Crashback Michael Fabey, 2017-10-24 This chilling account of the warm war over control of the South China Sea one that is threatening to flare into full scale conflict presents a telling picture of the operational challenges the US Navy faces in the western Pacific Wall Street Journal from an award winning journalist with unprecedented access to the highest naval officers in America and China Out in the Pacific Ocean there is a war taking place It is a warm war a shoving match between the United States the uncontested ruler of the seas since WWII and China which now possesses the world's largest navy The Chinese regard the Pacific and especially the South China Sea as their ocean and they're ready to defend it Each day the heat between the two countries increases as the Chinese try to claim the South China Sea for their own and the United States insists on asserting freedom of navigation Throughout Southern Asia countries are responding with outrage and growing fear as China turns coral reefs into manmade islands capable of supporting airstrips and then attempts to enforce twelve mile radius shoot down zones The immediate danger is that the five trillion dollars in international trade that passes through the area will grind to a standstill The ultimate danger is that the US and China will be drawn into all out war Pulitzer Prize nominated journalist Michael Fabey has had unprecedented access to the Navy's most exotic aircraft carriers cruisers destroyers aircraft and submarines as well as those who command them In his well informed readable treatment Library Journal starred review Fabey offers good reporting from both sides of the conflict He gives his Chinese sources a thorough workout the little emperors and true believers alike and he has a sharp eye for what faces the American fleet if push comes to shove Kirkus Reviews Fabey predicts the next great struggle between military superpowers will play out in the Pacific and Crashback more than any other book is an accurate preview of how that conflict might unfold Spy's Honor Amy

Daily Report, Foreign Radio Broadcasts United States. Central Intelligence Agency, 1968 The Fight for Freedom Anders Bruce, 2003-08 It has been one year since the Galactic Government was defeated The known universe is ruled by the tyrannical Imperial Confederacy The last members of the Galaxy Defenders have only a single starship and are hiding in deep space How can they defeat the Imperial War Fleet and the cunning genius of the High Councilors if they can't even save themselves **Spy Ship?** C.D. Andersen, 2023-05-09 This is the story of the last cruise of USS Belmont AGTR 4 one of the

American spy ships used in the 1960s Half of the crew worked in signal intelligence while the other half ran the ship The crazy things that happened during the last year of this ship s life made me wonder about that word intelligence , **A History of the Modern Chinese Navy, 1840-2020** Bruce A. Elleman,2021-05-09 This book provides a comprehensive history of the modern Chinese navy from 1840 to the present Beginning with a survey of naval developments in earlier imperial times the book goes on to show how China has since the mid 19th century four times built or rebuilt its navy after the Opium Wars a navy which was sunk or captured by the Japanese in the war of 1894 1895 during the 1920s and 1930s a navy again sunk or lost to Japan in the war of 1937 1945 in the 1950s a navy built with Soviet help which stagnated following the Sino Soviet split in the early 1960s and finally the present navy which absorbed its predecessor but with the most modern sections dating from the 1990s a navy which continues to grow and prosper The book also shows how the underlying strategic imperative for the Chinese navy has been the defense of China s coasts and major rivers how naval mutiny was a key factor in the overthrow of the Qing and the Nationalist regimes and how successive Chinese governments aware of the potent threat of naval mutiny have restricted the growth independence and capabilities of the navy Overall the book provides at a time when many people in the West view China and its navy as a threat a rich detailed and realistic assessment of the true nature of the Chinese navy and the contemporary factors that affect its development The Capture of the USS Pueblo James Duermeier,2019-01-03 For President Lyndon Johnson 1968 was a year of calamity including the hijacking of the USS Pueblo in international waters off North Korea After a fierce attack by the North Korean Navy the lightly armed spy ship was captured and its 83 crewmen taken hostage imprisoned and tortured for nearly a year before being released How and why did the Navy the National Security Agency and the Johnson administration place the Pueblo in such an untenable situation What drove Kim Il sung North Korea s autocrat to gamble on hijacking a ship belonging to the world s most powerful nation Drawing on extensive research including summaries of White House meetings and conversations the author answers these questions and reviews the events and flawed decisions that led to Pueblo s capture **Navy's Most Wanted** Norman Polmar,Christopher P. Cavas,2009-01-31 Anchors aweigh **Surprise Attack** Larry Hancock,2016-09-13 Surprise Attack explores sixty plus years of military and terror threats against the United States It examines the intelligence tools and practices that provided warnings of those attacks and evaluates the United States responses both in preparedness and most importantly the effectiveness of our military and national command authority Contrary to common claims the historical record now shows that warnings often very solid warnings have preceded almost all such attacks both domestic and international Intelligence practices developed early in the Cold War along with intelligence collection techniques have consistently produced accurate warnings for our national security decision makers Surprise Attack traces the evolution and application of those practices and explores why such warnings have often failed to either interdict or intercept actual attacks Going beyond warnings Surprise Attack explores the real world performance of the nation s military and civilian command

and control history exposing disconnects in the chain of command failures of command and control and fundamental performance issues with national command authority America has faced an ongoing series of threats from the attacks on Hawaii and the Philippines in 1941 through the crises and confrontations of the Cold War global attacks on American personnel and facilities to the contemporary violence of jihadi terrorism With a detailed study of those threats the attacks related to them and America s response a picture of what works and what doesn t emerges The attacks have been tragic and we see the defensive preparations and response often ineffective Yet lessons can be learned from the experience Surprise Attack represents a comprehensive effort to identify and document those lessons
