Land Speed Records Don Wales, 2018-03-22 The Land Speed Record is a fascinating story of human endeavour of man and machine battling time to be the fastest Since 1898 many have dreamed of being the fastest on earth first with electric then steam then petrol moving forward to the jet car and into the present and future with rocket power The glory years of the record are studded with iconic names such as Malcolm and Donald Campbell Henry Segrave John Cobb George Eyston and more recently Craig Breedlove and Richard Noble The next race is on for 1 000mph with the latest British attempt by Bloodhound SSC In this colourfully illustrated introduction using many photographs from the Motoring Picture Library at Beaulieu Malcolm Campbell's grandson tells of the brave drivers and powerful machines that have propelled themselves into the record books

Crazy Speed Records Gideon Vale, 2025-03-31 Crazy Speed Records explores the science behind extreme velocity examining human natural and engineered achievements The book highlights how the relentless pursuit of speed drives innovation and challenges our understanding across sports and science Did you know that some volcanic eruptions can eject matter at speeds rivaling those of spacecraft or that the speed of a tennis ball serve can exceed 150 mph The book meticulously dissects the convergence of talent technology and environmental factors in these record breaking feats The book progresses by first establishing the scientific foundation of speed acceleration and measurement It then examines record breaking speeds in diverse categories from ball sports to geological events using scientific studies and high speed photography Finally it explores the implications of speed records on technology human potential safety and the environment This approach reveals surprising parallels and universal principles governing speed making it valuable for sports enthusiasts science buffs and anyone fascinated by pushing limits
