Slavery And Human Progress:

Slavery and Human Progress David Brion Davis, 1984 Pulitzer Prize winner David Brion Davis here provides a penetrating survey of slavery and emancipation from ancient times to the twentieth century His trenchant analysis puts the most recent international debates about freedom and human rights into much needed perspective Davis shows that slavery was once regarded as a form of human progress playing a critical role in the expansion of the western world It was not until the eighteenth and nineteenth centuries that views of slavery as a retrograde institution gained far reaching acceptance Davis illuminates this momentous historical shift from progressive enslavement to progressive emancipation ranging over an array of important developments from the slave trade of early Muslims and Jews to twentieth century debates over slavery in the League of Nations and the United Nations In probing the intricate connections among slavery emancipation and the idea of progress Davis sheds new light on two crucial issues the human capacity for dignifying acts of oppression and the problem of implementing social change

Slavery and Human Progress David Brion Davis, 1986 Abolitionism and Imperialism in Britain, Africa, and the Atlantic Derek R. Peterson, 2010-01-05 The abolition of the slave trade is normally understood to be the singular achievement of eighteenth century British liberalism Abolitionism and Imperialism in Britain Africa and the Atlantic expands both the temporal and the geographic framework in which the history of abolitionism is conceived Abolitionism was a theater in which a variety of actors slaves African rulers Caribbean planters working class radicals British evangelicals African political entrepreneurs played a part The Atlantic was an echo chamber in which abolitionist symbols ideas and evidence were generated from a variety of vantage points These essays highlight the range of political and moral projects in which the advocates of abolitionism were engaged and in so doing it joins together geographies that are normally studied in isolation Where empires are often understood to involve the government of one people over another Abolitionism and Imperialism shows that British values were formed debated and remade in the space of empire Africans were not simply objects of British liberals benevolence They played an active role in shaping and extending the values that Britain now regards as part of its national character This book is therefore a contribution to the larger scholarship about the nature of modern empires Contributors Christopher Leslie Brown Seymour Drescher Jonathon Glassman Boyd Hilton Robin Law Phillip D Morgan Derek R Peterson John K Thornton

Inhuman Bondage David Brion Davis, 2008-06-05 Davis begins with the dramatic Amistad case and then looks at slavery in the American South and the abolitionists who defeated one of human history s greatest evils

From Homicide to Slavery David Brion Davis, 1986 This collection of Davis work includes essays on capital punishment movements of counter subversion the iconography of race the cowboy as an American hero the historiography of slavery and the British and American antislavery movements

The Problem of Slavery in Western Culture David Brion Davis, 1988 This classic Pulitzer Prize winning book depicts the various ways the Old and the New Worlds responded to the intrinsic contradictions of slavery from antiquity to the early 1770s and considers the religious

