## **Symbolic Earth Discourse And Our Creation Of The Environment:**

The Symbolic Earth James G. Cantrill, Christine L. Oravec, 2021-10-21 The core dilemma in environmental advocacy may be illustrated by the question When we communicate about the world should we stress what we know or what we feel The contributors to The Symbolic Earth argue that it is more important to decide how we should talk about what we know and feel In their view the environment is largely a product of how we talk about the world Because the environment is a social construction the only hope we have of preserving it is to understand and alter the fundamental ways we discuss it This collection first examines the ways in which discourse creates environment perceptions Subjects discussed range from the description of natural scenery to the advocacy of political interest groups from the everyday interactions of citizens facing environmental crises to the greenwashing of corporate imagemakers and from the psychology of the mass public to the social constructions of the mass media The authors include nationally known scholars of environmental history rhetorical theory ethnography communication and journalism studies public policy and media criticism

**The Symbolic Earth** James Gerard Cantrill, 1996 The core dilemma in environmental advocacy may be illustrated by the question When we communicate about the world should we stress what we know or what we feel The contributors to The Symbolic Earth argue that it is more important to decide how we should talk about what we know and feel In their view the environment is largely a product of how we talk about the world Because the environment is a social construction the only hope we have of preserving it is to understand and alter the fundamental ways we discuss it This collection first examines the ways in which discourse creates env

*Fracking and the Rhetoric of Place* Justin Mando, 2021-10-19 Fracking and the Rhetoric of Place investigates the rhetorical strategies of speakers at public hearings on hydraulic fracturing fracking in order to understand how places shape and are shaped by citizens as they engage in their democracy As an important argumentative resource in environmental controversy the rhetoric of place helps citizens situate themselves within local contexts and raise their voices in times of social conflict Justin Mando uses rhetorical analysis discourse analysis and corpus analysis to offer scholars of place based rhetoric and environmental communication a heuristic approach to studying their own sites This approach reveals that place based arguments are a ubiquitous rhetorical resource in the dispute over hydraulic fracturing that shapes how the issue is perceived Pro frackers and anti frackers use rhetoric of place in striking ways that reveal their values motivations strengths and weaknesses Place functions as an interface of potential common ground that connects the local to the global what is here to what is there Scholars and students of rhetoric communication and environmental studies will find this book particularly interesting

*Walt Whitman and the Earth* M. Jimmie Killingsworth, 2009-11 Now I am terrified at the Earth it is that calm and patient It grows such sweet things out of such corruptions It turns harmless and stainless on its axis with such endless successions of diseases and corpses It distills such exquisite winds out of such infused fetor It renews with such unwitting looks its prodigal annual sumptuous crops It gives such divine materials to men and accepts such leavings from them at last Walt Whitman from This Compost How did Whitman use language to figure out his relationship to the earth and how can we interpret his language to reconstruct the interplay between the poet and his sociopolitical and environmental world In this first book length study of Whitman's poetry from an ecocritical perspective Jimmie Killingsworth takes ecocriticism one step further into ecopoetics to reconsider both Whitman's language in light of an ecological understanding of the world and the world through a close study of Whitman's language Killingsworth contends that Whitman's poetry

embodies the kinds of conflicted experience and language that continually crop up in the discourse of political ecology and that an ecopoetic perspective can explicate Whitman's feelings about his aging body his war torn nation and the increasing stress on the American environment both inside and outside the urban world He begins with a close reading of This Compost Whitman's greatest contribution to the literature of ecology from the 1856 edition of Leaves of Grass He then explores personification and nature as object as resource and as spirit and examines manifest destiny and the globalizing impulse behind Leaves of Grass then moves the other way toward Whitman's regional even local appeal demonstrating that he remained an island poet even as he became America's first urban poet After considering Whitman as an urbanizing poet he shows how in his final writings Whitman tried to renew his earlier connection to nature Walt Whitman and the Earth reveals Whitman as a powerfully creative experimental poet and a representative figure in American culture whose struggles and impulses previewed our lives today
