Studio International, 1907 The Fourth Dimension and Non-Euclidean Geometry in Modern Art, revised edition Linda Dalrymple Henderson, 2018-05-18 The long awaited new edition of a groundbreaking work on the impact of alternative concepts of space on modern art In this groundbreaking study first published in 1983 and unavailable for over a decade Linda Dalrymple Henderson demonstrates that two concepts of space beyond immediate perception the curved spaces of non Euclidean geometry and most important a higher fourth dimension of space were central to the development of modern art The possibility of a spatial fourth dimension suggested that our world might be merely a shadow or section of a higher dimensional existence That iconoclastic idea encouraged radical innovation by a variety of early twentieth century artists ranging from French Cubists Italian Futurists and Marcel Duchamp to Max Weber Kazimir Malevich and the artists of De Stijl and Surrealism In an extensive new Reintroduction Henderson surveys the impact of interest in higher dimensions of space in art and culture from the 1950s to 2000 Although largely eclipsed by relativity theory beginning in the 1920s the spatial fourth dimension experienced a resurgence during the later 1950s and 1960s In a remarkable turn of events it has returned as an important theme in contemporary culture in the wake of the emergence in the 1980s of both string theory in physics with its ten or eleven dimensional universes and computer graphics Henderson demonstrates the importance of this new conception of space for figures ranging from Buckminster Fuller Robert Rauschenberg and the Park Place Gallery group in the 1960s to Tony Robbin and digital architect Marcos Novak

The Dictator's Muse Nigel Farndale, 2021-06-24 A riveting novel a fast paced brilliantly constructed thriller in which the fates of the three young British protagonists hang in the balance at the end of every chapter A N Wilson SPECTATOR I loved the brash brilliance of this Peter Bradshaw Guardian film critic It is the early 1930s and Europe is holding its breath As Hitler's grip on power tightens preparations are being made for the Berlin Olympics Leni Riefenstahl is the pioneering sexually liberated star film maker of

Profound and moving a beautifully written evocation of turbulent times Daily Express A novel rich in historical detail but wearing its research lightly and the story is told in a French Lieutenant's Woman kind of way veering from the present to the past with superb flair this novel has an uncomfortable prescience with a plot twist at the end which is ingenious

The Death Penalty Stuart BANNER, Stuart Banner, 2009-06-30 The death penalty arouses our passions as does few other issues Some view taking another person's life as just and reasonable punishment while others see it as an inhumane and barbaric act But the intensity of feeling that capital punishment provokes often obscures its long and varied history in this country Now for the first time we have a comprehensive history of the death penalty in the United States Law professor Stuart Banner tells the story of how over four centuries dramatic changes have taken place in the ways capital punishment has been administered and experienced In the seventeenth and eighteenth centuries the penalty was standard for a laundry list of crimes from adultery to murder from arson to stealing horses Hangings were public events staged before audiences numbering in the thousands attended by women and men young and old black and white alike Early on the gruesome spectacle had explicitly religious purposes an event replete with sermons confessions and last minute penitence to promote the salvation of both the condemned and the crowd Through the nineteenth century the execution became desacralized increasingly secular and private in response to changing mores In the twentieth and twenty first centuries ironically as it has become a quiet sanitary technological procedure the death penalty is as divisive as ever By recreating what it was like to be the condemned the executioner and the spectator Banner moves beyond the debates to give us an unprecedented understanding of capital punishment's many meanings As nearly four thousand inmates are now on death row and almost one hundred are currently being executed each year the furious debate is unlikely to diminish The Death Penalty is invaluable in

Mean Girls in this New York Times bestselling novel from one of the descendants of Cotton Mather where the trials of high school start to feel like a modern day witch hunt for a teen with all the wrong connections to Salem's past. Salem, Massachusetts is the site of the infamous witch trials and the new home of Samantha Mather. Recently transplanted from New York City, Sam and her stepmother are not exactly welcomed with open arms. Sam is the descendant of Cotton Mather, one of the men responsible for those trials, and almost immediately she becomes the enemy of a group of girls who call themselves the Descendants. And guess who their ancestors were? If dealing with that weren't enough, Sam also comes face to face with a real live, well technically dead ghost. A handsome, angry ghost who wants Sam to stop touching his stuff. But soon Sam discovers she is at the center of a centuries-old curse affecting anyone with ties to the trials. Sam must come to terms with the ghost and find a way to work with the Descendants to stop a deadly cycle that has been going on since the first accused witch was hanged. If any town should have learned its lesson, it's Salem. But history may be about to repeat itself. It's like Mean Girls meets history class in the best possible way. Seventeen Magazine shines a light on the lessons the Salem Witch Trials can teach us about modern-day bullying and what we can do about it. Bustle Strikes a careful balance of creepy fun and thoughtful. NPR I am utterly addicted to Mather's electric debut. It keeps you on the edge of your seat, twisting and turning with ghosts, witches, an ancient curse, and sigh, romance. It's beautiful. Haunting. The characters are vivid and real. Herzberg, 2013-09-11 For more than a century the Western film has proven to be an enduring genre. At the dawn of the 20th century, in the same years that The Great Train Robbery begat a film genre, Owen Wister wrote The Virginian, which began a new literary genre. From the beginning, both literature and film would usually perpetuate the myth of the Old West as a place where justice always triumphed and all concerned, except the villains, pursued the Law. The facts, however, reflect abuses of due process, lynch mobs, and hired gunslingers rather than lawmen regularly pursuing lawbreakers; vengeance rather than justice was often employed, and even in courts of law, justice didn't always prevail. Some films and novels bucked this trend, however. This book discusses the many Western films as well as the novels they are based on that illustrate distortions of the law in the Old West and the many ways, most of them marked by vengeance, in which its characters pursued justice.
