Catalogue of the Allen A. Brown Collection of Music in the Public Library of the City of Boston Allen A. Brown Collection (Boston Public Library),1915 **The Symphonic Repertoire, Volume IV** A. Peter Brown,2024-03-29 Central to the repertoire of Western art music since the 18th century the symphony has come to be regarded as one of the ultimate compositional challenges Surprisingly heretofore there has been no truly extensive broad based treatment of the genre and the best of the existing studies are now several decades old In this five volume series A Peter Brown explores the symphony from its 18th century beginnings to the end of the 20th century Synthesizing the enormous scholarly literature Brown presents up to date overviews of the status of research discusses any important former or remaining problems of attribution illuminates the style of specific works and their contexts and samples early writings on their reception The Symphonic Repertoire provides an unmatched compendium of knowledge for the student teacher performer and sophisticated amateur The series is being launched with two volumes on the Viennese symphony Volume IV The Second Golden Age of the Viennese Symphony Brahms Bruckner Dvor k Mahler and Selected Contemporaries Although during the mid 19th century the geographic center of the symphony in the Germanic territories moved west and north from Vienna to Leipzig during the last third of the century it returned to the old Austrian lands with the works of Brahms Bruckner Dvor k and Mahler After nearly a half century in hibernation the sleeping Viennese giant awoke to what some viewed as a reincarnation of Beethoven with the first hearing of Brahms s Symphony No 1 which was premiered at Vienna in December 1876 Even though Bruckner had composed some gigantic symphonies prior to Brahms s first contribution their full impact was not felt until the composer s complete texts became available after World War II Although Dvor k was often viewed as a nationalist composer in his symphonic writing his primary influences were Beethoven Schubert and Brahms For both Bruckner and Mahler the

symphony constituted the heart of their output for Brahms and Dvor k it occupied a less central place Yet for all of them the key figure of the past remained Beethoven The symphonies of these four composers together with the works of Goldmark Zemlinsky Schoenberg Berg Smetana Fibich Jan cek and others are treated in Volume IV The Second Golden Age of the Viennese Symphony covering the period from roughly 1860 to 1930 *The Experimental Psychology of Beauty* C.W. Valentine,2015-06-05 Originally published in 1962 the experimental study of aesthetics was a field particularly associated with the name of C W Valentine who in this book provided a critical review of research carried out since the end of the nineteenth century principally by British and American psychologists The investigations described many of them conducted by the author are concerned with individual responses to what is commonly regarded as beautiful in painting music and poetry an important distinction being made between the perception of objects as beautiful as opposed to pleasing The reactions of children and adults and of people having different ethnic and social backgrounds are explored in a variety of experiments dealing with specific elements including colour form and balance in painting musical intervals discord harmony melody and tempo and rhythm metre imagery and associations in classical and romantic poetry Other experiments seek to disclose the temperamental and attitudinal factors underlying individual differences in the judgement and appreciation of specific works of art Of particular interest are the studies of responses to modern paintings poems and musical compositions The findings throw light on the development of discrimination and taste and suggest the possibility of some common factor in the appreciation of these three arts It was felt that critics as well as psychologists and aestheticians would find much to encourage reflection and to stimulate further research *Focus On: 100 Most Popular 21St-century American Musicians* Wikipedia contributors, [The Musical Times & Singing-class Circular](#) ,1911 **Catalog of Copyright Entries** Library of Congress.
