Symbols in Life and Art James A. Leith, 1987-09-01 Northrop Frye describes the way symbols operate as media of exchange in literature drawing examples from English literature in different periods Eva Kushner examines the increased freedom of expression possible to Renaissance poets because of the availability of a wider range of symbols Poet and literary historian Douglas Jones probes the use of the railway as a distinctive symbol of both unity and alienation for English Canadians Abraham Moles analyses the social impact of dynamic myths on social changes which break with established traditions Bogomila Welsh Ovcharov discusses the function of symbols in the art of Van Gogh James Leith examines the role of symbols in revolutionary movements in particular the adaptation of the ancient symbol of the equilateral triangle Anthony Storr discusses the vital role of symbols in the search for a sense of unity in life Wilfred Cantwell Smith considers various world religions as symbolic efforts to give ultimate meaning to life In conclusion Norman Mackenzie reflects on all the essays drawing on his own command of modern literature and culture [Continuum Encyclopedia of Animal Symbolism in World Art](#) Hope B. Werness, 2006-01-01 Animals and their symbolism in diverse world cultures and different eras of human history are chronicled in this lovely volume **Symboles Dans la Vie Et Dans L'art** George Whalley, Royal Society of Canada, 1987 This collection of nine papers is the result of a colloquium of the Royal Society of Canada held in honour of the late George Whalley at which noted scholars from several countries and various disciplines discussed the role symbols play in human life

Symbols in Arts, Religion and Culture Farrin Chwalkowski, 2016-12-14 We are a product of nature Every single cell of our body is made of and depends on nature Our inner soul is heavily influenced by nature We feel sad if the sun is not shining for a few days and feel pleasure when drawn to the wonder of flowers and uplifted by the song of birds We came from nature we are part of nature In short we are nature Nature has been an intimate part of the human experience from the earliest times Different religions and cultures from all corners of the world have honoured and worshipped nature in art ritual and literature in their own unique ways This book shows how we learn about our own human nature our own sense of identity and how we fit into the larger scheme of life and spirit when we come to better understand how our human ancestors through art symbol and myth expressed their relationship with the natural world *Dictionary of Subjects and Symbols in Art* James Hall, 2018-05-04 The understanding and enjoyment of a work of art depends as much on the story it depicts as on the artist's execution of it But what were once biblical or classical commonplaces are not so readily recognizable today This book relates in a succinct and readable way the themes sacred and secular on which the repertoire of Western art is based Combined here in a single volume are religious classical and historical themes figures of moral allegory and characters from romantic poetry that appeared throughout paintings and sculpture in Western art before and after the Renaissance More than just a dictionary this text places these subjects in their narrative historical or mythological context and uses extensive cross referencing to enhance and clarify the meanings of these themes for the reader The definitive work by which others are

