*Reading Chaucer in Time* Kara Gaston, 2020-02-27 The monograph series Oxford Studies in Medieval Literature and Culture showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue in literature theology and philosophy in social political jurisprudential and intellectual history the history of art and the history of science but also that combines these subjects productively It offers innovative studies on topics that may include but are not limited to manuscript and book history languages and literatures of the global Middle Ages race and the post colonial the digital humanities media and performance music medicine the history of affect and the emotions the literature and practices of devotion the theory and history of gender and sexuality ecocriticism and the environment theories of aesthetics medievalism Reading for form can mean reading for formation Understanding processes through which a text was created can help us in characterizing its form But what is involved in bringing a diachronic process to bear upon a synchronic work When does literary formation begin and end When does form happen These questions emerge with urgency in the interactions between English poet Geoffrey Chaucer and Italian trecento authors Dante Alighieri Giovanni Boccaccio and Francis Petrarch In fourteenth century Italy new ways were emerging of configuring the relation between author and reader Previously medieval reading was often oriented around the significance of the text to the individual reader In Italy however reading was beginning to be understood as a way of getting back to a work's initial formation This book tracks how concepts of reading developed within Italian texts including Dante's Vita nova Boccaccio's Filostrato and Teseida and Petrarch's Seniles impress themselves upon Chaucer's Troilus and Criseyde and Canterbury Tales It argues that Chaucer's poetry reveals the implications of reading for formation above all that it both depends upon and effaces the historical perspective and temporal experience of the individual reader Problems raised within Chaucer's poetry thus inform this book's broader methodological argument that there is no one moment at which the formation of Chaucer's poetry ends rather its form emerges in and through process of reading within time

**The Young Victoria** Deirdre Murphy, 2019-01-01 A vivid portrait of Queen Victoria's childhood offering new insights into one of the most celebrated but often misunderstood monarchs in British history 200 years after her birth This beautiful extensively researched volume investigates the birth and early life of one of the most familiar British monarchs Queen Victoria 1819-1901 A wealth of material including many unexamined sources and unpublished images sheds new light on Victoria's youth Included here are portraits of the queen as princess childhood diaries and sketchbooks clothing jewelry and correspondence Deirdre Murphy paints a vivid picture of Victoria's early years Among her most surprising conclusions is the idea that the queen's personal mythology of a childhood characterized by sadness and isolation is less accurate than is generally thought Victoria's personal relationships are brought brilliantly to life from her affectionate but increasingly suffocating bond with her mother the Duchess of Kent to the controlling influence of Sir John Conroy a man she came to

despise and her courtship with Prince Albert Lesser known figures are also explored including Victoria s first schoolmaster the Reverend George Davys her governess Louise Lehzen and her half sister Feodora This fascinating cast of characters enhances our image of Victoria who emerges as both willful and submissive fickle and affectionate and with the explosive temper of her Hanoverian ancestors      **The Letters of Queen Victoria** Queen Victoria,Victoria Victoria,2014-09-25 This nine volume selection from the letters of Queen Victoria was commissioned by Edward VII and published between 1907 and 1932      *Ollendorff's New Method of Learning to Read, Write, and Speak: the Spanish Language* Mariano Velázquez de la Cadena,Heinrich Gottfried Ollendorff,Theodore Simonné,1849
