Designing and Implementing Health Care Provider Payment Systems

Jack Langenbrunner, Cheryl Cashin, Sheila O'Dougherty, 2009-01-01 Strategic purchasing of health services involves a continuous search for the best ways to maximize health system performance by deciding which interventions should be purchased from whom these should be purchased and how to pay for them In such an arrangement the passive cashier is replaced by an intelligent purchaser that can focus scarce resources on existing and emerging priorities rather than continuing entrenched historical spending patterns Having experimented with different ways of paying providers of health care services countries increasingly want to know not only what to do when paying providers but also how to do it particularly how to design manage and implement the transition from current to reformed systems Designing and Implementing Health Care Provider Payment Systems How To Manuals addresses this need The book has chapters on three of the most effective provider payment systems primary care per capita capitation payment case based hospital payment and hospital global budgets It also includes a primer on a second policy lever used by purchasers namely contracting This primer can be especially useful with one provider payment method hospital global budgets The volume s final chapter provides an outline for designing launching and running a health management information system as well as the necessary infrastructure for strategic purchasing
