Art and Architecture, 1910 **Douglas Snelling** Davina Jackson, 2016-12-01 Douglas Burrage Snelling 1916-85 was one of Britain's significant emigrant architects and designers Born in Kent and educated in New Zealand he became one of Australia's leading mid-century architects of luxury residences and commercial buildings and a trend-setting designer of furniture interiors and landscapes This is the first comprehensive study of Snelling's pan-Pacific life works and trans-disciplinary significance It provides a critical examination of this controversial modernist revealing him to be a colourful and talented protagonist who led antipodean interpretations of American especially Wrightian and southern Californian architecture design and lifestyle innovations **Architect**, 1874 Ken Woolley Ken Woolley, **Cox Architects** Renée Otmar, 2000 Cox Architects are world renowned for many aspects of their work not the least of which has been extending an Australian architectural ethos beyond houses and into large-scale projects such as the Yulara Tourist Resort in Uluru They are also recognised **Shifting Views** Andrew Leach, Antony Moulis, Nicole Sully, 2008 Shifting Views draws together a selection of writing from across twenty-five years of these conferences to provide a fascinating view into the region's architectural history discipline The essays collected here from such diverse thinkers as Judith Brine Joan Kerr Miles Lewis Sarah Treadwell Philip Goad Julie Willis and Mike Austin reflect some of the most illuminating debates from these conferences Together these essays capture a tone of critical inquiry and the conditions of writing architectural history in Australia and New Zealand Shifting Views takes us into the mechanics of architectural history making exposing its foundations and demonstrating how they can be called to account It shows us how architectural history has been made and revised giving us a glimpse of the means why which our past becomes our history **BOOK JACKET** **APAIS 1992: Australian public affairs information service**, 150 Geoffrey London, Philip Goad, Conrad Hamann, 2017 Architect designed houses of the period 1950-65 proposed an innovative response to the social economic and climatic conditions of post-war Australia At the same time they embraced the aesthetic technological and egalitarian aspirations of modern architecture An Unfinished Experiment in Living traces the emergence of this architectural phenomenon in Australia documenting the full range of its expression from the postwar optimism of the early 1950s through to the affluence of the 1960s It is a catalogue of the most significant houses of the period It includes comprehensive plans and period photographs of 150 houses from around Australia dating from a time when the great Australian dream was the single family house This book puts forward new research founded on the premise that the most significant houses of the 1950s and 60s represent an unfinished and undervalued experiment in modern living Issues such as the open plan the changing nature of the family the embrace of advances in technology the use of the courtyard and the orientation of the house to capture sun and privacy were valuable and critical lessons This is a compelling

reminder of their continuing relevance Subject Architecture Design Australian History Sociology **Architectural Regionalism** Vincent B. Canizaro, 2012-03-20 In this rapidly globalizing world any investigation of architecture inevitably leads to considerations of regionalism But despite its omnipresence in contemporary practice and theory architectural regionalism remains a fluid concept its historical development and current influence largely undocumented This comprehensive reader brings together over 40 key essays illustrating the full range of ideas embodied by the term Authored by important critics historians and architects such as Kenneth Frampton Lewis Mumford Sigfried Giedion and Alan Colquhoun Architectural Regionalism represents the history of regionalist thinking in architecture from the early twentieth century to today British Architect and Northern Engineer ,1890 **Built, Unbuilt and Imagined Sydney** Anuradha Chatterjee, 2016-09-12 Built Unbuilt and Imagined Sydney presents the expanded field of architecture It aims to show that the practice of architecture exceeds the work legally defensible under the title of the architect Besides the design and construction of buildings the disciplinary field of architecture consists of exhibition and display discussions and lectures competitions and visions of new public domains interactions between art and architecture in the form of installations performances and public art and ideas on new directions for the practice of architecture The book therefore places emphasis on practice as an intellectual activity in addition to the definition of the term informed by business and legal parameters It is seen as the meaningful exercise of social political and critical knowledge skills and mindset in an urban spatial and tectonic condition The practice is also a public act mediated legitimated and made meaningful through its articulation in various institutional public and mediatic realms The book focuses on built and unbuilt works residential commercial interiors and so on in Sydney inclusive of public art object or furniture design key invited or public lectures studios current projects in making competitions collaborations exhibitions installations and outreach work The focus is on the innovative and the original not the ordinary or the purely commercial Contemporary Architects Muriel Emanuel, 2016-01-23
