Symbols of Power at the Time of Stonehenge D. V. Clarke, Trevor G. Cowie, Andrew Foxon, John C. Barrett, National Museum of Antiquities of Scotland, 1985 **Archaeological Theory** Norman Yoffee, Andrew Sherratt, 1993-07-22 This volume assesses the real achievements of archaeology in increasing an understanding of the past Without rejecting the insights either of traditional or more recent approaches it considers the issues raised in current claims and controversies about what is appropriate theory for archaeology The first section looks at the process of theory building and at the sources of the ideas employed The following studies examine questions such as the interplay between expectation and evidence in ideas of human origins social role and material practice in the formation of the archaeological record and how the rise of states should be conceptualised further papers cover issues of ethnoarchaeology visual symbols and conflicting claims to ownership of the past The conclusion is that archaeologists need to be equally wary of naive positivism in the guise of scientific procedure and of speculation about the unrecorded intentions of prehistoric actors **The Archaeology of Britain** John Hunter, Ian Ralston, 1999 A comprehensive and up to date introduction to all the archaeological periods covering Britain from early prehistory to the industrial revolution It provides a one stop textbook for the entire archaeology of Britain The Circular Archetype in Microcosm: The Carved Stone Balls of Late Neolithic Scotland Chris L. Stewart-Moffitt, 2022-07-14 This study is the culmination of seven years research into the Carved Stone Balls of Late Neolithic Scotland It is the first study of these enigmatic artefacts since that undertaken by Dorothy Marshall in 1977 and includes all currently known examples in both museums and private hands described and analysed in considerable detail

Archaeology Hotspot Great Britain Donald Henson, 2015-03-12 The Archaeology Hotspots series offers reader friendly and engaging narratives of the archaeology in particular countries Written by archaeological experts with a general reader in mind each book in the series focuses on what has been found and by whom what the controversies and scandals have been ongoing projects and how it all fits into a broader view of the history of the country In Archaeology Hotspot Great Britain expert Donald Henson first chronicles the deep archaeology of a long settled region including England Wales and Scotland then explores both the famously ancient finds cave art at Creswell Crags Stonehenge and more recent and iconic historic sites and monuments such as Westminster Abbey and Ironbridge Gorge He profiles the often larger than life personalities and the previously marginalized women who have contributed to British archaeology the controversies influencing how we see the past are also highlighted Henson considers London s position in the antiquities trade and the safeguarding of heritage sites As a whole the book tells a fascinating story of Great Britain s history culture national heritage and ongoing role as a hotspot of archaeology The Divine Feminine in Ancient Europe Sharon Paice MacLeod, 2013-12-23 This book is an exploration of the spiritual traditions of ancient Europe focusing on the numinous presence of the divine feminine in

Russia Central Europe France Britain Ireland and the northern regions Drawing upon research in archaeology history sociology anthropology and the study of religions to connect the reader with the myths and symbols of the European traditions the book shows how the power of European goddesses and holy women evolved through the ages adapting to climate change and social upheaval but continually reflecting the importance of living in an harmonious relationship with the environment and the spirit world From the cave painting of southern France to ancient Irish tombs from shamanic rituals to Arthurian legends the divine feminine plays an essential role in understanding where we have come from and where we are going Comparative examples from other native cultures and quotes from spiritual leaders around the world set European religions in context with other indigenous cultures [Making a Mark](#) Andrew Meirion Jones, Marta

Díaz-Guardamino, 2019-03-31 The visual imagery of Neolithic Britain and Ireland is spectacular While the imagery of passage tombs such as Knowth and Newgrange are well known the rich imagery on decorated portable artefacts is less well understood How does the visual imagery found on decorated portable artefacts compare with other Neolithic imagery such as passage tomb art and rock art How do decorated portable artefacts relate chronologically to other examples of Neolithic imagery Using cutting edge digital imaging techniques the Making a Mark project examined Neolithic decorated portable artefacts of chalk stone bone antler and wood from three key regions southern England and East Anglia the Irish Sea region Wales the Isle of Man and eastern Ireland and Northeast Scotland and Orkney Digital analysis revealed for the first time the prevalence of practices of erasure and reworking amongst a host of decorated portable artefacts changing our understanding of these enigmatic artefacts Rather than mark making being a peripheral activity we can now appreciate the central importance of mark making to the formation of Neolithic communities across Britain and Ireland The volume visually documents and discusses the contexts of the decorated portable artefacts from each region discusses the significance and chronology of practices of erasure and reworking and compares these practices with those found in other Neolithic contexts such as passage tomb art rock art and pottery decoration A contribution from Antonia Thomas also discusses the settlement art and mortuary art of Orkney while Ian Dawson and Louisa Minkin contribute with a discussion of the collaborative fine art practices established during the project

Stone Tools & Society Mark Edmonds, 2012-11-12 Stone tools are the most durable and in some cases the only category of material evidence that students of prehistory have at their disposal Exploring the changing character and context of stone tools in Neolithic and Bronze Age Britain Mark Edmonds examines the varied ways in which these artefacts were caught up in the fabric of past social life Key themes include stone tool procurement and production the nature of technological traditions stone tools and social identity the nature of exchange and the significance of depositional practices As well as contributing to current debate about the interpretation of material culture Dr Edmonds uses the evidence of stone tools to reconsider some of the major horizons of change in later British prehistory From the production of tools at spectacularly located quarries to their ceremonial burial or destruction at ritual monuments this well

illustrated study demonstrates that our understanding of these varied and sometimes enigmatic artefacts requires a concern with their social as well as their practical dimensions

Handbook to Life in Prehistoric Europe Jane McIntosh, 2009-06-01 For most of Europe's long past we have no writing no named individuals no recorded deeds This means that its history is almost entirely that of the ordinary individual the hunter gatherer farmer or metallurgist rather than the king Evidence of privileged elites and material splendor is not lacking however The skills and expertise of prehistoric Europeans were often employed in the production of exquisite jewelry elaborately woven cloth beautifully made tools and finely wrought weapons Though the palaces that have attracted excavators in other lands are absent there are few monuments elsewhere in the world to rival Europe's massive megalithic tombs or great stone circles And though individuals preserve their anonymity and many of their secrets modern technology has made it possible to reveal parts of their life history in astonishing detail Handbook to Life in Prehistoric Europe gathers the results of recent archaeological discoveries and scholarly research into a single accessible volume Organized thematically the handbook covers all aspects of life in prehistoric Europe including the geography of the continent settlement trade and transport industry and crafts religion death and burial warfare language the arts and more Complemented with more than 75 illustrations and maps the result is a fascinating introduction to the 7 000 year period that immediately preceded the Roman Empire
