Children's Literature New Approaches is a guide for graduate and upper level undergraduate students of children's literature. It is structured through critics reading individual texts to bring out wider issues that are current in the field. Includes chronology of key events and publications, a selective guide to further reading, and a list of Web-based resources. Politics, Gender, and the Arts Ronald L. Dotterer, Susan Bowers, 1992 **Close Your Eyes** Amanda Eyre Ward, 2011-07-26 For most of her life Lauren Mahdian has been certain of two things: that her mother is dead and that her father is a murderer. Before the horrific tragedy, Lauren led a sheltered life on the banks of Long Island Sound, a haven of luxurious homes and seemingly perfect families. But one morning, eight-year-old Lauren and her older brother awoke to discover their mother's body and their beloved father arrested for the murder. Years later, Lauren is surrounded by uncertainty. Startling revelations force her to peek under the floorboards of her carefully constructed memories, put aside the version of history that she has clung to so fiercely, and search for the truth of what really happened that fateful night long ago. **BONUS** This edition includes a *Close Your Eyes* discussion guide. *Charles Dickens and the Victorian Child* Amberyl Malkovich, 2013-02-11 This book explores the ideas of children and childhood and the construct of the ideal Victorian child that developed rapidly over the Victorian era, along with literacy and reading material for the emerging mass reading public. Children's Literature was one of the developing areas for publishers and readers alike, yet this did not stop the reading public from bringing home works not expressly intended for children and reading to their family. Within the idealized middle-class family circle, authors such as Charles Dickens were read and appreciated by members of all ages. By examining some of Dickens's works that contain the imperfect child and placing them alongside works by Kingsley, MacDonald, Stretton, Rossetti, and Nesbit, Malkovich considers the construction, romanticization, and socialization of the Victorian child within work read by and for children during the Victorian Era and early Edwardian period. These authors use elements of religion, death, irony, fairy worlds, gender, and class to illustrate the need for the ideal child and yet the impossibility of such a construct. Malkovich contends that the imperfect child more readily reflects reality, whereas the ideal child reflects an unattainable fantasy, and while debates rage over how to define children's literature, such children, though somewhat changed, can still be found in the most popular of literatures read by children contemporarily. Children, Childhood and Youth in the British World Simon Sleight, Shirleene Robinson, 2016-10-06 Age was a critical factor in shaping imperial experience, yet it has not received any sustained scholarly attention. This pioneering interdisciplinary collection is the first to investigate the lives of children and young people and the construction of modes of childhood and youth within the British world. **Virginia Woolf and Classical Music** Emma Sutton, 2013-09-16 This study is a groundbreaking investigation into the formative influence of music on Virginia Woolf's writing. In this unique study, Emma Sutton discusses all of Woolf's novels as well as selected essays and short fiction, offering

detailed commentaries on Woolf's numerous allusions to classical repertoire and to composers including Bach, Mozart, Beethoven, and Wagner. Sutton explores Woolf's interest in the contested relationship between politics and music, placing her work in a matrix of ideas about music and national identity, class, anti-Semitism, pacifism, sexuality, and gender. The study also considers the formal influence of music from fugue to Romantic opera on Woolf's prose and narrative techniques. The analysis of music's role in Woolf's aesthetics and fiction is contextualized in accounts of her musical education, activities as a listener, and friendships with musicians, and the study outlines the relationship between her musicalized work and that of

Mid-Victorian Generation K. Theodore Hoppen, 2000-06-30 This the third volume to appear in the New Oxford History of England covers the period from the repeal of the Corn Laws to the dramatic failure of Gladstone's first Home Rule Bill In his magisterial study of the mid Victorian generation Theo Hoppen identifies three defining themes The first he calls established industrialism the growing acceptance that factory life and manufacturing had come to stay It was during these four decades that the balance of employment shifted irrevocably For the first time in history more people were employed in industry than worked on the land The second concerns the multiple national identities of the constituent parts of the United Kingdom Dr Hoppen's study of the histories of Ireland Scotland Wales and the Empire reveals the existence of a variety of particular and overlapping national traditions flourishing alongside the increasingly influential structure of the unitary state The third defining theme is that of interlocking spheres which the author uses to illuminate the formation of public culture in the period This he argues was generated not by a series of influences operating independently from each other but by a variety of intermeshed political economic scientific literary and artistic developments This original and authoritative book will define these pivotal forty years in British history for the next generation **Victorian Publishing and Mrs. Gaskell's Work**

Linda K. Hughes, Michael Lund, 1999 For much of her own century Elizabeth Gaskell was recognized as a voice of Victorian convention the loyal wife good mother and respected writer a reputation that led to her steady decline in the view of twentieth century literary critics Recent scholars however have begun to recognize that Mrs Gaskell's high standing in

Victorian society allowed her to effect change in conventional ideology Linda K Hughes and Michael Lund focus this reevaluation on issues pertaining to the Victorian literary marketplace Victorian Publishing and Mrs Gaskell's Work portrays an elusive and self-aware writer whose refusal to grant authority to a single perspective even while she recirculated the fundamental assumptions and debates of her era enabled her simultaneously to fulfill and deflect the expectations of the literary marketplace While she wrote for money producing periodical fiction major novels and nonfiction Mrs Gaskell was able to maintain a tone of warmth and empathy that allowed her to imagine multiple social and epistemological alternatives Writing from within the established rubrics of gender narrative and publication format she nevertheless performed important cultural work