literary and philosophical justifications and condemnations current in the abolition controversy Slavery and the Enlightenment in the British Atlantic, 1750-1807 Justin Roberts, 2013-07-08 Clock work time quantification amelioration and the enlightenment Sunup to sundown agricultural diversity and seasonal patterns of work Lockstep and line gang work and the division of labor Negotiating sickness health work and seasonality Labor and industry skilled and unskilled work Working lives occupations and families in the slave community *The Problem of Slavery in the Age of Revolution, 1770-1823* David Brion Davis, 2009-01-01 David Brion Davis's books on the history of slavery reflect some of the most distinguished and influential thinking on the subject to appear in the past generation *The Problem of Slavery in the Age of Revolution* the sequel to Davis's Pulitzer Prize winning *The Problem of Slavery in Western Culture* and the second volume of a proposed trilogy is a truly monumental work of historical scholarship that first appeared in 1975 to critical acclaim both academic and literary This reprint of that important work includes a new preface by the author in which he situates the book's argument within the historiographic debates of the last two decades **On Inequality and Freedom** Lawrence M. Eppard, Henry A. Giroux, 2022 Conversations about liberty in the U S often focus on freedom from such as freedom from government This focus can sometimes come at the expense of the freedom to such as the freedom for all Americans to live the lives they imagine for themselves and the conditions that might be necessary for this to be realized In *On Inequality and Freedom* a diverse group of authors explore how Americans might benefit from this expanded notion of what freedom truly entails **The Problem of Slavery in the Age of Emancipation** David Brion Davis, 2015-01-06 Winner of the National Book Critics Circle Award 2014 With this volume Davis presents the age of emancipation as a model for reform and as probably the greatest landmark of willed moral progress in human history Bringing to a close his staggeringly ambitious prizewinning trilogy on slavery in Western culture Davis offers original and penetrating insights into what slavery and emancipation meant to Americans He explores how the Haitian Revolution respectively terrified and inspired white and black Americans hovering over the antislavery debates like a bloodstained ghost He offers a surprising analysis of the complex and misunderstood significance the project to move freed slaves back to Africa He vividly portrays the dehumanizing impact of slavery as well as the generally unrecognized importance of freed slaves to abolition Most of all Davis presents the age of emancipation as a model for reform and as probably the greatest landmark of willed moral progress in human history **Slavery and American Economic Development** Gavin Wright, 2006-10-01 *Slavery and American Economic Development* is a small book with a big interpretative punch It is one of those rare books about a familiar subject that manages to seem fresh and new Charles B Dew *Journal of Interdisciplinary History* A stunning reinterpretation of southern economic history and what is perhaps the most important book in the field since *Time on the Cross* I frequently found myself forced to rethink long held positions Russell R Menard *Civil War History* Through an analysis of slavery as an economic institution Gavin Wright presents an innovative look at the economic divergence between North and South in the antebellum era He draws a distinction between

slavery as a form of work organization the aspect that has dominated historical debates and slavery as a set of property rights Slave based commerce remained central to the eighteenth century rise of the Atlantic economy not because slave plantations were superior as a method of organizing production but because slaves could be put to work on sugar plantations that could not have attracted free labor on economically viable terms Gavin Wright is William Robertson Coe Professor in American Economic History at Stanford University and the author of *The Political Economy of the Cotton South* and *Old South New South* *Revolutions in the Southern Economy* since the Civil War winner of the Frank L and Harriet C Owsley Award of the Southern Historical Association He has served as president of the Economic History Association and the Agricultural History Society

The Evolution of Moral Progress Allen E. Buchanan, 2018 Steven Pinker has said that one of the most important questions humans can ask of themselves is whether moral progress has occurred or is likely to occur Buchanan and Powell here address that question in order to provide the first naturalistic empirically informed and analytically sophisticated theory of moral progress explaining the capacities in the human brain that allow for it the role of the environment and how contingent and fragile moral progress can be

Challenging the Boundaries of Slavery David Brion DAVIS, 2009-06-30 In this engaging book David Brion Davis offers an illuminating perspective on American slavery Starting with a long view across the temporal and spatial boundaries of world slavery he traces continuities from the ancient world to the era of exploration with its expanding markets and rise in consumption of such products as sugar tobacco spices and chocolate to the conditions of the New World settlement that gave rise to a dependence on the forced labor of millions of African slaves With the American Revolution slavery crossed another kind of boundary in a psychological inversion that placed black slaves outside the dream of liberty and equality and turned them into the Great American Problem Davis then delves into a single year 1819 to explain how an explosive conflict over the expansion and legitimacy of slavery together with reinterpretations of the Bible and the Constitution pointed toward revolutionary changes in American culture Finally he widens the angle again in a regional perspective to discuss the movement to colonize blacks outside the United States the African American impact on abolitionism and the South's response to slave emancipation in the British Caribbean which led to attempts to morally vindicate slavery and export it into future American states Challenging the boundaries of slavery ultimately brought on the Civil War and the unexpected immediate emancipation of slaves long before it could have been achieved in any other way This imaginative and fascinating book puts slavery into a brilliant new light and underscores anew the desperate human tragedy lying at the very heart of the American story

