Source Rowena Pattee Kryder,2000 *The Whole Elephant Revealed* Marja de Vries,2012-05-25 The Whole Elephant Revealed offers clear insights into the existence and operation of universal laws and the golden ratio It is a synthesis based on common insights found in all wisdom traditions into the operation of universal laws on the one hand and on cutting edge scientific discoveries that are in line with those insights on the other hand These principles are called universal because they work on all levels of existence apply to everything that exist and create order and harmony in the universe Insights into the operation of the universal laws reveals a whole new worldview It helps us to understand how everything works in the universe who we really are and how we can make conscious choices that are more in line with these universal laws Above all it helps us to understand what works and what doesn't work in the long term Everything that operates in line with the universal laws follows the path of least resistance and is in harmony with the greater whole It makes us realize that while everything in the universe works in harmony with these principles many aspects of our personal life and our Western culture are not in line with the operation of these underlying principles If we choose to act in line with the operation of the universal laws it will go easier will be more in tune with who we really are and more in harmony with the greater whole This choice is hard to make though if we don't know those principles For that reason the rediscovery of the working of these principles seems to be of extreme importance In this time of great changes and global unbalance a growing number of people begin to feel the need for a clear and well founded insight into the universal laws because this gives an understanding of what is needed to restore the balance and harmony in ourselves as well as worldwide Because the nature of these principles is universal they apply to all aspects of our individual and social life Therefore they can be used as a frame of reference for all personal and social transformations which aim at a greater harmony within ourselves and with the greater whole Beyond the Indigo Children P. M. H. Atwater,2005-09-29 Connects the arrival of a new type of children with the fulfillment of the Fifth World of the Mayan Calendar and other great prophecies Provides detailed information about the world changes that will take place before and after December 21 2012 Explores the seven root races representing the genetic gene pool of the human family and the phenomenon of soaring intelligence Explains the grand sweep of human evolution and the worldwide ascension of energy now occurring which will take humanity to the next level of development According to prophecy the fifth sun or fifth world of the Mayan calendar moves into a higher octave of vibration or ascension on December 21 2012 This date represents a gateway of planetary development that will open humanity to new ways of living and new worlds of opportunity Ancient traditions have foretold that our successful passage through this gateway depends on the fifth root race new stock in the human gene pool destined to help us through the exciting and massive changes ahead In *Beyond the Indigo Children* P M H Atwater illuminates the characteristics of the fifth root race the capstone being the extraordinary new children those brilliant and irreverent kids born since 1982 She explores the relationship of the new children to the prophecies in the Mayan

Conrad Hyers, 1984-01-01 Conrad Hyers offers a welcome respite from the counter productive effects of extremism that surround the creation issue Focusing on the creation texts from the book of Genesis Hyers interprets the biblical account in light of its relationship to its culture context and purpose Zimzum Christoph Schulte, 2023-09-12 The Hebrew word zimzum originally means contraction withdrawal retreat limitation and concentration In Kabbalah zimzum is a term for God s self limitation done before creating the world to create the world Jewish mystic Isaac Luria coined this term in Galilee in the sixteenth century positing that the God who was Ein Sof unlimited and omnipresent before creation must concentrate himself in the zimzum and withdraw in order to make room for the creation of the world in God s own center At the same time God also limits his infinite omnipotence to allow the finite world to arise Without the zimzum there is no creation making zimzum one of the basic concepts of Judaism The Lurianic doctrine of the zimzum has been considered an intellectual showpiece of the Kabbalah and of Jewish philosophy The teaching of the zimzum has appeared in the Kabbalistic literature across Central and Eastern Europe perhaps most famously in Hasidic literature up to the present day and in philosopher and historian Gershom Scholem s epoch making research on Jewish mysticism The Zimzum has fascinated Jewish and Christian theologians philosophers and writers like no other Kabbalistic teaching This can be seen across the philosophy and cultural history of the twentieth century as it gained prominence among such diverse authors and artists as Franz Rosenzweig Hans Jonas Isaac Bashevis Singer Harold Bloom Barnett Newman and Anselm Kiefer This book follows the traces of the zimzum across the Jewish and Christian intellectual history of Europe and North America over more than four centuries where Judaism and Christianity theosophy and philosophy divine and human mysticism and literature Kabbalah and the arts encounter mix and cross fertilize the interpretations and appropriations of this doctrine of God s self entanglement and limitation Forthcoming Books Rose Arny, 2001 Reformed Dogmatics Herman Bavinck, John Bolt, John Vriend, 2004-10 This classic work of Reformed theology is the second of four volumes now available in English **Reformed Dogmatics :**

