Synchrofile Amazing Personal Encounters With Synchronicity And Other Strange Phenomena:

Synchrofile Raymond E. Fowler, 2004-05-26 The author is no stranger to tackling mysteries He is internationally known as a highly competent investigator of the paranormal and a trustworthy chronicler of such in ten books The New York Times exclaimed that his best selling book The Andreasson Affair if true must rank with the great classics of scientific revelation Air Force chief UFO scientific consultant Dr J Allen Hynek wrote that his UFO investigations are meticulous and far exceed that of the government Dr Kenneth Ring father of Near Death Experience NDE research wrote that Fowler s researched book on Near Death and UFO experiences may well have deciphered the ultimate nature and meaning of these baffling phenomena In SynchroFile Fowler applies the same kind of meticulous research into the supernatural like synchronistic experiences that permeate his life This book compiles the results of his research into Jungian psychology the New Physics and his study of a ten year diary of personal and family experiences of amazing coincidences and paranormal experiences His research leads to the incredulous conclusion that time is an illusion and that reports of synchronicity ghosts out of the body experiences near death experiences UFOs precognition telepathy and other extrasensory experiences are all individual expressions of one intelligent like meta phenomenon [Access](#) ,2004 **The Road to Strange** Michael Brein, 2025-07-07 It is the next book in The Road to Strange series It collects synchronicity experiences among the nearly 2 000 interviews that Michael has conducted at home and during his travels over the last four decades Although the typical stories collected in The Road to Strange book series typically include spooky accounts of space and time interactions most of these things are not likely to happen to you But you never know In this book you ll read plenty of examples of odd space time coincidences that may conceivably pop up in your life at some time Instead of dealing with all sorts of true life travel accounts in my True Travel Tales series this book now pauses all that to explore the spooky world of coincidental space and time and many of the no doubt related variations in between Instead of reading about the variety of dangers and mishaps of others and safety and security in travel which are part and parcel of my True Travel Tales book series wherein we focus on and gain a healthier respect for the actual dangers and risks of travel and adventure the point of The Road to Strange book series is to explore a virtually little known aspect of reality namely meaningful coincidences the extremely odd synchronicities that seem to defy the laws of chance Indeed synchronicity i e apparently meaningful coincidences that seem impossible do abound And whereas some of these stories are potentially a little spooky in that they seem to be so unlikely or well nigh impossible to occur and what s more even hint at some sort of meaningful or purposeful efforts on the behalf of some kind of potentially universal consciousness to be recognized acknowledged and even remembered Some of the accounts featured in this book are tales from times long gone Many synchronicities seem purposeful in making people aware of and remembering them Other meaningful coincidence experiences seem to be endless repeating cycles that are like replays even including in some cases apparent potentially discarnate energies that seemingly try over and over to resolve conflicts and possibly be heard

again from times long past Yes we are often the objects of or targets of synchronicity whether in our travels or on our own home turf It therefore behooves us to think of this book as not only a compendium of space time variants that we may experience in life but perhaps we ought to consider synchronicity and its variants as alternate space time realities which conjoin or overlap with our own in a shared universe of sorts Or maybe even a so called Contiguous Universe no less In this compendium of synchronicity tales we broaden our view of not only what we think of as the typical meaningful coincidence kind of experiences but also to incorporate other variants of reality as well In The Road to Strange Synchronicity be prepared to explore the many stories of impossibly seeming space time variations of the human experience and much more Such synchronicities and their related variants may never happen expressly to you Still assuredly something strange of a space time manifestation will invariably happen to a friend a neighbor or perhaps even a relative If but one of these tales of someone s strange space time variant of ultra meaningful seemingly impossible coincidental events is true what then One must conclude that so many other reports of similar space time encounters may likewise undoubtedly be true **The Synchronicity Highway** Trish MacGregor,Rob MacGregor,2013-11 Synchronicity or meaningful coincidence is the most conscious aspect of the underlying web of reality that connects everyone and everything As humanity s consciousness expands and new paradigms and worldviews are born synchronicity is more evident in mass events like 9 11 the shootings at Sandy Hook and Aurora the explosions at the Boston Marathon in extreme weather phenomena It occurs in alien encounters often is intertwined with paranormal experiences and may act as an interface between life and death It happens frequently when our lives are in transition Once you re aware that coincidences are meaningful you re on the synchronicity highway traveling through a kind of quantum weirdness that features astounding odds tricksters messengers from the unknown the unseen the seemingly miraculous When you re on the synchronicity highway you re exactly where you should be

