**Tales of the Grand Tour** Ben Bova, 2024-06-04 Tales of humanity's near future exploration of the Solar System from a science fiction master and 6 time Hugo Award winning author Bova's tales encompass good characters high tension adventure thoughtful introspection and a sense of wonder Booklist In novels like Mars and Moonbase and Venus Jupiter and Saturn as well as Privateers The Precipice and The Rock Rats Ben Bova has been telling the stories of the wars and rivalries the outsize individuals public crusades and private passions that will drive us as we expand into the Solar System and make use of its vast resources And throughout Bova has shown our cosmic neighborhood as we know it to be giving us a sense of Venus and Jupiter and the Asteroid Belt and Mars that's as up to date as the latest observations For the last two decades have been a golden age of near Earth astronomy and observation and in his novels Bova has made dramatic use of our newest knowledge But during that time Bova has also written short fiction about some of the same events and characters Sam Gunn Martin Humphries Klaus Fuchs Dan Randolph the Asteroid Wars Now in Tales of the Grand Tour those stories are collected in book form for the first time creating a volume that is a landmark of modern SF Like a folksy astrophysicist Bova delights in talking about outer space from the surface of Venus through the asteroid belt to the depths of Jupiter His excitement at being there matches his gusto for the dirty deeds done in the name of love honor and duty His stories offer glimpses of the human side of space the heroic grins and tragic grimaces alike Publishers Weekly I don't think there's another SF author alive with a better grasp of planetary science nor one that can match Bova's storytelling experience so it's no surprise that this is one collection of tales worth telling SFRevu Bova's saga is a long varied and successful one and this is a good place for newbies to start Kirkus Reviews *Into the Black* Peter J. Westwick, 2008-10-01 div In the decades since the mid 1970s the Jet Propulsion Laboratory in Pasadena California has led the quest to explore the farthest reaches of the solar system JPL spacecraft Voyager Magellan Galileo the Mars rovers and others have brought the planets into close view JPL satellites and instruments also shed new light on the structure and dynamics of earth itself while their orbiting observatories opened new vistas on the cosmos This comprehensive book recounts the extraordinary story of the lab's accomplishments failures and evolution from 1976 to the present day This history of JPL encompasses far more than the story of the events and individuals that have shaped the institution It also engages wider questions about relations between civilian and military space programs the place of science and technology in American politics and the impact of the work at JPL on the way we imagine the place of humankind in the universe DIV **Tales of the Crusaders** Walter Scott, 1832 *Tales of the Crusaders* Scott, 1847 This is a reproduction of the original artefact Generally these books are created from careful scans of the original This allows us to preserve the book accurately and present it in the way the author intended Since the original versions are generally quite old there may occasionally be certain imperfections within these reproductions We're happy to make these classics available again for future generations to enjoy **Tales of the Crusaders** Sir Walter Scott, 1832

first man to win the Tour 5 times in a row The late 1990s were a time of extreme crisis for the Tour as the culture of doping within the professional cycling community erupted into the scandal of 1998 The Story of the Tour de France deals with this episode at length Emerging from a near fatal bout of cancer Lance Armstrong went on to do what no other rider in the Tour's long history had ever been able to accomplish win the Tour 7 times Following Armstrong's retirement the Tour was again seized by scandal this time Floyd Landis disqualification for drugs after winning the 2006 Tour The book concludes with the story of the 2007 Tour followed by a quest for the greatest ever Tour de France rider and an epilogue that explains the reasons for the extraordinary success of the Tour Bill and Carol McGann have had their lives inextricably tied up with bicycles about as long as they can remember Their first date was a bike ride Bill formerly a Category 1 racer has been a contributor to several cycling magazines and is widely acknowledged as an expert on road bikes and cycling history Since his father gave him a small 1 speed English lightweight bicycle when he was 5 years old Bill has been in love with everything about bikes Carol a former college biology instructor is also an accomplished rider having cycle toured extensively Together they started Torelli Imports in 1981 a firm specializing in high performance cycle equipment     **The Queen's Cadet and Other Tales** James Grant, 1874
