

SYMPHONY I.

L. van Beethoven, Op. 21.

Adagio molto.

PRIMO.

Allegro con brio.

The musical score is written for a string quartet (PRIMO) and includes a piano (p) part. The tempo is marked 'Adagio molto' for the first part and 'Allegro con brio' for the second part. The score consists of five systems of staves, each with a treble and bass line. The first system shows the initial slow introduction. The second system marks the beginning of the main theme in 3/4 time, characterized by a rhythmic pattern of eighth and sixteenth notes. The third system continues the development of the theme. The fourth system shows a more complex passage with many sixteenth notes. The fifth system concludes the page with a final cadence.

Symphonies 1 Piano:

Symphonies nos. 1-5 Ludwig van Beethoven, 2006-02-14 Comprising some of the most celebrated themes in all of music Beethoven's symphonies have remained at the forefront of the Western canon for two centuries They embody the composer's innovative notion of the symphonic ideal and they bridge the transition between the Classical and Romantic ages although Classical in structure the symphonies possess a psychological element that makes them the quintessence of Romanticism Beethoven's first five symphonies appear here in special unabridged four hand arrangements These elegant versions of the composer's masterpieces have long been favorites of duet performers Reproduced from authoritative editions they offer pianists of an intermediate level and beyond the chance to perform and study these famous works [Beethoven Symphonies #1-5 Arranged for Solo Piano by Franz Liszt](#) Franz Liszt, Ludwig Van Beethoven, Samwise Publishing, 2014-06-23 Beethoven's Symphonies Numbers One Through Five arranged for solo piano by Franz Liszt The name of Beethoven is sacred in art His symphonies are at present universally acknowledged to be master pieces whoever seriously wishes to extend his knowledge or to produce new works can never devote too much reflection and study upon them For this reason every way or manner of making them accessible and popular has a certain merit nor are the rather numerous arrangements published so far without relative merit though for the most part they seem to be of but little intrinsic value for deeper research The poorest lithograph the most faulty translation always gives an idea indefinite though it be of the genius of Michel Angelo of Shakespeare in the most incomplete piano arrangement we recognize here and there the perhaps half effaced traces of the master's inspiration By the development in technique and mechanism which the piano has gained of late it is possible now to attain more and better results than have been attained so far With the immense development of its harmonic power the piano seeks to appropriate more and more all orchestral compositions In the compass of its seven octaves it can with but a few exceptions reproduce all traits all combinations all figurations of the most learned of the deepest tone creations and leaves to the orchestra no other advantages than those of the variety of tone colors and massive effects immense advantages to be sure Such has been my aim in the work I have undertaken and now lay before the musical world I confess that I should have to consider it a rather useless employment of my time if I had but added one more to the numerous hitherto published piano arrangements following in their rut but I consider my time well employed if I have succeeded in transferring to the piano not only the grand outlines of Beethoven's compositions but also all those numerous fine details and smaller traits that so powerfully contribute to the completion of the ensemble My aim has been attained if I stand on the level with the intelligent engraver the conscientious translator who comprehend the spirit of a work and thus contribute to the knowledge of the great masters and to the formation of the sense for the beautiful Rome 1865 F Liszt English translation by C E R Mueller