Supernatural Synchronicity Sarah Chumacero,Ashley Knibb,Knibb Chumacero,2019-11-16 UK Blogger and the Society of Psychical Research s Event Reporter Ashley Knibb teams up with Australian Blogger of Living Life In Full Spectrum and Author of Stuff Paranormal Normal Investigators Need To Know Sarah Chumacero to bring you Supernatural Synchronicity As writers with the same passion for the paranormal late night conversations soon inspired them to put pen to paper The series was first released as a small collection on articles which has now evolved much further into an interesting philosophical discussion chapter by chapter Using a collaborative approach Ashley and Sarah connect philosophy psychology physiology and even psychics to paranormal research to ask the hard questions like What is the source of psychical phenomena Can we simplify the unknown and Is Time the Key To name just a few Offering an alternative perspective to paranormal research has Ashley and Sarah reviewing and responding to each other s claims and research showing how important peer review and collaboration within the paranormal field is no matter where in the world you find yourself With the foreword written by Brian J Cano Haunted Collector from the USA this unique journey comes full circle in what is almost

an act of synchronicity Supernatural Synchronicity will challenge the reader to think about paranormal phenomena from different perspectives and spark discussions Most importantly it will pose questions and encourage the reader to ask their own questions After all the most important part of what we do is questioning the unknown but equally questioning what we think we know A Story Book of Synchronicity June Li,2018-06-05 Synchronicity or a causal meaningful coincidence is not a rare startling event occurring by chance but pervasive in everyday lives happening to anybody anywhere at any time This psychic phenomenon is highly subjective with deep personal meaning which can only be understood and appreciated with direct experiences In this book I explain Jung s definition of synchronicity and tell stories of meaningful coincidences I have collected in recent years some are my personal experiences and some are told by other people To assist easy reading these stories are grouped in five themes Synchronicity as mirror as guidance as answer as destiny as unity Following the story telling I discuss synchronicity and law of attraction and explore how to detect and decode synchronicity in daily life living in the flow of synchronicity **The Synchronicity Journal** Trish MacGregor,Rob MacGregor,2011-07-18 Have you ever thought about an old friend in the morning only to hear from her that afternoon Has a spontaneous change of heart worked out better than all of your best laid plans Have you ever discovered an uncanny connection between you and a complete stranger What does it all mean Only by recording moments of synchronicity in your life can you begin to become attuned to their presence and make sense of their significance This journal provides the perfect place to take note of seemingly innocuous occurrences so you can piece them together to find deeper meaning You ll achieve greater clarity with each page you fill and every sign you interpret Use this lovely resource as a tool to develop a keen eye for the messages all around you and a guide to the answers you seek Synchronicity as Mystical Experience Frank Joseph,2018-01-28 Synchronicity As Mystical Experience follows Carl Jung s lead in recognizing meaningful coincidence as a kind of modern day enlightenment or emotional therapy everyone not only sufferers from chronic neuroses may use to connect with the spiritual basis of being This fresh view of the subject defines the phenomenon in abundant anecdotal material such as related accounts of the Titanic disaster which attracted a constellation of synchronicity never described so thoroughly before and informs readers how they may interpret the often puzzling elements in meaningful coincidence These details include the significance of recurring numbers and personal discovery of our parallel lives There are several recent titles dealing with Synchronicity and all of them contribute valuably to the subject For all their excellence they neither address the daily application of the phenomenon nor its intimate relationship with the human chakras These are energy centers rising from the base of the spine to the top of our heads and comprise fundamental aspects of human psychology or if you will the soul Their surprising relationship with meaningful coincidence indicates that each one of us is connected to the organizational scheme of all creation This important revelation is brought to light through Synchronicity any apparent coincidence that inspires a sense of wonder and personal meaning or particular significance in the observer It is a perceived connection between two or more objects events or

