This eye-opening journey through the terrain of Native American spirituality is an urgent call to rediscover and become firmly grounded on the sacred earth again **The Watkins Dictionary of Symbols** Jack Tresidder, 2012-01-01 Traditional symbols form a visual shorthand for ideas yet their functions and meaning extend far beyond that. For thousands of years they have enabled artists and craftsmen to embody and reinforce beliefs about human life in immediate and powerful images. This accessible and comprehensive guide features more than 2,000 major themes from Absinthe to the Zodiac figures and symbols found in myth, literature and art as well as those that have entered into the mainstream of everyday life. O'Shea, 2013-11-11 John M. O'Shea explores this question by employing modern archaeological theory and analysis as well as mortuary theory to build a model of an Early Bronze Age society in the eastern Carpathian Basin. He focuses on the Maros communities and utilizes the densely encoded social information from their cemeteries to draw a picture of the Maros social systems **The Migration of Symbols** D. Mackenzie, 2013-11-05 Originally published between 1920 and 1970, *The History of Civilization* was a landmark in early twentieth-century publishing. It was published at a formative time within the social sciences and during a period of decisive historical discovery. The aim of the general editor, C. K. Ogden, was to summarize the most up-to-date findings and theories of historians, anthropologists, archaeologists and sociologists. the Stupa Adrian Snodgrass, 1992-01-01 In his preface to *The Symbolism of the Stupa* Prof Craig Reynolds writes The stupa is a symbolic form that pullulates throughout South Southeast and East Asia In its Indian manifestations it is an extreme case in terms of architectural function it has no useable has a basic simplicity In this state of the art study Adrian Snodgrass reads the stupa as a cultural artifact The monument concretizes metaphysical principles and generates multivalent meanings in ways that can be articulated with literary texts and other architectural forms This study analyses a pattern of interrelated meanings generated by the form of the stupa It does so by reference to myth to ritual and to doctrine viewing the architectural form from within the conceptual framework of the tradition to which it belongs This approach involves questions of aim and methodology A deeper understanding of a symbol is gained by studying the grid or net formed by its symbolic homologues The pattern of meaning that emerges from the juxtaposition of cognate symbols does not exhaust the significance of the symbol which is ultimately beyond words but it reinforces its intimations indicating a logical cohesion and integrity which in itself is an intimation of the all pervasiveness of Principle It is precisely this pattern of inter reflection or symbols that this study attempts to delineate By bringing together cognate symbols in apposition it attempts to mark out the field of symbolic interactions which the stupa generates
