

Syllabus and Curriculum

Nunan (1988) believes that curriculum is wider term as compared with syllabus. Curriculum covers all the activities and arrangements made by the institution throughout the academic year to facilitate the learners and the instructors whereas syllabus is limited to particular subject of a particular class.

In a theoretical sense, curriculum refers to what is offered by the school or college. However, practically it has a wider scope which covers the knowledge, attitude, behaviour, manner, performance and skills that are imparted or inculcated in a student. It contains the teaching methods, lessons, assignments, physical and mental exercises, activities, projects, study material, tutorials, presentations, assessments, test series, learning objectives, and so on.
