The Cinema of Isolation Martin F. Norden, 1994. Filmmakers have often encouraged us to regard people with physical disabilities in terms of pity awe humor or fear. Others who somehow deserve to be isolated from the rest of society. In this first history of the portrayal of physical disability in the movies Martin Norden examines hundreds of Hollywood movies and notable international ones. Finds their place within mainstream society and uncovers the movie industry's practices for maintaining the status quo keeping people with disabilities dependent and in their place. Norden offers a dazzling array of physically disabled characters who embody or break out of the stereotypes that have both influenced and been symptomatic of society's fluctuating relationship with its physically disabled minority. He shows us sweet innocents like Tiny Tim obsessive avengers like Quasimodo variations on the disabled veteran and many others. He observes the arrival of a new set of stereotypes tied to the growth of science and technology in the 1970s and 1980s and underscores movies like *My Left Foot* and *The Waterdance* that display a newfound sensitivity. Norden's in-depth knowledge of disability history makes for a particularly intelligent and sensitive approach to this long overlooked issue in media studies.

Broken Beauty illustrates how disability is right at the core of musical modernism; it is one of the things that musical modernism is fundamentally about. The most characteristic features of musical modernism—fractured forms, immobilized harmonies, conflicting textural layers, radical simplification of means in some cases and radical complexity and hermeticism in others—can be understood as musical representations of disability conditions including deformity, disfigurement, mobility impairment, madness, idiocy, and autism. **A set-down at court, by Kate Mont Albion** Mrs. Bayley, 1816
