The Yearbook of Psychoanalysis ,1954 **Law and Consent** Karla O'Regan,2019-06-28 Consent is used in many different social and legal contexts with the pervasive understanding that it is and has always been about autonomy but has it Beginning with an overview of consent s role in law today this book investigates the doctrine s inseparable association with personal autonomy and its effect in producing both idealised and demonised forms of personhood and agency This prompts a search for alternative understandings of consent Through an exploration of sexual offences in Antiquity medical practice in the Middle Ages and the regulation of bodily harm on the present day sports field this book demonstrates that in contrast to its common sense story of autonomy consent more often operates as an act of submission than as a form of personal freedom or agency The book explores the implications of this counter narrative for the law s contemporary uses of consent arguing that the kind of freedom consent is meant to enact might be foreclosed by the very frame in which we think about autonomy itself This book will be of interest to scholars of many aspects of law history and feminism as well as students of criminal law bioethics and political theory **Carlo Crivelli** R. (System), 1952 *Hunting the Wren* Elizabeth Atwood Lawrence, 1997 A unique interdisciplinary study this book examines the British and European tradition of the wren hunt in which a bird ordinarily revered and protected for most of the year was killed around the time of the annual solstice In focusing on this ancient ritual Elizabeth Atwood Lawrence draws on her training in cultural anthropology and biology to cast a fresh light on the complexities of human animal relationships Following an introductory chapter on animal symbolism Lawrence proceeds in subsequent chapters to describe the wren both as a biological entity and as the subject of numerous tales and legends to delineate the details of the wren hunt ceremony and the various meanings ascribed to it and finally to relate the ceremony to important contemporary issues in human animal interactions and current attitudes toward the living environment Whereas most other studies tend to concentrate solely on human perceptions of animals and fail to include the animal's role in the relationship Lawrence's approach shows how the participation of both animal and human determines the symbolic status of the animal which in turn influences the treatment of that animal within a particular society At a time when human destructiveness toward nature has

reached tragic proportions Lawrence contends it is critical that we understand the processes by which certain cultural beliefs in combination with observations about the natural history of a particular animal result in emotional and mental responses that may ultimately determine the fate of that species The author argues persuasively that the wren hunt with its ancient roots associated beliefs and complex meanings in the preindustrialized world still has much to teach us

Aavitsland, 2017-07-05 The first monograph on the Vita Humana cycle at Tre Fontane this book includes an overview of the medieval history of the Roman Cistercian abbey and its architecture as well as a consideration of the political and cultural standing of the abbey both within Papal Rome and within the Cistercian order Furthermore it considers the commission of the fresco cycle the circumstances of its making and its position within the art historical context of the Roman Duecento Examining the unusual blend of images in the Vita Humana cycle this study offers a more nuanced picture of the iconographic repertoire of medieval art Since the discovery of the frescoes in the 1960s the iconographic programme of the cycle has remained mysterious and an adequate analysis of the Vita Humana cycle as a whole has so far been lacking Kristin B Aavitsland covers this gap in the scholarship on Roman art circa 1300 and also presents the first interpretative discussion of the frescoes that is up to date with the architectural investigations undertaken in the monastery around 2000 Aavitsland proposes a rationale behind the conception of the fresco cycle thereby providing a key for understanding its iconography and shedding new light on thirteenth century Cistercian culture
