Symbol Of Wilderness:

A Symbol of Wilderness Mark W. T. Harvey, 2011-10-01 Harvey details the first major clash between conservationists and developers after World War II the successful fight to prevent the building of Echo Park Dam The dam on the Green River was intended to create a recreational lake in northwest Colorado and generate hydroelectric power but would have flooded picturesque Echo Park Valley and threatened Dinosaur National Monument straddling the Utah Colorado border near Wyoming

Wallace Stegner's Unsettled Country Mark Fiege, Leisl Carr Childers, Michael J. Lansing, 2024-02 This collection shows that Wallace Stegner's work however flawed remains a useful tool for assessing the past present and future of the American West

Our Common Ground John D. Leshy, 2022-03-01 The little known story of how the U S government came to hold nearly one third of the nation's land and manage it primarily for recreation education and conservation A much needed chronicle of how the American people decided wisely and democratically that nearly a third of the nation's land surface should remain in our collective ownership and be managed for our common good Dayton Duncan author of *The National Parks America's Best Idea* America's public lands include more than 600 million acres of forests plains mountains wetlands deserts and shorelines In this book John Leshy a leading expert in public lands policy discusses the key political decisions that led to this beginning at the very founding of the nation He traces the emergence of a bipartisan political consensus in favor of the national government holding these vast land areas primarily for recreation education and conservation of biodiversity and cultural resources That consensus remains strong and continues to shape American identity Such a success story is a bright spot in an era of cynicism about government This book is essential reading for anyone who cares about public lands and it is particularly timely as the world grapples with the challenges of climate change and biodiversity loss

Nature's New Deal Neil M. Maher, 2008 Neil M. Maher examines the history of one of Franklin D. Roosevelt's boldest and most successful experiments the Civilian Conservation Corps describing it as a turning point both in national politics and in the emergence of modern environmentalism

Toward Environmental Wholeness Patrick H. Byrne, 2024-03-01 *Toward Environmental Wholeness* proposes a new understanding of environmental wholeness that is needed to address the ethical challenges posed

by environmental and climate crises Relying on the studies of numerous historians Patrick H Byrne traces the complex developments in environmental and climate change sciences and how they have posed complex ethical challenges Drawing upon the thought of Bernard Lonergan he shows how seemingly contradictory contributions from diverse ethical traditions can be brought together into a framework for responding to what the developing sciences are telling us about our current situation and evaluating our realistic options Byrne reveals how the limitations of a utilitarian approach to environmental ethics had to be expanded into more holistic approaches and the difficulties those approaches encountered especially the Romantic notions of a pristine unchanging nature to be preserved and humans as alien Environmental and climate change sciences have revealed the complex dynamic natural and human systems that now call for a more dynamic vision of the whole as the basis for environmental ethics The book also examines how the initiatives of Pope Francis Laudato si and the United Nations Strategic Development Goals are responding to these challenges

Rainbow Bridge to Monument Valley Thomas J. Harvey, 2012-09-04 The Colorado River Plateau is home to two of the best known landscapes in the world Rainbow Bridge in southern Utah and Monument Valley on the Utah Arizona border Twentieth century popular culture made these places icons of the American West and advertising continues to exploit their significance today In Rainbow Bridge to Monument Valley Thomas J Harvey artfully tells how Navajos and Anglo Americans created fabrics of meaning out of this stunning desert landscape space that western novelist Zane Grey called the storehouse of unlived years where a rugged more authentic life beckoned Harvey explores the different ways in which the two societies imbued the landscape with deep cultural significance Navajos long ago incorporated Rainbow Bridge into the complex origin story that embodies their religion and worldview In the early 1900s archaeologists crossed paths with Grey in the Rainbow Bridge area Grey credited with making the modern western novel popular sought freedom from the contemporary world and reimagined the landscape for his own purposes In the process

Harvey shows Grey erased most of the Navajo inhabitants This view of the landscape culminated in filmmaker John Ford's use of Monument Valley as the setting for his epic mid twentieth century Westerns Harvey extends the story into the late twentieth century when environmentalists sought to set aside Rainbow Bridge as a symbolic remnant of nature untainted by modernization Tourists continue to flock to Monument Valley and Rainbow Bridge as they have for a century but the landscapes are most familiar today because of their appearances in advertising Monument Valley has been used to sell perfume beer and sport utility vehicles Encompassing the history of the Navajo archaeology literature film environmentalism and tourism Rainbow Bridge to Monument Valley explores how these rock formations Navajo sacred spaces still have become embedded in the modern identity of the American West and of the nation itself **Imagined Country** John Rennie Short,2005-11-15 Explores the relationship between society and the physical world through representation the artistic re creation of the physical world which reflects interpretation **Greening the Red, White, and Blue** Thomas Jundt,2014-03-12 In popular imagination environmentalism is often linked to Rachel Carson's Silent Spring and the political activism of the 1960s and 70s that moved increasing numbers of Americans to insist on a better quality of life open spaces clean air and water beautification campaigns But these interpretations have obscured the significant origins of environmentalism as a moral and intellectual broadside against the growing power of corporate capitalism both domestically and in the postwar liberal international order the United States was enacting abroad In Greening the Red White and Blue Thomas Jundt shows how many Americans came to view powerful corporations and a federal government bent on economic growth as threats to human health and the environment Fallout from atomic testing air and water pollution the proliferation of pesticides and herbicides all connected to the growing dominance of technology and corporate capitalism in American life led a variety of constituencies to seek solutions in what came to be known as environmentalism In addition to political and legal campaigns to effect change an alternative form of civic participation emerged beginning in the late 1940s as growing numbers of citizens turned to what they deemed environmentally friendly consumption practices The goal of this politically charged consumption was not only to protect themselves and their families from harm but also to achieve social change at a time when many believed the government was placing the desires of business before the needs of its citizens Politicians responded to the growing environmental concerns of middle class Americans but in the end continual political compromises with corporate power meant weak laws and lax enforcement Many citizens sought refuge in an alternative green marketplace including organic foods natural fiber clothing alternative energy and everyday products designed to have minimal environmental impact In doing so they attempted to create a community for those who shared their concerns and frustrations as well as their vision for a different American Way Thomas Jundt's work highlights the intertwining of consumerism and environmentalism amidst the growing power of corporate capitalism and government in postwar America *The Comprehensive Commentary on the Holy Bible* William Jenks,1838 *Canexus* James Raffan,Bert Horwood,1998-06-30 A
