Situations Language And Logic:

Situations, Language and Logic J.E. Fenstad, Per-Kristian Halvorsen, Tore Langholm, Johan van Benthem, 2012-12-06 This monograph grew out of research at Xerox PARC and the Center for the Study of Language and Information CSLI during the first year of CSLI's existence. The Center was created as a meeting place for people from many different research traditions and there was much interest in seeing how the various approaches could be joined in a common effort to understand the complexity of language and information. CSLI was thus an ideal environment for our group and our enterprise. Our original goal was to see how a well-developed linguistic theory such as lexical functional grammar could be joined with the ideas emerging from research in situation semantics in a manner which would measure up to the technical standards set by Montague grammar. The outcome was our notion of situation schemata and the extension of constraint-based grammar formalisms to deal with semantic as well as syntactic information. As our work progressed we widened our approach. We decided to also include a detailed study of the logic of situation theory and to investigate how this logical theory is related to the relational theory of meaning developed in situation semantics.

Situations, Language and Logic J. E. Fenstad, Per-Kristian Halvorsen, Tore Langholm, 1987-11-30 **Language, Meaning, Interpretation** Guttorm Fløistad, 2005-12-07 Philosophy of logic and language and of meaning and communication are central to this volume. The discussion of these issues involves analytical approaches including semantics and semiotics, philosophy of science, mathematical logic, phenomenology, hermeneutics, and some aspects of philosophical anthropology and aesthetics. Philosophy of the Absolute also belongs to this broad repertoire of philosophical problems and disciplines. A number of problems and viewpoints derive from the metaphysical system; any relativistic view on ethical values, for instance, makes sense in relation to some absolute. Metaphysical system building may have come to an end, but after all it belongs to philosophy to remind us of our past.

Situation Theoretic Studies in Psychology, Language and Logic Richard Cooper, 1989 Logic and Linguistics Helmut Schnelle, Niels Ole Bernsen, 1989 The present volume on Logic and Linguistics is one in a series of five presenting the findings of a joint European study in cognitive science, 1987-88. The study was organised and funded as a collaborative network by the research unit FAST (Forecast and Assessment in Science and Technology) of the Commission of the European Communities and comprised about 35 scientists from the core disciplines of cognitive science. The research disciplines represented in the network were cognitive psychology, logic and linguistics, cognitive neuroscience, human computer interaction, and artificial intelligence.

Analytic Philosophy of Religion James Franklin Harris,2013-03-14 When Gene Long editor of Kluwer s Handbook of Contemporary Philosophy of Religion Series first invited me to write the volume on Analytic Philosophy of Religion I accepted with great enthusiasm My only explanation for that enthusiasm now is that I was younger and more naive at the time Soon after starting work on the volume my enthusiasm was dampened by the daunting magnitude of the task I began as a sprinter and quickly settled into the pace of a long distance runner Although I considered myself well read in the subject I soon discovered that I had a great deal of research to do to be confident that I had considered all of the major contributions to the various discussions issues and of religion As I read more and more problems found within analytic philosophy books and articles I realized that I had rushed into a territory already well trodden by the angels I am greatly impressed by the sophistication and subtlety of philosophical argument that characterize the different debates in contemporary analytic philosophy of religion This volume covers a vast amount of material I have endeavored to provide the fairest possible reading of different authors and in cases where I include my own critical evaluations and develop my own positions I have endeavored to provide the strongest possible interpretations of the positions I criticize
