Spell Of Language Poststructuralism And Speculation:

The Spell of Language Thomas G. Pavel, 2001-01-01 Originally published as *Le Mirage linguistique* this book remains the definitive study of the role of linguistics in structuralism and poststructuralism Thomas Pavel examines recent French thought through the work of luminaries such as Lévi-Strauss Lacan Foucault and Derrida The spell of language for Pavel consists of three things the promise that linguistics seemed to represent for the humanities and social sciences the distortions misunderstandings and willful neglect incumbent upon the linguistic turn and above all the break with traditional humanism He isolates three modes of thought moderate structuralism scientific structuralism and speculative structuralism and shows how even as they diverge from each other they all advocate an antihumanist point of view In this spirited book Pavel shows that structuralism's flawed use of linguistic theory has rendered hollow the philosophical core of a whole generation of work in the human sciences *Linguistic Descriptions of the Greek New Testament* Stanley E.

Porter, 2023-08-10 Stanley E Porter provides descriptions of various important topics in Greek linguistics from a Systemic Functional Linguistics SFL perspective an approach that has been foundational to Porter's long and influential career in the field of New Testament Greek Deep insights into Porter's understanding of SFL are displayed throughout based either upon how he positions SFL in relation to other linguistic models or how he utilizes it to describe topics within Greek and New Testament studies Porter reflects on his core approach to the Greek New Testament by exploring subjects such as metaphor rhetoric cognition orality and textuality as well as studies on linguistic schools of thought and traditional grammar **New Testament Theology and the Greek Language** Stanley E. Porter, 2022-10-20 In this book Stanley E Porter offers a unique language based critique of New Testament theology by comparing it to the development of language study from the Enlightenment to the present Tracing the histories of two disciplines that are rarely considered together Porter shows how the study of New Testament theology has followed outmoded conceptual models from previous eras of intellectual discussion He reconceptualizes the study of New Testament theology via methods that are based upon the categories of modern linguistics and demonstrates how they have already been applied to New Testament Greek studies Porter also develops a workable linguistic model that can be applied to other areas of New Testament research Opening New Testament Greek linguistics to a wider audience his volume offers numerous examples of the productivity of this linguistic model especially in his chapter devoted to the case study of the Son of Man **The Cambridge Companion to Postcolonial Literary Studies**

Neil Lazarus, 2004-07-15 Offers a lucid introduction to postcolonial studies one of the most important strands in recent literary theory and cultural studies **Understanding Barthes, Understanding Modernism** Jeffrey R. Di Leo, Zahi Zalloua, 2022-07-14 Understanding Barthes Understanding Modernism is a general assessment of the modern literary and philosophical contributions of Roland Barthes The first part of the volume focuses on work published prior to Barthes's death in 1980 covering the major periods of his development from *Writing Degree Zero* 1953 to *Camera Lucida* Reflections on

Photography 1980 The second part focuses both on the posthumously published material and the legacies of his work after his death in 1980 This later work has attracted attention for example in conjunction with notions of the neutral gay writing and critiques of everyday life The third part is devoted to some of the critical vocabulary of Barthes in both the work he published during his lifetime and that which was published posthumously [Skepticism and Impersonality in Modern Poetry](#) V. Joshua Adams,2025-06-12 Modern literature is often described in terms of its impersonality What is the significance of this fact In Skepticism and Impersonality V Joshua Adams follows the history of impersonality in modern poetry from Mallarmé and Eliot through to the present engaging with work by major poets and critics but also contemporary philosophers Rather than seeing impersonality exclusively as a literary historical phenomenon Adams argues that we should understand it as an attempt to address skeptical problems arising from the limitations of first person experience Defending impersonality as a response to skeptical problems including doubts about the publicity of our experiences our knowledge of other minds the capacity of our language to describe the world the relationship between mind and body and the fictionality and continuity of our sense of self Adams analyzes what he calls experiments in impersonality as means of working through skeptical doubt The writers discussed transform this doubt into art whilst also ironizing it as corrosive and self defeating Ultimately this leads Adams to reinterpret literary impersonality as a therapeutic philosophical project Skepticism and Impersonality promises a new theoretical justification for our practical interest in literary texts to renovate our conception of how those texts might do philosophical work and to expand our sense of what a philosophical poem can be *Metamorphosing Dante* Fabio Camilletti,Manuele Gragnolati,Fabian Lampart,2010-12-01 After almost seven centuries Dante endures and even seems to haunt the present Metamorphosing Dante explores what so many authors artists and thinkers from varied backgrounds have found in Dante's oeuvre and the ways in which they have engaged with it through rewritings dialogues and transpositions By establishing trans disciplinary routes the volume shows that along with a corpus of multiple linguistic and narrative structures characters and stories Dante has provided a field of tensions in which to mirror and investigate one's own time Authors explored include Samuel Beckett Walter Benjamin André Gide Derek Jarman LeRoi Jones Amiri Baraka James Joyce Wolfgang Iser Jacques Lacan Thomas Mann James Merrill Eugenio Montale Pier Paolo Pasolini Cesare Pavese Giorgio Pressburger Robert Rauschenberg Vittorio Sereni Virginia Woolf [Homer's Iliad and the Problem of Force](#) Charles H. Stocking,2023 This volume explores the different types of Iliadic force in dialogue with the reception of the Iliad in the French intellectual tradition revealing how the Iliad as a whole undermines the relations of force which characters within the poem seek to establish [Encyclopedia of Media and Communication](#) Marcel Danesi,2013-06-17 The first comprehensive encyclopedia for the growing fields of media and communication studies the Encyclopedia of Media and Communication is an essential resource for beginners and seasoned academics alike Contributions from over fifty experts and practitioners provide an accessible introduction to these disciplines most important concepts figures and schools of
