**Symphonic Warm-Ups - Tuba** Claude T. Smith, 1982-02 Claude Smith's contemporary approach to teaching technique tone and style is written in a variety of keys and meters and is divided into three sections I Scale Studies II Etudes III Chorale Studies The etudes and chorales are in progressive order of difficulty so bands of all levels can find appropriate starting places and progress from there It's the perfect way to begin every rehearsal *Complete Warm Up and Daily Routine for Tuba (E-book 1)* Angelo Piazzini, 2022-05-09 My new book entitled Complete Warm Up and Daily Routine for Tuba is designed to provide students amateurs and professional tuba players with a useful guide to warming up and daily exercises This new series of exercises enables tuba players to experience rapid step by step progression in embouchure and as a result in their technical precision and speed In particular this enables step by step development and progression in embouchure improvement and increased confidence in attacks improvement and increased confidence in all registers improvement and increased confidence in control in legato increased confidence in moving from one register to another and in leaps increased technical precision and speed My advice is to tackle these exercises starting at a comfortable pace 75 80 on the metronome and then to gradually pick up speed in order to reach the maximum attainable pace Another idea might be to practice in major and minor keys on alternate days or to play in the ordinary way on one day and the opposite the next Everything is at the sole discretion of the player As always I leave full freedom of execution up to tuba players who want to try their hands at this new series of daily exercises for rapid step by step progression as part of their training as musicians Angelo Piazzini