persons without any recognizable cause It is conditioned by situations in which apparently unrelated events converge to form a shared experience regarded as momentous by the person or persons experiencing it An example of synchronicity is when for no apparent reason you suddenly remember a friend you have not thought of or heard from in years and just then the telephone rings and the voice on the other end belongs to the recollected person Events such as these are typical instances of synchronicity or meaningful coincidence events like these happen to millions of people every day They are common enough and most people who experience them after initial feelings of strangeness forget about them or dismiss them as inevitable but trifling quirks of life classified under luck good or bad A closer examination of such phenomena suggests there is much more to them While individual instances of synchronicity may seem trivial they assume startling magnitudes of influence when seen in the bigger picture of their role in our lives as explained in Synchronicity As Mystical Experience The Secret Language of Synchronicity Jenna Moore Fuller,2015-11-27 A scrap of found paper A cookie s fortune An overheard comment The WORDS you happen upon answer some pressing need You ve probably had this experience come across chance information that feels custom made for you An uncanny message that makes you wonder A meaningful message that s helpful and pertinent The Secret Language of Synchronicity is about how the Universe answers different people through different types of coincidence Depending on our favored sense usually sight or sound it communicates through written or spoken words Once we discover our unique style it is easier to understand these signs and benefit from their meanings Jenna Moore Fuller has recorded her own meaningful incidents for many years Dozens of her stories plus those of acquaintances are included here Share Jenna s quest to decipher the secret language of synchronicity And discover your unique style the magical and mysterious way the Universe speaks through coincidence to you Incredible Coincidence Alan Vaughan,1979 A prophetic dream An answered prayer A lucky break A chance encounter that leads to a long term relationship or an unexpected career opportunity We have all experienced or heard of incredible coincidences But what are they really and what do they mean Is there a way to prepare for them Can we prepare for them Can we use them to our advantage Synchronicity meaningful coincidences that have no apparent cause is one of the most thought provoking concerns in the field of psychic phenomena Alan Vaughan has compiled more than 150 actual case histories to prove that there is more to incredible coincidence than meets the eye A woman in Berkeley California is locked out of her house the postman walks up holding a letter from her brother inside is a spare key A hurricane in Galveston Texas sweeps Charles Coghlan s coffin out to sea eight years and two thousand miles later the coffin is found just offshore from the town where Coghlan was raised A Londoner takes the wrong bus not realizing his mistake until he passes the house of a friend he hasn t seen in years smelling gas at the door he prevents a suicide Incredible Coincidence A fascinating exploration into the strangest things that can happen every day **Embracing Coincidence** Carol Lynn Pearson,2008-02 At some point in our lives we have all experienced synchronicities those amazing coincidences that offer short glimpses into the backstage of life the hidden order

of things Carol Lynn Pearson has for years kept track of the coincidences in her days looking at them with a poet's eye for metaphor and meaning a pan of mama's cinnamon rolls appears in the first shot of a movie just minutes after she and her sister reminisce on that favourite childhood food a smiley face pops up on the computer screen during the writing of her daughter's funeral service eight butterflies appear with an hour not on the wing but in the word bringing a message of transformation and hope Learning the language of synchronicity can help each of us to more frequently access and recognize the wisdom of the divine After reading Embracing Coincidence you will never again see the events in your daily life as just events You will start to see your name on messages sent special delivery giving helpful clues on your own personal journey
