intentionality theory faces important challenges in accounting for the rich and sophisticated contents of thoughts broad and object involving contents and nonconscious states Mendelovici proposes a novel and particularly strong version of the theory that can meet these challenges The end result is a radically internalistic picture of the mind on which all phenomenally represented contents are literally in our heads and any non phenomenal contents we in some sense represent are expressly singled out by us The Classic and the Beautiful from the Literature of Three Thousand Years Henry Coppé,1898
