Soundings In G E Lessings Philosophy Of Religion:

Soundings in G.E. Lessing's Philosophy of Religion Gérard Vallée, 2000-07-05 Gérard Vallée has collected in this volume some soundings on the diverse often paradoxical philosophical writings of Gotthold Ephraim Lessing. Rather than pigeonhole Lessing into a single school of thought, Vallée has involved himself in a dialogue with his questionings. The six essays are focused on the philosophy of religion contained in his works, although the term philosophy of religion had not yet come into popular use while Lessing was writing. A fresh approach accessible for readers new to Lessing as well as serious scholars. Soundings in G E Lessing's Philosophy of Religion will be of interest to philosophers and students of religion. **Lessing Yearbook** Arno Schilron, Richard E. Schade, Herbert Rowland, 2002 The Lessing Yearbook, the official publication of the Lessing Society, is a valuable source of information on German culture, literature and thought of the eighteenth century. Articles are in German or English. Essays in this volume explore a wide variety of subjects pertaining to class and gender, identity formation and art in Lessing's work as well as Lessing's philosophy on music and poetry. *Paradox and the Prophets* Daniel H. Weiss, 2012-06-21 Weiss examines the style and method of Hermann Cohen's magnum opus *Religion of Reason* out of the Sources of Judaism. Through philosophical and scriptural analyses, Weiss argues for a new reading of this long misunderstood book, demonstrating Cohen's continuing significance for Jewish thought and for philosophy of religion more broadly. Philosophy Begins in Wonder Michael Funk Deckard, Péter Losonczi, 2010-01-01 Philosophy begins with wonder, according to Plato and Aristotle. Yet Plato and Aristotle did not expand a great deal on what precisely wonder is. Does this fact alone not raise curiosity in us as to why this passion or concept is important? What is wonder's role in science, philosophy or theology, except to end thinking or theorizing as soon as one begins? The primary purpose of this book is to show how seventeenth and eighteenth century developments in natural theology, metaphysics, epistemology, ethics, aesthetics and the philosophy of science resulted in a complex history of the passion of wonder, a history in which the elements of continuation, criticism and reformulation are equally present. Philosophy Begins in Wonder provides the first historical overview of wonder and changes the way we see early modern Europe. It is intended for readers who are curious who wonder about how modern philosophy and science were born. The book is for scholars and educated readers alike. Hebrew Bible / Old Testament: The History of Its Interpretation Magne Sæbø, Christianus Brekelmans, Menahem Haran, Michael A. Fishbane, Jean Louis Ska, Peter Machinist, 1996 This third volume of the comprehensive international reference work on the interpretation of the Hebrew Bible Old Testament deals with its reception within the time span of 1300-1800, from the Renaissance to the Enlightenment. Written by Jewish and Christian experts. **International Philosophical Quarterly**, 1961 **The Eighteenth Century** American Society for Eighteenth-Century Studies, 2004 In their hundreds of entries and reviews, the editorial staff have expanded both the quantity and depth of the work but also re-evaluated the subject headings to better reflect the needs of users, be they professionals or students. Furtak, 2025-09-18 This is the first book in any language to collect scholarly essays on Kierkegaard's extraordinary series of Lily Discourses Long considered merely devotional writings the Lily Discourses constitute a sustained and repeated attempt to respond to the imperative issues in Matthew's Gospel Kierkegaard discovers in figures of the lily and the bird a paradoxical obligation to think together unremittingly both suffering and joy the fleeting nature of experience and the effort to endow this very transience with enduring significance In Kierkegaard and the Poetry of the Gospel a diverse group of emerging and established interpreters addresses the religious literary and philosophical dimensions of these discourses In the process they identify and develop a theory of language and of exemplarity crucial to all of Kierkegaard's writings To ask what the lily and bird teach is also to ask what it means or could mean to be human This collection is pivotal in registering clarifying and celebrating Kierkegaard's multiple responses to that question suspended at the heart of his Lily Discourses It is the go-to text for anyone teaching or writing about the Lily Discourses across philosophy literary studies and religion

Florence Nightingale, Gérard Vallée, 2003-05-16 Florence Nightingale is famous as the lady with the lamp in the Crimean War 1854-56 There is a massive amount of literature on this work but as editor Lynn McDonald shows it is often erroneous and films and press reporting on it have been even less accurate The Crimean War reports on Nightingale's correspondence from the war hospitals and on the staggering amount of work she did post-war to ensure that the appalling death rate from disease higher than that from bullets did not recur This volume contains much on Nightingale's efforts to achieve real reforms He
