Space Shuttle Challenger Ben Evans, 2007-07-05 Ironically the loss of Challenger in January 1986 fired my interest in space exploration more than any other single event I was nine years old My parents were at the time midway through moving house and luckily the TV was one of the few domestic items still to be

packed I watched the entire horror unfold live on all of the network stations Admittedly my fascination with rockets and astronauts stars and planets had begun several years earlier but Challenger s destruction turned it from an occasional hobby to a fascination which has remained with me ever since In September 1988 aged 11 1 came home from school to watch STS 26 return the Shuttle fleet to orbital operations Five years later I gave a speech on the STS 51L disaster to my teacher as part of my GCSE English assessment Another decade passed and now a teacher myself I returned to my school one cold Monday morning to explain to my pupils what had happened to Challenger s sister ship Columbia a few days earlier In some ways the loss of Columbia affected me more deeply than Challenger