Slavery and Emancipation Rick Halpern, Enrico Dal Lago, 2008-04-15 *Slavery and Emancipation* is a comprehensive collection of primary and secondary readings on the history of slaveholding in the American South combining recent historical research with period documents The most comprehensive collection of primary and secondary readings on the history of slaveholding in America Combines recent historical research with period documents to bring both immediacy and perspective to the origins principles realities

and aftermath of African American slavery Includes the colonial foundations of slavery the master slave relationship the cultural world of the planters the slave community and slave resistance and rebellion Each section contains one major article by a prominent historian and three primary documents drawn from plantation records travellers accounts slave narratives autobiographies statute law diaries letters and investigative reports *The Cosmopolitan Ideal* Michael Scrivener,2015-10-06 Examines the new internationalism which emerged in Europe during the Enlightenment This is the study of cosmopolitanism which takes into account feminist and post colonial critiques of the Enlightenment It also offers cosmopolitanism as a solution to contemporary struggles to reach a post national political identity **After Slavery** Howard Temperley,2000 A collection of essays in which every contributor focuses upon some aspect of slave emancipation with the aim of assessing to what extent the outcome met with expectation The hopes and disappointments that characterized the transition from slavery to freedom are depicted Slavery in America Kenneth Morgan,2005 Designed specially for undergraduate course use this new textbook is both an introduction to the study of American slavery and a reader of core texts on the subject No other volume that combines both primary and secondary readings covers such a span of time from the early seventeenth century to the Civil War The book begins with a substantial introduction to the entire volume that gives an overview of slavery in North America Each of the twelve chapters that follow has an introduction that discusses the leading secondary books and articles on the topic in question followed by an essay and three primary documents Questions for further study and discussion are included in the chapter introduction while further readings are suggested in the chapter bibliography Topics covered include slave culture the slave based economy slavery and the law slave resistance pro slavery ideology abolition and emancipation The essays by such eminent historians as Drew Gilpin Faust Don E Fehrenbacher Eric Foner John Hope Franklin and Sylvia R Frey have been selected for their teaching value and ability to provoke discussion Drawing on black and white male and female experiences the primary documents come from a wide variety of sources diaries letters laws debates oral testimonies travelers accounts inventories journals autobiographies petitions and novels *Who Abolished Slavery?* Seymour Drescher,Pieter C. Emmer,João Pedro Marques,2021-01-11 The past half century has produced a mass of information regarding slave resistance ranging from individual acts of disobedience to massive uprisings Many of these acts of rebellion have been studied extensively yet the ultimate goals of the insurgents remain open for discussion Recently several historians have suggested that slaves achieved their own freedom by resisting slavery which counters the predominant argument that abolitionist pressure groups parliamentarians and the governmental and anti governmental armies of the various slaveholding empires were the prime movers behind emancipation Marques one of the leading historians of slavery and abolition argues that in most cases it is impossible to establish a direct relation between slaves uprisings and the emancipation laws that would be approved in the western countries Following this presentation his arguments are taken up by a dozen of the most outstanding historians in this field In a concluding chapter Marques responds

briefly to their comments and evaluates the degree to which they challenge or enhance his view *Moral Commerce* Julie L. Holcomb, 2016-08-23 No detailed description available for Moral Commerce **Slavery and Bonded Labor in Asia, 1250-1900**, 2021-10-11 Slavery and Bonded Labor in Asia 1250 1900 is the first collection of studies to focus on slavery and related forms of labor throughout Asia The 15 chapters by an international group of scholars assess the current state of Asian slavery studies discuss new research on slave systems in Asia identify avenues for future research and explore new approaches to reconstructing the history of slavery and bonded labor in Asia and by extension elsewhere in the globe Individual chapters examine slavery slave trading abolition and bonded labor in places as diverse as Ceylon China India Korea the Mongol Empire the Philippines the Sulu Archipelago and Timor in local regional pan regional and comparative contexts Contributors are Richard B Allen Michael D Bennett Claude Chevalleyre Jeff Fynn Paul Hans H gerdal Shawna Herzog Jessica Hinchy Kumari Jayawardena Rachel Kurian Bonny Ling Christopher Lovins Stephanie Mawson Anthony Reid James Francis Warren Don J Wyatt Harriet T Zurndorfer
