism and the political communication system in America It has great utility and insight while being comprehensive but not overwhelming for students Jason Martin DePaul University Known for its readable introduction to the literature and theory of the field Mass Media and American Politics is a trusted comprehensive look at media's impact on attitudes behavior elections politics and policymaking This Tenth Edition is thoroughly updated to reflect major structural changes that have shaken the world of political news and examines the impact of the changing media landscape It includes timely examples from the 2016 election cycle to illustrate the significance of these changes This classic text balances comprehensive coverage and cutting edge theory shows students how the media influence governmental institutions and the communication strategies of political elites and illustrates how the government shapes the way the media disseminate information Written by Doris A Graber a scholar who has played an enormous role in establishing and shaping the field of mass media and American politics and Johanna Dunaway this book sets the standard

New Directions in the American Presidency Lori Cox Han, 2023-02-21 The third edition of New Directions in the American Presidency provides important updates on all topics throughout the text including new and

relevant literature across the subfield of presidency studies within political science Significant changes have occurred within the political environment since the publication of the second edition Many scholars refer to the Trump presidency as a disruption to the political order and each chapter will assess the lessons and legacies of the Trump years and analyze how the Biden presidency is faring in the return to a more traditional style of presidential leadership New to the Third Edition Updated chapter on the 2020 presidential campaign and aftermath Assessment of the Trump years Presidential powers and management of executive branch use of social media relationship with Congress relationship with political parties public opinion domestic and foreign policy Supreme Court appointments Two new chapters unitary powers and intersectionality and the presidency

The Priestly Tribe Barbara Perry, 1999-07-30 Perry illuminates the Supreme Court's unique advantages in sustaining a noble public image by its stewardship of the revered Constitution its constant embrace of the rule of law the justices' life tenure its symbols of impartiality and integrity and a resolute determination to keep its distance from the media She argues that the Court has bolstered these advantages to avoid traps that have marred Congressional and presidential images and she demonstrates how the Court has escaped the worst of media coverage In this detailed examination of the Court its justices' decisions facilities and programs as well as its place in modern American culture Perry illustrates that the Court has consciously endeavored to preserve its exalted standing *The Priestly Tribe* provides an original and insightful analysis of this intriguing judicial institution for students and scholars of the Court and the general public **Franklin D. Roosevelt and the Transformation of the Supreme Court** Stephen K. Shaw, William D. Pederson, Michael R Williams, 2015-04-08 Franklin D Roosevelt appointed 10 justices to the U S Supreme Court more than any president except Washington and during his presidency from 1933 to 1945 the Court gained more visibility underwent greater change and made more landmark decisions than it had in its previous 150 years of existence This collection examines FDR's influence on the Supreme Court and the Court's growing influence on American life *Religion in the Oval Office* Gary Scott Smith, 2015-02-27 Continuing the work of *Faith and the Presidency* OUP 2006 Gary Scott Smith takes on eleven more US presidents and examines the role religion played in their policies personal lives and decisions **Mr. Sorkin Goes to Washington** Melissa Crawley, 2014-06-26 Before the unprecedented televised presidential debates of 1960 most Americans were able to relate to their leaders in little more than an historical context In the era of televised elections however the media have allowed Americans to witness the paternal moral and intellectual qualities of their president up close Television has been so critical to this process of political socialization that for many Americans the televised image of the president is the president As the acclaimed television drama *The West Wing* demonstrates fictional representations of the presidency can also be significant civic forces This book examines how film and television drama contribute to shaping the presidency and the way most Americans understand it and particularly the processes of political education The text discusses *The West Wing*'s didactic potential its representation of White House politics and its depiction of race and gender with commentary on how

fictional representations of the presidency become important elements of American political consciousness

Adopting the Beat of Appearance: An Emotional Symphony within **Symbolic Presidency How Presidents Portray Themselves**

In a world eaten by screens and the ceaseless chatter of fast connection, the melodic splendor and emotional symphony created by the written term usually disappear into the background, eclipsed by the relentless sound and interruptions that permeate our lives. However, situated within the pages of **Symbolic Presidency How Presidents Portray Themselves** a stunning fictional treasure full of raw emotions, lies an immersive symphony waiting to be embraced. Crafted by an outstanding composer of language, this charming masterpiece conducts viewers on a psychological trip, well unraveling the hidden melodies and profound impact resonating within each cautiously crafted phrase. Within the depths with this moving assessment, we will discover the book's main harmonies, analyze their enthralling publishing model, and surrender ourselves to the profound resonance that echoes in the depths of readers' souls.
