Symmetry And Sense The Poetry Of Sir Philip Sidney:

Symmetry and Sense Robert L. Montgomery, 2011 **Symmetry and Sense** Robert L. Montgomery, 2014-08-04 Few Elizabethans left the image of their personalities cut so deeply into the Renaissance imagination as did Sir Philip Sidney. Widely admired in his own time, Sidney must seem to the modern reader almost universally accomplished. His talents as courtier, diplomat, soldier, scholar, novelist, and poet are history. Almost immediately after Sidney's death in battle against the Spaniards in the Low Countries, the process of legend began, and the legend has survived, sometimes obscuring the facts. The versatile Renaissance man has become, in the eyes of some critics, the romantic lover whose frustrations and despair found release in the confessional form of the sonnet sequence *Astrophel and Stella*, and in other poems. To show these poems to be consciously constructed works of art, not simply passionate outbursts of romantic emotion, is one aim of this study. The author examines Sidney as poet and critic, concentrating his study on rhetorical technique and poetic rhythm and form. He shows Sidney experimenting with the symmetrical possibilities of rhythm and phrase, practicing the ornateness current and acceptable in his day. He examines Sidney's comment on such a style in *The Defense of Poesy* and the ways in which the poet's own work agreed with or departed from his expressed opinions. He also balances Sidney's poetry against the powerful tradition of Petrarchan love literature and the equally powerful Renaissance impulse to subject passion to the rule of reason. Finally, in an extended analysis of *Astrophel and Stella*, he shows Sidney as the master of a plainer, wittier, more subtly fashioned style and a complex, more dramatically immediate form. What emerges from the study is not the personality of the poet but the principles of his art and the value of his achievement in the mainstream of English Renaissance verse.

An Apology for Poetry Philip Sidney, 1973 *English Renaissance Rhetoric and Poetics* Heinrich F. Plett, 2023-08-14 This volume is the first comprehensive reference work on English Renaissance rhetoric and poetics. It is arranged in four sections: A bibliographies, B primary sources, C secondary sources, D indices. Section B lists more than 500 books on rhetoric and poetics published in the British Isles and abroad between 1479 and 1660. Detailed information is provided on each of them: transcription of the title page of the editio princeps, call number of the library copy consulted, further historical and modern editions together with the relevant secondary literature. Section C covers the whole range of applied rhetoric and poetics totalling some 2,000 titles between 1900 and 1994. It deals systematically with such topics as General Studies, Rhetorical Genres and Rhetoric, Poetics and Individual Authors. An introductory essay outlines the principles of the bibliography.

Tropes and the Literary-Scientific Revolution Michael Slater, 2024-04-02 Tropes and the Literary Scientific Revolution. Forms of Proof argues that the rise of mechanical science in the seventeenth century had a profound impact on both language and literature. To the extent that new ideas about things were accompanied by new attitudes toward words, what we commonly regard as the scientific revolution inevitably bore literary dimensions as well. Literary tropes and forms underwent tremendous reassessment in the seventeenth century, and early modern science was shaped just as powerfully by contest over the place of literary figures from personification and metaphor to anamorphosis and allegory. In their rejection of teleological explanations of natural motion, for instance, early modern philosophers often disputed the value of personification, a figural projection of interiority onto what was becoming increasingly a mechanical world. And allegory, a dominant mode of literature from the late Middle Ages until well into the Renaissance, became the vice of those times, as Thomas Rymer described it in 1674. This book shows that its acute devaluation was possible only in conjunction with a distinctively modern physics. Analyzing writings by Sidney, Shakespeare, Bacon, Jonson, Brahe, Kepler, Galileo, Hobbes, Descartes, and more, it asserts that the scientific revolution was a literary phenomenon just as the literary revolution was also a scientific one.

Writing After Sidney Gavin Alexander, 2010 *Writing After Sidney* examines the literary response to Sir Philip Sidney, 1554-86, author of *The Arcadia*, *Astrophil and Stella*, and *The Defence of Poesy*, and the most immediately influential writer of the Elizabethan period. It does so by looking closely both at Sidney and at four writers who had an important stake in his afterlife: his sister Mary Sidney, his brother Robert Sidney, his best friend Fulke Greville, and his niece Mary Wroth. At the same time as these authors wrote their own works in response to Sidney, they

presented his life and writings to the world and were shaped by other writers as his literary and political heirs Readings of these five central authors are embedded in a more general study of the literary and cultural scene in the years after Sidney's death examining the work of such writers as Spenser Jonson Daniel Drayton and Herbert The study uses a wide range of manuscript and printed sources and key use is made of perspectives from Renaissance literary theory especially Renaissance rhetoric The book aims to come to a better understanding of the nature of Sidney's impact on the literature of the fifty or so years after his death in 1586 it also aims to improve our understanding both of Sidney and of the other writers discussed by developing a more nuanced approach to the questions of imitation and example so central to Renaissance literature It thereby adds to the general store of our understanding of how writing of the English Renaissance offered examples to later readers and writers and of how it encountered and responded to such examples itself

The Ashgate Research Companion to The Sidneys, 1500-1700 Mary Ellen Lamb, 2017-02-17 Presented in two volumes The Ashgate Research Companion to The Sidneys 1500 1700 assesses the current state of scholarship on members of the Sidney family and their impact as historical and or literary figures in the period 1500 1700 Volume 2 Literature begins with an exploration of the Sidneys books and manuscripts and how they circulated followed by an overview of the contributions of family members Sir Philip Sidney Mary Sidney Herbert Countess of Pembroke Lady Mary Wroth Robert Sidney Earl of Leicester and William Herbert Earl of Pembroke in the genres of prose romance drama poetry psalms and prose These essays outline major controversies and areas for further research as well as conducting literary analysis

Chamber Music Roger Kuin, 1998-01-01 Roger Kuin's Chamber Music is a playfully written imaginative and ultimately demanding book with a critical approach characterized by an unusual and idiosyncratic post modern critical style that will challenge the reader's perceptions of what a book of criticism should and can do Analysing the sonnet sequences of Sidney Spenser and Shakespeare both from an interpretive angle and from the perspective of a post modern re evaluation of the Renaissance sonnets Roger Kuin's discussion is influenced by many modern literary critics including Roland Barthes and Umberto Eco Kuin focuses on the problems inherent in the form of the sonnet sequence emphasizing the various forms of indeterminacy central to their meaning His sense of the intertextual relationship among the major English sequences is subtle and in places strikingly original in combination with a highly sophisticated understanding of theory Chamber Music is a book that will infuriate many but ultimately reward those who flow with its idiosyncratic style towards Roger Kuin's admirable and expert conclusions