compared this volume has become an indispensable handbook for students and general appreciators alike This wholly redesigned second edition includes a new insert of images chosen by the author as well as a new preface and index to highlight the ideas beliefs and social and religious customs that form the background of much of this subject matter The Life Of Symbols Mary Lecron Foster, Lucy Botscharow, 2019-07-11 This volume considers the role of analogy in symbol formation with reference to bodily process It focuses on symbols and symbolic structures that can be traced over millenia and across geographical distance and addresses the beginnings of figurative art in the Upper Paleolithic cave paintings **The apocalyptic symbolism of Andrej Belyj** Samuel David Cioran, 2012-02-14 No detailed description available for The apocalyptic symbolism of Andrej Belyj *Century Guild Hobby Horse* , 1886 **The Century Guild Hobby Horse** Century Guild of Artists (London, England), 1887 The Arts and the Christian Life Earl Davey, 2022-05-09 Many find their engagement with works of art raises questions concerning where value is found and how meaning and import are understood and experienced For persons of Christian faith a parallel question arises concerning the significance such experience holds for the Christian life and the spiritual journey This collection of essays pursues questions that address how we perceive value in our experience of the arts how this experience leads to a greater measure of human fullness and what significance engagement with the arts holds for the Christian life The author argues that human experience and the quality of our personhood are enriched in and through the imaginative life and that our spiritual lives are profoundly impacted by our aesthetic engagements An underlying assumption is that all great art all that is beautiful is inherently religious that is it embodies qualities that reflect the glory of God and is therefore valuable to the Christian life and one s spiritual experience Indeed insofar as the noetic privileges language and reason the arts and the domain of the aesthetic provide an alternate pathway by which we are able to encounter the Divine *Make Arts for a Better Life* Kathleen Van Buren, Brian Schrag, 2018-09-04 *Make Arts for a Better Life* A Guide for Working with Communities provides a ground breaking model for arts advocacy Aimed at a wide audience including educators scholars and project leaders the Guide presents an in depth approach to researching community artistic practices and to developing arts based projects that address locally defined needs *Male and Female in Social Life* Lloyd E. Sandelands, 2018-01-16 Sex is a theoretical puzzle because it is much older than we are A primary fact of biology sex has defined society from nearly the beginning of life on earth and as a result we cannot see its effects in our lives in evolutionary comparisons with near primate or mammalian relatives Sex is a puzzle too because it is often misconstrued in social science It is not as many social scientists believe a mere feature of a person like hair or skin color Rather it is a part played in the life of the species This propensity to view sex as a personal feature has kept social science from seeing how sex figures in the social life of the species *Male and Female in Social Life* presents a theoretical framework to describe how sex the division of our species between male and female brings life and order to society It argues that sex is the mainspring of social life and it tells us the most about social dynamics and forms The book

centers on five chapters that describe four moments of human social life Following an introduction chapter 2 begins with the first moment of social life unity of the species Chapter 3 examines the second moment of social life division of the species Chapter 4 citing play of the sexes as the third moment shows that sex is the main play of the species and thereby the main basis of social life Chapters 5 and 6 describe the fourth moment order of the species which includes the most basic arrangements of human society including female mate choice male contest female care of the young sorority and fraternity family and bureaucratic organization These later chapters present a threepart theory of social order based on the play of the sexes while then offering evidence in support of this theory by showing how disruptions and distortions in the play of the sexes in the recent history of the United States have brought compensating changes in social life The book concludes with a summary of the book's main points and with directions for further inquiry The volume raises thoughtful long overdue questions about current trends in our culture that minimize or efface sex differences It will be of interest to academics both in the social sciences and in the humanities while at the same time appealing to a more general audience LIFE

Asta Rau,Magdalena Wojciechowska,Jan K. Coetzee,2019-01-01 The chapters in this book reflect on the practice of using narratives to understand individual and social reality They all reveal dimensions of the same concrete reality contemporary society of Central South Africa Except for two all the chapters originated from research in the program The Narrative Study of Lives situated in the Department of Sociology at the University of the Free State in Bloemfontein South Africa Each chapter opens a window on an aspect of everyday life in Central South Africa Each window displays the capacity of the narrative as a methodological tool in qualitative research to open up better understandings of everyday experience The chapters also reflect on the epistemological journey towards unwrapping and breaking open of meaning Narratives are one of many tools available to sociologists in their quest to understand and interpret meaning But when it comes to deep understanding narratives are particularly effective in opening up more intricate levels of meaning

The Active Life Michael J. McGandy, 2012-02-01 The ancient antagonism between the active and the contemplative lives is taken up in this innovative and wide ranging examination of John William Miller s effort to forge a metaphysics of democracy The Active Life sheds new light on Miller s actualist philosophy its scope its systematic character and its dialectical form Michael J McGandy persuasively sets Miller s actualism in the context of Hannah Arendt s understanding of the active life and skillfully presents actualism as a response to Whitman s challenge to craft a democratic form of metaphysics McGandy concludes that Miller reveals how the philosophical and the political are inextricably connected how there is no active life without the contemplative life and that the contemplative life is founded in the active life
