**Symbols in Stanley Kubrick's Movie 'Eyes Wide Shut'** Carolin Ruwe,2007-11 Eyes Wide Shut is open to several interpretations none of which fits perfectly to all parts and aspects of the film And this is exactly what makes the movie so intriguing its ambiguity and loose ends which leave interpretation to the viewer      **Radicalizing Lawrence** Robert Burden,2021-12-28 In this study of D H Lawrence and critical theory Robert Burden pays particular attention to the critical formations that underpin the reception history of the main novels including the much maligned leadership novels because strong readings have always contested the meaning and significance of Lawrence and because there has been a persistent reluctance to approach his writing through post structuralist theory This study demonstrates in some detail that once Lawrence s texts are the objects of the newer critical paradigms their principles of coherence are understood differently and that older notions of textual unity are displaced by aesthetic structures of degrees of generic and linguistic destabilization This enables a radicalizing of Lawrence s fiction by drawing out its deconstructive effects on his myth making and essentialist notions of the self The sexual identities represented in the fiction are read as experiments or thought adventures as Lawrence himself characterized his work The different approaches to Lawrence s writing in this study lead to a radical reassessment of his relationship to Modernism especially in the light of the more elastic concept of Modernism in recent discussion and one which traditional Lawrence scholars have ignored What emerges is a more self deconstructive Lawrence with some surprising results      Current Issues in Asian Tourism: Volume II C. *Art, Aesthetics and International Justice* Marina Aksenova, 2025-03-31 This book demonstrates that art is implicit in the process of administration of international justice The diverse nature of recent global threats as well as an overwhelming pull towards isolationism and nationalism challenge the dominant deterrence paradigm of international governance created in the aftermath of the Second World War An alternative model is to focus on cooperation and not deterrence as a guiding operational principle This volume focuses on the theoretical component linking justice with aesthetics as well as on the practical manifestation of such connection evident inter alia in the rhetoric of international courts their architectural design and their commemorative practices expressed by the practice of symbolic reparations adopted by some of the courts The underlying premise of the book is that international justice requires new vocabulary and new approaches which can be derived from the study of aesthetics It is held that exploring the aesthetical dimension of international justice contributes to the discussion on the foundations of its authority and the grounds for compliance with it The work engages deeply with the theory of aesthetics developed by Immanuel Kant and Abhinavagupta a Kashmiri critic philosopher and scholar writing in the early eleventh century The book will be of interest to academics and researchers working in the areas of Legal Philosophy International Criminal Justice and International Law and International Relations      **A Companion to British and Irish**

,2005 One number each year includes Annual bibliography of Commonwealth literature *Critical Branding* Caroline Koegler,2018-03-13 Critical Branding Postcolonial Studies and the Market provides an original answer to what Sarah Brouillette has called postcolonial studies longstanding materialist challenge illuminating the relationship between what is often broadly called the market and the practice and positionality of postcolonial critics and their field postcolonial studies After much attention has been paid to the status of literary writers in markets and after a range of sweeping attacks against the field for its alleged complicity with capitalism this study takes the crucial step of systematically exploring the engagement of postcolonial critics in market practice substituting an automatic sense of accusation Dirlik dread Westall Brouillette rage Young Williams or irony Huggan Ponzanesi Mendes with a nuanced exploration and critique Bringing together concepts from business studies postcolonial studies queer studies and literary and cultural studies in an informed way Critical Branding sets on a thorough theoretical footing a range of categories that while increasingly current remain surprisingly obscure such as the market market forces and branding It also provides new concepts with which to think the market as a dimension of practice such as brand narratives brand acts and brand politics At a time when the marketisation of the university system and the resulting effects on academics are much on our minds Critical Branding is a timely contribution that explores how diversely postcolonial studies and the market intersect for better and for worse **Annual Report on English and American Studies**,2008 *Leadership and Organisational Culture in Development* Violeta

Schubert,2022-07-14 This book uses organisational theory to explore how power and leadership operate in development organisations in different contexts and at different levels Culture as a tool for enacting change is of particular importance within organisational and leadership analysis but often limiting Notions of exceptionalism within the development sector mean that lessons from other organisational contexts are often disregarded or deemed irrelevant In examining the way that culture operates in organisational and leadership analysis and in development thinking and approaches the book invites closer attention to modes of organising and leading The book examines development exceptionalism and the leadership fetishism that it evokes as a panacea for addressing disorder and crisis The term organisationalism is deployed to capture the

endeavours to control and manage produce and reproduce organisation and the manifestations responses and imprints of seeing like an organisation The modes and manifestations of organisationalism are especially notable in times of crisis and disorder accusations of wrongdoings bad culture and bad leadership This book makes an important contribution to debates on development exceptionalism and leadership and as such will be of interest to researchers in development studies and management studies and related disciplines across sociology politics and global governance Arts Education and Sustainability in a Time of Crisis WoongJo Chang,Shin-Eui Park,2025-03-04 This book is a result of the 4th UNESCO UNITWIN Symposium that took place in Seoul Korea on May 25 and 26 2021 Held online for the first time due to the Covid 19 pandemic distinguished arts management and cultural education scholars addressed a timely array of issues including the power of arts participation to transform behavior and perceptions inclusivity in arts education the disruptions and opportunities of the lockdown the power of arts creativity in broader problem solving the role of local arts educators on the transcultural horizon and the role of international cooperation in reconstituting vibrant national arts scenes Encompassing visual written and performance arts education from primary through higher education this book provides a unique window into the power of the arts to meet the harrowing tests we continue to face in the context of the global pandemic The book offers a unique perspective that is both international in scope and addresses local responses to an unprecedented global pandemic with an emphasis on the Korean and East Asian context *Philosophical Questions in Art Education* Dorit Barchana-Lorand,2025-08-21 This book examines the rationale of incorporating the arts in the school curriculum from a philosophical rather than pedagogical perspective Educational resources are frequently under scrutiny and education policy makers wish to maximize the use of public funds and children s time at school leaving the arts as a lower priority To understand the logic behind this Lorand revisits milestones in the history of the philosophy of art to address core questions in art education namely what are the challenges of teaching the arts And why teach the arts at all Lorand draws on the work of a broad range of philosophers including Dewey Eisner Greene Hume Plato Kant Langer Read and Schiller The book aims to show how attempts to justify art as a tool for societal and individual improvement fail in advocating art education Ultimately she claims that the arts should be taught because children have the right to receive art education That right stems from the unique nature of art **As You Law It - Negotiating Shakespeare** Daniela Carpi,François Ost,2018-10-08 Shakespeare was fascinated by law which permeated Elizabethan everyday life The general impression one derives from the analysis of many plays by Shakespeare is that of a legal situation in transformation and of a dynamically changing relation between law and society law and the jurisdiction of Renaissance times Shakespeare provides the kind of literary supplement that can better illustrate the legal texts of the sixteenth and early seventeenth centuries There was a strong popular participation in the system of justice and late sixteenth century playwrights often made use of forensic models of narrative Uncertainty about legal issues represented a rich potential for causing strong reactions in the public especially feelings concerning the