Volume 2 Herman Bavinck, 2004-10-01 In partnership with the Dutch Reformed Translation Society Baker Academic is proud to offer the second volume of Herman Bavinck's complete Reformed Dogmatics in English for the very first time. This masterwork will appeal to scholars, students, pastors, and laity interested in Reformed theology and to research and theological libraries. Bavinck was a man of giant mind, vast learning, ageless wisdom, and great expository skill. Solid but lucid, demanding but satisfying, broad and deep and sharp and stabilizing, Bavinck's magisterial Reformed Dogmatics remains after a century the supreme achievement of its kind. J. I. Sacred Texts Interpreted Carl Olson, 2017-10-05 Covering the major monotheistic religions, Christianity, Judaism, and Islam, as well as selected Eastern religions and Bahá'í, Zoroastrianism, and Mormonism, this cross-cultural book offers excerpts of sacred texts and interprets passages to enable a deeper understanding of these religious writings. *Sacred Texts Interpreted: Religious Documents Explained* gives readers the opportunity to examine directly the primary sources of different religions and to better understand these texts through expert commentary on selected passages. The interpretative material investigates the nature of sacred texts along with the relationship between sacred scripture and canon and it explains why these sacred texts have enduring significance and influence. The author provides suggestions on how to read a sacred text before turning to the textual selections from 13 religious traditions arranged alphabetically, beginning with the Bahá'í religion and ending with Zoroastrianism. Each chapter is devoted to the primary textual sources of a particular religious tradition and is prefaced by an introduction to the literature that places it within its historical and cultural heritage. The emphasis for each religion is on its foundational scriptures that are often considered sacred by its adherents. Readers will gain a much greater appreciation of how powerful religious texts have always been across human culture and throughout millennia and of how religious thought and ideology have shaped daily life, built civilizations, inspired art and literature, and incited wars and violence.

Myth and Meaning in Early Taoism N. J. Girardot, 1988 *Myth and Meaning in Early Daoism* examines some of the earliest texts associated with the Daoist tradition, primarily the *Daode jing*, Zhuangzi, and Huainanzi, from the outlook of the comparative history of religions and finds a kind of thematic and soteriological unity rooted in the mythological symbolism of *hundun*, the primal chaos, being and principle that is foundational for the philosophy and practice of the Dao as *creatio continua* in cosmic, social, and individual life. Dedicated to the proposition that ancient Chinese texts and traditions are often best understood from a broad interdisciplinary and interpretive perspective, this work, when it was written, challenged many prevailing conceptions of the *Daode jing* and Zhuangzi as primarily philosophical texts without any religious significance or affinity with the later sectarian traditions. While controversial and at times playfully provocative, the methodology and findings of this book are still important for the ongoing scholarship about Daoism in China and the world.

Patristic Perspectives on Luke's Transfiguration Peter Anthony,2022-03-24 Peter Anthony explores how visionary elements in Luke s Gospel had a particular influence on early interpretation of the Transfiguration by examining the rich hermeneutical traditions that emerged particularly in the Latin West as the Transfiguration was first depicted visually in art Anthony begins by comparing the visual and visionary culture of antiquity with that of the present and their differing interpretations of the Transfiguration He then examines the Transfiguration texts in the synoptic gospels and their interpretation in modern scholarship and the reception of the Transfiguration in 2 Peter the Apocalypse of Peter and the Acts of Peter Tertullian and Origen Proceeding to look at interpretations found in the Greek East and the Latin West Anthony finally discusses the earliest visual depictions of the Transfiguration from the sixth century onward drawn from a wealth of different art forms Anthony concludes that early commentators and artists understanding of how we see and visualise and therefore how the Transfiguration was apprehended is closer to that of the writers of the New Testament than many modern interpreters is
